Business Report to Shareholders

Business Report to Shareholders

Throughout 2022 we launched various innovative PC and display products, expanded our Vero portfolio made with recycled materials, and significantly grew our multiple non-PC/display businesses. The past year continued to be filled with new challenges across multiple industries stemming from inflation, geopolitical issues, and lingering impacts of the Covid-19 pandemic. While Acer keeps evolving with changing lifestyles and adjusting strategies dynamically for business needs, we are focusing on maintaining business momentum and marching toward a more sustainable future.

Our fiscal 2022 results were: consolidated revenues of NT\$275.42 billion, operating income of NT\$6.93 billion, net income of NT\$5.00 billion, and EPS of NT\$1.67.

Continue to Innovate and Optimize Operations ^[1]

With the PC industry entering a period of correction and outlook expected to be flattish by market research companies as better scenario, we have centered our efforts on optimizing inventory levels with the right portfolio of goods, optimizing operating expenditure, increasing operating income to enhance operational sustainability, and at the same time upholding shareholders' interests. Newly launched innovations include the SpatialLabs stereoscopic 3D technology for gaming laptops and displays, which was praised for bringing more realistic experiences to games and media content. We also expanded our Vero line of eco-conscious devices from laptops to desktops, monitors, displays, all-in-ones, Chromebooks, and accessories, which utilizes recycled plastic, recyclable packaging, and ocean-bound plastic. The Vero portfolio offers consumers, businesses, and organizations more options to reduce their carbon footprint and join our advocate for circular economies.

We are confident that new technologies will trigger new usage models and stimulate market demand over time. Other businesses (not part of PCs and displays) contributed 21.7% of total revenues with 11.9% growth YoY. In addition, Acer ranked No. 2 for patent applications in Taiwan. We have developed patents in the AI medical field and own more than 300 patents in thermal cooling technology. For the world-renowned iF Design Awards, Acer holds the titles of "Top 50 (of 7128) Companies" worldwide during 2018-2022.

The common objective shared by our PCs and display businesses and other initiatives, is to explore new markets and broaden current boundaries. Within the Acer group, whether it be PC-related businesses or other fields and innovations being explored by our subsidiaries, each must work to optimize operations, reach profitability, and contribute to Acer group's sustainability.

Currently, we have subsidiaries in diverse scopes of business, including beverage, apparel, home appliances, AI-assisted medical solutions, e-mobility, smart cities, and more. Our strategy to promote intrapreneurship by building multiple business engines continued to gain momentum with nine public subsidiaries by December 2022. Businesses under incubation, such as Altos Computing and AcerPure, continue to show strong progress. Acer offers its shareholders the opportunity to invest in these new engines as they go public to ensure shareholders can have their share of voice and be part of business development and ensuring adherence to corporate governance.

Recognition of Our ESG Initiatives

Acer will continue to work toward the goals of using post-consumer recycled plastic in 20-30% of our PCs and displays by 2025, and sourcing 100% renewable electricity by 2035 for the Acer Group. Moreover, our “Earthion” sustainability platform that unites employees and supply chain partners to tackle environmental challenges continues to gain in strength. We held a “21-Day Green Challenge” for which over 7,000 employees of Acer, our partners and suppliers were motivated to reduce carbon footprints. The campaign succeeded in raising awareness for environmental protection and helping employees form green habits and cutting the equivalent of 152 tons CO2.

Acer’s focus on environmental, social and governance (ESG) through transparent reporting and initiatives under our Earthion mission has gained increasing global recognition. We believe they have been instrumental in our growing inclusion in worldwide sustainability indices throughout 2022. For the third straight year, Acer has been named in the Top 5% category of the S&P Global Sustainability Yearbook for sustainable business practices. For the ninth consecutive year, we have been a constituent of the MSCI ESG Leaders Indexes – garnering the best rating of “AAA” in our category – and listed on the Dow Jones Sustainability Indices (DJSI) Emerging Markets. For the first time, we were awarded Platinum medal that represents EcoVadis Sustainability Rating’s highest recognition representing the top 1% of rated companies. We were also listed on the FTSE4Good Emerging Index for the seventh year.

Remain Vigilant and Flexible to Respond to Potential Risks^[2]

To counteract cyber security threats in the realms of artificial intelligence and cloud services, Acer will continue to strengthen its global information security and monitoring, and comply with international laws and regulations on information privacy and security. We will observe geopolitical and socioeconomic situations as well as the post-pandemic impact on demand, supply chain, and currency fluctuations to dynamically adjust business and operation strategies, including foreign exchange hedging to minimize risks, and optimize inventory levels.

In 2023, we foresee the PC industry to experience the impact of the post-pandemic demand decline in the coming months. However, with clear strategies for our existing businesses, new initiatives, and subsidiaries, along with the support of our customers, shareholders, and employees, we are confident of steering our way through the turbulence and proving our resilience. Let’s continue to push boundaries. Thank you.

Directors' Professional Qualifications and Independent Directors' Independence

Criteria	Professional Qualification and Experience	Independence Analysis	Number of Other Taiwanese Public Companies Concurrently Serving as an Independent Director
Jason Chen	<p>Jason Chen has been Chairman and CEO of Acer since 2017. From 2014 to 2017 he served as Corporate President and CEO, and played a pivotal role in driving Acer's corporate transformation and diversification into new business areas.</p> <p>Before joining Acer, Chen served at TSMC from 2005 to 2013 where his last assignment was Senior Vice President of Worldwide Sales and Marketing. From 1991 to 2005 he enjoyed a 14-year career at Intel during which his last position was as Corporate Vice President of Sales and Marketing Group based at Intel's U.S. headquarters. From 1988 to 1991 Chen worked at IBM Taiwan.</p> <p>Chen specializes in information technology and finance, and doesn't meet any condition defined in Article 30 of Company Act.</p>	<ol style="list-style-type: none"> Except that Chen himself serves as the director of some Acer group's companies, there is no condition that his spouse or relative within the second degree of kinship serves as the director, supervisor or employee of any Acer group's company. Chen holds 2,633,480 shares (0.09%) of the Company by himself and 6,523,056 shares (0.21%) of the Company under others' names. There is no condition that Chen, his spouse or his relative within the second degree of kinship serves as the director, supervisor or employee of the company which has special relationship with the Company or provide commercial, legal, financial, accounting or related services to any Acer group's company. 	1
Stan Shih	<p>Stan Shih co-founded Acer in 1976 under the name Multitech, and served as Chairman and CEO until his initial retirement in 2004. He returned in November 2013 to help lead Acer through its third corporate transformation. In June 2014 he stepped away from the daily operations and became Honorary Chairman.</p> <p>A social entrepreneur, Shih now serves as Chairman of the StanShih Foundation. He is a member of the board at TSMC and Nan Shan Life Insurance. In social and public services, he is Chairman of the Cloud Gate Culture and Arts Foundation, and convener of the Cultural Tech Alliance, Taiwan. He is also a member of the board at the Public Television Service Foundation and the Chinese Television System.</p> <p>Throughout his career, Shih has received numerous accolades, including Businessweek's "25 Top Managers of the Year" (1996) and was featured in TIME in the article "60 years of Asian Heroes" (2006).</p> <p>Shih specializes in information technology, finance and consumer discretionary market and doesn't meet any condition defined in Article 30 of Company Act.</p>	<ol style="list-style-type: none"> Except that Shih himself and his son, Maverick Shih, serve as the director of some Acer group's companies, there is no condition that his spouse or relative within the second degree of kinship serves as the director, supervisor or employee of any Acer group's company. Shih holds 34,989,531 shares (1.15%) of the Company by himself and his family holds 150,573,976 shares (4.94%) of the Company. There is no condition that Shih, his spouse or his relative within the second degree of kinship serves as the director, supervisor or employee of the company which has special relationship with the Company or provide commercial, legal, financial, accounting or related services to any Acer group's company. 	0

Criteria	Professional Qualification and Experience	Independence Analysis	Number of Other Taiwanese Public Companies Concurrently Serving as an Independent Director
Maverick Shih (Representative of Hung Rouan Investment Corp.)	<p>Maverick Shih is the Chairman for Acer Cyber Security and Acer Synergy Tech. When Acer merged with iGware in 2011, he joined Acer as Special Assistant to the President of Cloud Technology Business to help lay the foundation for Acer's cloud service development. The cloud business later became the BYOC (Build Your Own Cloud) Business in 2014 and Shih was promoted as its President, supporting the overall transformation of Acer.</p> <p>With a Ph.D. in Electrical Engineering, Shih's previous appointments specialized in IC design, multimedia audio/video signal processing technology, imaging analysis, and software design for tablets. He holds a B.Sc. degree in Applied Mathematics at Fu Jen Catholic University, and a Ph.D. in Electrical Engineering from the University of Southern California.</p> <p>Shih specializes in information technology, finance and doesn't meet any condition defined in Article 30 of Company Act.</p>	<ol style="list-style-type: none"> Except that Shih himself and his father, Stan Shih, serve as the director of some Acer group's companies, there is no condition that his spouse or relative within the second degree of kinship serves as the director, supervisor or employee of any Acer group's company. Shih holds 10,141,777 shares (0.33%) of the Company by himself and his family holds 175,776,370 shares (5.76%) of the Company. There is no condition that Shih, his spouse or his relative within the second degree of kinship serves as the director, supervisor or employee of the company which has special relationship with the Company or provide commercial, legal, financial, accounting or related services to any Acer group's company. 	0
Ching-Hsiang Hsu	<p>Since 2009, Dr. Ching-Hsiang Hsu has been Chairman of eMemory Technology Inc., the biggest eNVM IP provider in the world, which he founded in 2000 as its President. In addition he has served on the board of directors at National Applied Research Laboratories (NARLabs) since 2018 and as Executive Director of the Taipei Computer Association since 2010.</p> <p>Prior to founding eMemory, Dr. Hsu spent eight years at Taiwan's National Tsing-Hua University (NTHU) and as Chairman of the Institute of Electrical Engineering from 1998 to 2000, and as Professor of the Department of Electronics Engineering from 1992 to 1998. Dr. Hsu worked at IBM T.J. Watson Research Center in the U.S. as researcher from 1987 to 1992.</p> <p>Dr. Hsu graduated from NTHU with a B.S. in Electrical Engineering and received his M.S. and Ph.D. in Electrical Engineering from the University of Illinois, Urbana-Champaign. Renowned for his extensive research and inventions in Non-Volatile Semiconductor Devices, Dr. Hsu holds over 200 patents and has published 120 papers on semiconductors.</p> <p>Dr. Hsu specializes in information technology and consumer discretionary market, and doesn't meet any condition defined in Article 30 of Company Act.</p>	<ol style="list-style-type: none"> There is no condition that Dr. Hsu, his spouse, or his relative within the second degree of kinship serves as the director, supervisor or employee of any Acer group's company. Dr. Hsu, his spouse, and his relative within the second degree of kinship don't hold the Company's share. There is no condition that Dr. Hsu, his spouse or his relative within the second degree of kinship serves as the director, supervisor or employee of the company which has special relationship with the Company or provide commercial, legal, financial, accounting or related services to any Acer group's company. 	1

San-Cheng Chang (Note)	<p>Dr. San-Cheng Chang is Chairman of the SanCode Education Foundation, Honorary Dean of School of Big Data Management at Soochow University, and former Premier of the Executive Yuan, Taiwan.</p> <p>Dr. Chang began his career as a lecturer, associate professor, and professor at the Department of Civil Engineering of National Taiwan University from 1981 to 1990. He was Director for the National Center for High-Performance Computing from 1991 to 1997. From 1998 to 2000, he was Director of the Department of Planning and Evaluation of National Science Council. Between 2000 and 2010, he served at Acer as Vice President of the e-Enabling Service Business Group, and between 2010 and 2012, he was Regional Director of Google's hardware operations in Asia.</p> <p>Dr. Chang's political career began in 2012 when he was appointed as Minister without Portfolio of the Executive Yuan. In 2014, he served as the minister at the Ministry of Science and Technology. In December 2014, Chang became Vice Premier of the Executive Yuan and subsequently the Premier.</p> <p>With a solid engineering discipline, Dr. Chang earned his bachelor's degree in Civil Engineering from National Taiwan University. He has a master's degree from Stanford University and a Ph.D. from Cornell University in Civil and Environmental Engineering.</p> <p>Dr. Chang specializes in communication service, consumer discretionary market and medical health care, and doesn't meet any condition defined in Article 30 of Company Act.</p>	<ol style="list-style-type: none"> 1. There is no condition that Dr. Chang, his spouse, or his relative within the second degree of kinship serves as the director, supervisor or employee of any Acer group's company. 2. Dr. Chang, his spouse, and his relative within the second degree of kinship don't hold the Company's share. 3. There is no condition that Dr. Chang, his spouse or his relative within the second degree of kinship serves as the director, supervisor or employee of the company which has special relationship with the Company or provide commercial, legal, financial, accounting or related services to any Acer group's company. 	0

Note: San-Cheng Chang released on 2022.12.16.

Board of Directors (BOD) Diversity Policy

Acer Group constantly pay attention to corporate governance, our BOD Diversity Policy is included into Chapter III Enhancing the Function of Board of Directors of "Acer Incorporated Corporate Governance Best-Practice Principles".

The board of directors of the Company shall direct company strategies, supervise the management, and be responsible to the shareholders meetings. Procedures and arrangement relating to corporate governance shall ensure that, in exercising its authority, the board of directors will comply with laws, regulations, articles of incorporation, and the resolutions of shareholders meetings of the Company.

Regarding the structure of the board of directors, the Company shall determine an appropriate number of board members not less than five persons, in consideration of its business scale, the shareholding of its major shareholders and practical operational needs.

The composition of the board of directors shall be determined by taking diversity into consideration. It is advisable that directors concurrently serving as company officers not exceed one-third of the total number of the board members, and that an appropriate policy on diversity based on the Company's business operations, operating dynamics, and development needs be formulated and include, without being limited to, the following two general standards:

1. Basic requirements and values: Gender, age, nationality, and culture.
2. Professional knowledge and skills: A professional background (e.g., law, accounting, industry, finance, marketing, and technology), professional skills, and industry experience.

All members of the board shall have the necessary knowledge, skill, and experience to perform their duties. To achieve the ideal goal of corporate governance, the board of directors shall possess the following abilities:

1. Ability to make operational judgment.
2. Ability to perform accounting and financial analysis.
3. Ability to conduct management administration.
4. Ability to conduct crisis management.
5. Industrial knowledge.
6. International market perspective.
7. Ability to lead.
8. Ability to make decisions.

The specific management objectives of the BOD Diversity Policy

This Policy may make the Board function be more effective. The nomination and selection of board members of the Company is in accordance with the Company's Articles. In addition, there is nomination system to ensure the diversity and independence of the board members. The Company expects to invite and nominate one or more female candidates in the board election, and to select directors with different professional knowledge, for providing different perspectives and contributions to facilitate the Board function.

The backgrounds of current Directors:

Name	Gender	Nationality or Registration	Classification	Age			Marketing	Information Security	Cloud	Semiconductor	IC design	Entrepreneur	Transformation	Investment	Accounting	Academia	NPO Experience	Social / Culture	Legal
				40~50	50~60	Above 60													
Jason Chen	M	R.O.C	Non-independent			✓	✓		✓										
Stan Shih	M	R.O.C	Non-independent			✓	✓					✓	✓				✓	✓	
Maverick Shih	M	R.O.C	Non-independent	✓				✓			✓								
Ching-Hsiang Hsu	M	R.O.C	Independent			✓			✓		✓					✓			
Ji-Ren Lee	M	R.O.C	Independent			✓								✓	✓	✓			
Yuri, Kure	F	Japan	Independent	✓															✓
San-Cheng Chang	M	R.O.C	Independent			✓							✓				✓		

The implementation of the BOD Diversity Policy

As of the end of 2022, there are two directors aged between 40 and 50 years old, while the other directors are 60 years old or above. One female director is present, while the remaining directors are male, resulting in a female representation of 14.29%. One director is of Japanese nationality, while the others are of Taiwanese nationality, resulting in a foreign nationality representation of 14.29%. The directors' expertise and diversity backgrounds are as follows:

1. Director specializing in operation and sales of Global brand products and services: Jason Chen
2. Director who be devoted in innovation, public and social services: Stan Shih
3. Director specializing in cloud and IC design: Maverick Shih
4. Director specializing in semiconductor industry and having outstanding contribution on the R&D to non-volatile semiconductor component: Ching- Hsiang Hsu
5. Director specializing in strategic organization and business management: Ji-Ren Lee
6. Director specializing in legal affairs: Yuri, Kure
7. Director specializing in information security and operation of national business, and who had been Premier of Taiwan: San-Cheng Chang

Board of Directors' independence

The Company has seven directors, including four independent directors. The ratio of independent directors is 57.14%. Given that the independent directors constitute more than half of the Board of Directors, the independent directors can fully perform their functions to supervise the Company's operation and protect the shareholders' benefits, give their professional opinions without the influences of management team or other directors, and ensure the Board of Directors' independence.

Except Stan Shih and Maverick Shih are father and son relationship among the Company's directors, there is no relationship of spouse or relative within the second degree of kinship among the other directors (including independent directors). Therefore, there is no violation of Paragraph 3, Article 26-3 of Securities and Exchange Act.

The Company has been established the audit committee to replace the supervisor, so doesn't apply for Paragraph 4, Article 26-3 of Securities and Exchange Act.

Note: Although Mr. Simon Chang resigned as an independent director and various functional committee member of the Company due to being elected as a public official, effective from December 16, 2022, there are still three other independent directors in the Company, which is sufficient to carry out their statutory duties. Furthermore, the terms of the current board of directors will expire and be re-elected in June 2023. At that time, the Company will maintain four independent director seats, which will continue to represent more than half of the total board seats.

3.2.3.4 Compare and explain the company's and all companies in the consolidated statement in the past two years of the total amount of remuneration of the company's directors, supervisors, general managers and deputy general managers as the percentage of the net profit after tax and after having explained the policies, standards, combination of remuneration; setting remuneration procedures; and the relevance of the business performance and the future risks.

(1) The total amount of remuneration paid to the directors of the company in the last two years as a percentage of the net profit after tax

Title	The proportion of the total remuneration of the company in the net profit after tax in 2021	The total remuneration of all companies in the consolidated statement of the Republic of China in 2021 accounted for the proportion of net profit after tax	The proportion of the total remuneration of the company in the net profit after tax in 2022	The total remuneration of all companies in the consolidated statement of the Republic of China in 2022 accounted for the proportion of net profit after tax
Director	0.24%	0.24%	0.42%	0.42%

1. Remuneration policy, standard and combination

The decision of Directors' remuneration is based on the company's articles of association and the "Principles of remuneration for directors" approved by the remuneration committee and approved by the board of directors. After the resolution of the board of directors, the report of the general meeting of shareholders shall be submitted in accordance with the law. In addition to fixed remuneration and business execution fees (including travel expenses), the director's remuneration is based on the company's operating results and its contribution to the company's performance, as well as the high-tech industry support standards in the Willis Towers Watson annual report annual report. The package would be issued by the remuneration committee after the proposal is submitted to the board of directors for resolution and approval.

In addition, the company's "Principle of remuneration for directors" clearly stipulates that directors (including the chairman) who serve as employees concurrently would only receive employee remuneration but not director's remuneration except for business execution expenses. As to avoid difficulty in distinguishing performance contributions when serving as directors and employees at the same time.

2. Procedure for setting remuneration

According to the Article 16-1 of the company's articles of association, if there is profit in the year, no more than 8% should be allocated as the director's remuneration, and the distribution method will be submitted to the board of directors by the compensation and remuneration committee for decision first, then report it to the shareholders meeting as well. According to the regulations of the company's remuneration committee, the remuneration of directors shall be paid in accordance with the "Principles of Payment of Directors' Remuneration". The principles are as follows: (1) A director who concurrently serves as a manager/employee shall neither receive the director's fixed remuneration nor receive the director's remuneration; (2) Since all independent directors have participated in the audit committee, remuneration committee and investment review committee, they have assumed more responsibilities than ordinary (non-independent) directors. The remuneration will be slightly higher than a general director who does not participate in the committee.

3. Link between performance appraisal and remuneration

The procedure for setting remuneration is based on the Company's "Measures for the Evaluation of the Board's Performance" (including the performance evaluation of various committees). The remuneration of the directors of the company is based on their overall consideration of the company's operational participation and performance evaluation results (such as dedication to company affairs, meeting attendance, continuous education, etc.). The results of the overall evaluation of the performance of the board of directors will be submitted to the board of directors' report in the first quarter of the following year, and the directors' remuneration for that year will be further discussed and decided at the same meeting of the board of directors. In addition, according to the organization rules of the Compensation Committee of the Company, the responsibilities of the Compensation Committee include regular review and regular evaluation of the policies, systems, standards and structures for the performance evaluation and compensation of directors and managers.

4. Relationship between business performance and future risks

The remuneration of the directors of the company is not only paid with reference to the company's past operating performance, but also the payment standard, structure and system will be flexibly adjusted according to future risk factors. In addition, the Compensation and Remuneration Committee of the Company will also perform its duties, regularly review and evaluate the remuneration of directors, and submit the recommendations to the Board of Directors for discussion, in order to balance the company's sustainable operation and risk control.

(2) In the past two years, the President and Vice President of the company have been paid

Title	The proportion of the total remuneration of the company in the net profit after tax in 2021	The total remuneration of all companies in the consolidated statement of the Republic of China in 2021 accounted for the proportion of net profit after tax	The proportion of the total remuneration of the company in the net profit after tax in 2022	The total remuneration of all companies in the consolidated statement of the Republic of China in 2022 accounted for the proportion of net profit after tax
President and Vice President	1.72%	4.81%	3.10%	7.28%

1. Remuneration policy, standard and combination

The remuneration paid by the company to managers can be divided into salary, bonus and special payment, plus three types of employee remuneration. Salary is the remuneration referred to in the company law, which is determined based on factors such as job title, overall environment and market standards. Remuneration that reflects work performance; items such as bonuses and special expenses are mainly transportation allowances, which are either a certain amount of transportation allowance or a car purchase

allowance. Employee remuneration is based on the company's articles of association, and after being passed by the remuneration committee and the board of directors, the annual shareholders' meeting report will be submitted according to law.

2. Procedure for setting remuneration

According to Article 20 of Chapter VI of the Company's Articles of Association, if there is profit in the year, more than 4% of the balance should be allocated as employee compensation; the actual distribution ratio and amount of employee compensation are also determined by the board of directors and reported shareholders meeting. The frequency, date and requirements for payment of employee remuneration shall be handled in accordance with the arrangements and procedures proposed in the annual remuneration committee/board of directors report.

3. Link between performance appraisal and remuneration

Employee remuneration is handled in accordance with the company's bonus policy, which covers the achievement of the company's operational goals and personal annual goals. Company goals include financial (such as company revenue, net profit achievement rate) and non-financial indicators (such as professional development and subsidiary operation participation), personal annual goals (such as risk management and annual operation management capabilities) and corporate social responsibility indicators (such as the plan and participation in various corporate social responsibility activities). Based on the above-mentioned results, the ratio and amount of the actual distribution of employee remuneration as decided by the Compensation and Remuneration Committee and the Board of Directors in the first quarter of the following year are highly correlated with the company's operating performance.

4. Correlation between business performance and future risks

The company's managers' remuneration, in addition to reference to the relevant industry standards and the company's past operating performance, the payment standard, structure and system will also be reviewed and adjusted at any time in accordance with the actual operating conditions and changes in relevant laws and regulations, and does not seek to guide managers. Engage in behavior that exceeds the company's risk in return for remuneration. In addition, the remuneration committee of the company will also regularly evaluate the remuneration of managers, and submit the suggestions to the board of directors for discussion, in order to balance the sustainable operation of the company and risk control. In addition, the company has established a risk management committee, which is composed of the top executives of each business unit/functional organization at the headquarters, which is responsible for risk management and reports to the board of directors and the audit committee in order to link business performance with future risk management.

Comparing remunerations paid by the company and all companies in the consolidated statements to the directors, CEO, President and Vice president of the Company in the last two years:

There has been no significant change in the proportion of the total remuneration paid by the Company and all companies in the consolidated statements to the Company's directors, CEO, president and vice president to the net profit after tax in the last two years.

3.3 Corporate Governance Status

3.3.1 Meetings Held by the Board of Directors

4. The Target and Situation Assessment of Strengthening Board of Directors' Functions in current and most recent year:

The Company has established following functional committees to actively strengthen board of director functions and implement good corporate governance through every functional committees' teamwork.

- (1) For the purpose of building sound remuneration system of board of director and officer, the Remuneration Committee was established in August 2011 based on Board resolution in accordance with Taiwan Securities and Exchange Act and relevant Authority' ruling, it consists by three independent directors.
- (2) For the purpose of good corporate governance, the Audit Committee was established in June 2014 after board of director re-election by the shareholders meeting; it consists of all independent directors in accordance with Taiwan Securities and Exchange Act and Company Act.
- (3) For the purpose of previewing the investment, joint venture, M&A regarding new business and other strategic investment, the Investment Committee was established in June 2017 by board resolution in accordance with the Company's Articles of Incorporation; it consists of 5 board of directors, and at least 2 of 5 members shall be independent directors.

"Acer's Corporate Governance Best-Practice Principles" have been amended in 2017 and 2019 to strengthen board of directors' function and duties, and we set up a series of targets to enhance board functions, such as the attendance rate of board meeting, an appropriate policy on diversity of board members, and board of directors' performance evaluation, etc.

The performance assessment result of the Board has been publicly disclosed on Acer Group website in accordance with Acer's "Measures for Performance Evaluation of the Board of Directors" from 2017. For details, please visit: <https://www.acer-group.com>.

3.3.2 Operational Situation of the Audit Committee

The main point to audit as follows:

The Audit Committee is responsible to supervise the Board implementation, enhance management mechanism of Board, and assist to advance Corporate Governance. The material duties includes assistance to execute the flows of accounting, audit, financial report, and advance the quality and integrity of financial control.

- The adoption of or amendments to the internal control system pursuant to Article 14-5 of the Securities and Exchange Act
- Assessment of the effectiveness of the internal control system
- Adoption or amendment, pursuant to Article 36-1 of the Securities and Exchange Act, of handling procedures for financial or operational actions of material significance, such as acquisition or disposal of assets, derivatives trading, extension of monetary loans to others, or endorsements or guarantees for others.
- A matter bearing on the personal interest of a director.
- A material asset or derivatives transaction.
- A material monetary loan, endorsement, or provision of guarantee.
- The offering, issuance, or private placement of any equity-type securities.
- The hiring or dismissal of a certified public accountant, or their Remuneration (including qualification, Independence and Evaluation of the certified public accountant).
- The appointment or discharge of a financial, accounting, or internal audit officer.
- Audit financial reports
- Supervise Regulatory Compliance.
- Review Grievance Reports
- Review Fraud-Prevent Plan and Fraud Investigation Report
- Oversee and Evaluate Risk Appetite and Strategy
- Review Operational Situation of the Audit Committee
- Complete the questionnaires of performance self-evaluation of the Committee
- Resolve other material matters as may be required by this Corporation or by the competent authority.

Under R.O.C. law, the membership of Audit Committee shall consist of all independent Directors. Acer's Audit Committee satisfies this statutory requirement.

Acer's Audit Committee is empowered by its Charter to conduct any study or investigation it deems appropriate to fulfill its responsibilities. It has direct access to Acer's internal auditors, the Company's independent auditors, and all employees of the Company. The Committee is authorized to retain and oversee special legal, accounting, or other consultants as it deems appropriate to fulfill its mandate.

The Committee meets at least once every quarter.

Please consult Acer's Annual Report for the relevant year for the number of meetings convened and each member's attendance rate.

The Audit Committee held six meetings from Jan. 12, 2022 to Dec. 31, 2022. The record of the Members' attendances is shown below:

Title	Name	No. of Meetings Attended	No. of Meetings Attended by Proxy	Meeting Attendance Rate(%)	Note
Independent Director	Ching-Hsiang Hsu	5	1	83%	
Independent Director	Ji-Ren Lee	6	0	100%	
Independent Director	Yuri, Kure	6	0	100%	
Independent Director	San-Cheng Chang	5	1	83%	

Note: Dr. Simon Chang's resignation of Independent Director and Audit Committee member took effect from 16 December 2022. Since the Company still has three independent directors serving as the Audit Committee members, which is sufficient to carry out its statutory duties, and the Company will re-elect all director in June 2023 because of the expiry of the term of office, the Company will not re-appoint the succeeding remuneration committee member to fill the vacancy.

Other matters that are required to be disclosed:

1. If any of below listed-circumstances of operation of Audit Committee occurs, it's necessary to be disclosure, including dates of board meetings, sessions, the contents of motions, Audit Committee's resolution and the Company's response to such Audit Committee's opinions:

- (1) The matters shall be submitted to Audit Committee for approval and then submitted to the Board for approval by resolution in accordance with Article 14-5 of the Securities and Exchange Act.
- (2) In addition to above (1) mentioned matters, any resolution made by over two-third of the board of directors but not approved by Audit Committee.

Audit Committee Meeting Date and Session	Content of Motions	Matters under Article 14-5 of the Taiwan SEA	Resolution made by over two-third of the board of directors but not approved by Audit Committee
2022.03.16 First 2022 Audit committee	To Approve the 2020 Financial Statements and Business Report	V	None
	To approve the Acer's Statement of Internal Control System for 2021	V	None
	To Approve the Appointment CPAs of KPMG as the Auditors of Acer Incorporated	V	None
	To Approve the Amendment of "Rules of Procedure for Shareholders Meetings" and "Regulations Governing the Acquisition and Disposal of Assets" of the Company	V	None
	To Approve the Amendments of the Internal Rules related to Corporate Governance	V	None
	To approve the issuance of unsecured corporate bond	V	None
	To Adoption of the Company and Worldwide Subsidiaries' Lending of Capital to others	V	None
	Resolution made by Audit Committee: above mentioned items have been approved unanimously by all Audit Committee members who present at the meeting. Response to the Audit Committee opinions: The board of directors supported and approved all the items proposed by Audit Committee.

3.3.7 Code of Ethics and Business Conduct

As good corporate citizens Acer Group respect human rights, local communities and compliance with laws, environment, ethics, safety standards, regulations and social norms. Based on our core values of "Serve with honor and work with pride", we have formulated a Standards of Business Conduct (SBC) document to guide us on how we interact with each other, our customers, our business partners, our shareholders and the communities where the Acer Group does business. This is done every day in every decision and every action by each one of us. We continue to build on our reputation for trust, integrity and honesty, both internally and externally, by appreciating people, their diversities and cultures.

You are welcome to visit Acer Group website (<http://www.acer-group.com>) for the details of our "Standards of Integrity Management & Business Conduct."

Items	Enforcement Status			Discrepancy between the corporate governance principles implemented by the Company and the Principles, and the reason for the discrepancy
	Yes	No	Summary	
<p>1. Establishment of Corporate Conduct and Ethics Policy and Implementation Measures</p> <p>(1) Has the Company formulated a Board-approved policy related to code of ethics and business Conduct? Are the Company's guidelines on corporate conduct and ethics provided in internal policies and disclosed publicly? Have the Board of Directors and the top management team demonstrated their commitments to implement the policies?</p> <p>(2) Has the company established any evaluation system for analyzing its business activities periodically to avoid unethical conducts, and strengthen the preventive measures, when establishing appropriate preventive measures at least against the acts listed in Paragraph 2 of Article 7 of the Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies or other higher potential unethical conducts in the relevant policies?</p>	<p>✓</p> <p>✓</p>		<p>(1) Integrity is the most important core value of Acer's culture. The Board of Directors and the management team are dedicated to enforcing the Company's guideline on corporate conduct and ethics. Apart from a series policies related to business integrity, including "Anti-Bribery and Anti-Corruption Policy", "Regulations on Insider Trading", "Export Compliance Policy", "Antitrust and Fair Competition Guidelines", "Group Personal Data Protection Management Policy", the Board of Directors approved "Standards of Integrity Management & Business Conduct" on March 16, 2022.</p> <p>(2) As above-mentioned, Acer formulated and promulgated "Standards of Integrity Management & Business Conduct" and a series policies related to business integrity. Furthermore, Acer established the Integrity Management Promotion Working Group in 2022. The Integrity Management Promotion Working Group uses risk mapping to assess potential threats to the Company's future operations based on the likelihood of various risks and the extent of the damage were they to occur, classifying the risks and ensuring proper prioritization of risk management strategies. At the same time, we use sensitivity analysis and stress testing to undertake further regularly quantitative analysis of relatively high risk business activities in the scope of Acer business, and aggregates the results of these analyses and tests, then drafting follow-up action plans. The assessed items, content and preventive measures have exceeded the relevant provisions of Article 7, Paragraph 2 of the "Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies".</p>	<p>No discrepancy</p> <p>No discrepancy</p>

Items	Enforcement Status			Discrepancy between the corporate governance principles implemented by the Company and the Principles, and the reason for the discrepancy
	Yes	No	Summary	
<p>(3) Has the company established relevant policies for preventing any unethical conduct? Are the implementation of the relevant procedures, guidelines and training mechanism provided in the policies and review the abovementioned policies regularly?</p>	<p>✓</p>		<p>(3) As above-mentioned, Acer has formulated and promulgated Standards of Integrity Management & Business Conduct" and a series policies related to business integrity. The plan to prevent unethical conducts, including normative measures and cycles under the internal control systems; also, there are relevant regulations for the disciplinary and appeal system for employee violations. Furthermore, we arrange new employee orientation and on-the-job training for our employees to prevent any unethical conduct. Most importantly, our Internal Audit Unit would conduct regular audits to raise overall awareness, detect potential misconduct and monitor the procedures compliance, then review the abovementioned policies regularly.</p>	<p>No discrepancy</p>
<p>2. Corporate Conduct and Ethics Compliance Practice</p> <p>(1) Has the company conducted investigation regarding unethical records with whomever the Company doing business with, and included business conduct and ethics related clauses in the business contracts?</p> <p>(2) Has the Company set up dedicated unit in charge of promotion and execution of the company's corporate conduct and ethics, and the dedicated unit shall report to the board regularly (at least once every year)?</p> <p>(3) Has the Company established policies to prevent conflicts of interest and provided appropriate communication and complaint channels?</p>	<p>✓</p> <p>✓</p> <p>✓</p>		<p>(1) To avoid transactions with those with unethical records, all business activities in Acer will be conducted by the operation department to review and evaluation of current and potential business partners, and the Legal Unit will review the contracts. Acer will request its Business Partners to enter into a "VENDOR'S LETTER OF DECLARATION" or other documents related to compliance to ensure honesty and integrity in all dealings with or on behalf of Acer. Acer also remind or request appropriate business partners to comply affirm with their compliance with this policy by sending email every year.</p> <p>(2) Acer Group has committed ourselves to meeting high standards of law and ethics compliance to carry out our business. The management is required to establish a paragon of placing a high value of corporate conduct and ethics. Acer's corporate governance officer is the chief of Integrity Management Promotion Working Group, in charge of formulating integrity management policy and the relevant measures and supervision, and reports to the Board of Directors at least once a year.</p> <p>Up to the date of this Annual Report published, no severe violation is found.</p> <p>(3) We have enacted "Standards of Integrity Management & Business Conduct", "Anti-Bribery and Anti-Corruption Policy", "Acer's Corporate Governance Best-Practice Principles" and "Regulations Governing Procedure for Board of Directors Meetings" to prevent the conflicts of interest and provide whistleblower mailbox on our website (http://www.acer-group.com/public/Investor_Relations/corporate.htm).</p>	<p>No discrepancy</p> <p>No discrepancy</p> <p>No discrepancy</p>

Items	Enforcement Status			Discrepancy between the corporate governance principles implemented by the Company and the Principles, and the reason for the discrepancy
	Yes	No	Summary	
(4) Has the Company established effective accounting and internal control systems for the implementation of policies? Besides, has the Company appointed internal auditor to draw up an audit plan based on the risk assessment for preventing from the unethical behaviors, or assigned CPA to audit?	✓		(4) All the implementation of our accounting system, internal control system, and anti-corruption and anti-bribery policies will be part of the risk assessment process. The Internal Audit Unit will perform such execution and compliance according to the annual audit plan, and further entrusting external CPA to carry out an audit.	No discrepancy
(5) Does the Company provide training regarding ethic compliance practice regularly?	✓		(5) Internally, "Standards of Integrity Management & Business Conduct (SBC)" instructs all employees how to do their business practices. Every newly coming staff would be requested to attend internal SBC training, and Acer has regularly held online anti-corruption and anti-bribery courses arranged by HR unit for current staffs. We provided online training 3 times in 2022, and 15,048 employees finished the training. Externally, we will enhance propagating Acer's anti-bribery policy and the integrity management policy and encourage our business partners' compliance by every gathering or opportunity, such as the annual Acer supplier conference, agents and distributor conferences. 3.3.10 Statement of Internal Control System

3.3.10.1 A Statement on Internal Control

Date: March 16, 2023

Based on the findings of a self-assessment, Acer Incorporated (hereinafter, the "Company") states the following with regard to its internal control system during year 2022:

1. The Company is fully aware that establishing, operating, and maintaining an internal control system are the responsibility of its Board of Directors and managers. The Company has established such a system aimed at providing reasonable assurance regarding the achievement of objectives in the following categories: (1) effectiveness and efficiency of operations (including profitability, performance, and safe-guarding of assets), (2) reliability, timeliness, transparency, and regulatory compliance of reporting, and (3) compliance with applicable laws, regulations and bylaws.
2. An internal control system has inherent limitations. No matter how perfectly designed, an effective internal control system can provide only reasonable assurance of accomplishing the three objectives mentioned above. Moreover, the effectiveness of an internal control system may be subject to changes of environment or circumstances. Nevertheless, the internal control system of the Company contains self-monitoring mechanisms, and the Company promptly takes corrective actions whenever a deficiency is identified.
3. The Company evaluates the design and operating effectiveness of its internal control system based on the criteria provided in the "Regulations Governing Establishment of Internal Control Systems by Public Companies" promulgated by the Securities and Futures Bureau of the Financial Supervisory Commission (hereinafter, the "Regulations"). The criteria adopted by the Regulations identify five constituent elements of internal control based on the process of management control: (1) control environment, (2) risk assessment, (3) control activities, (4) information and communications, and (5) monitoring activities. Each constituent element further contains several items. Please refer to the Regulations for details.
4. The Company has evaluated the design and operating effectiveness of its internal control system according to the aforesaid criteria.
5. Based on the results of the evaluation mentioned in the preceding paragraph, the Company believes that, as of December 31, 2022, its internal control system (including its supervision of subsidiaries), was effective in design and operation, and reasonably assured the achievement of the above-stated objectives.
6. This Statement will be an essential content of the Company's Annual Report for the year 2022 and Prospectus, and will be publicly disclosed. Any falsehood, concealment, or other illegality in the content made public will entail legal liability under Articles 20, 32, 171, and 174 of the Securities and Exchanged Act.
7. This Statement has been passed by the Board of Directors in their meeting held on March 16, 2023, with 0 of the 6 attending directors expressing dissenting opinions, and the remainder all affirming the content of this Statement.

Note: The appropriation of 2022 earnings had been proposed by the Board of Directors on March 16, 2023, which included the distribution of cash dividends.

4.1.6 Dividend Policy and the Execution

4.1.6.1 Dividend Policy

Due to rapid changes of the industrial situation and development trend, the Company's dividend strategy depends on annual earnings and external environments, therefore, the Company adopts balance dividend policy in accordance with relevant laws and regulations: Cash dividends shall be distributed at least ten percent of total annual dividends, such policy has been approved at the General Shareholder's Meeting held on June 17, 2004.

4.1.6.2 Dividends of the Company Proposed to 2023 General Shareholders Meeting

1. The Board of Directors proposed FY2022 dividends to 2023 General Shareholders Meeting as following:

The beginning balance of the un-appropriated retained earnings of this Company is NT\$ 23,748,872 in 2022. After plus the net income after tax of 2022, the disposal gain or loss of financial assets at fair value through other comprehensive income, and set aside legal reserve, and special reserve in accordance with applicable laws and regulations, the total accumulative retained earnings available for appropriation is NT\$4,571,876,660. It is proposed to distribute NT\$ 4,571,780,742 as the dividends to the shareholders. The ending balance of the unappropriated retained earnings is NT 95,918, which is reserved for distribution in the future.

All dividends will be paid in the form of cash distributions to the shareholders whose names and respective shares are in the shareholders' register on the record date for ex-dividend, at a ratio of NT\$1.5 per share. (Rounded down to NT\$1.0 and the residue will be calculated as the company's other income)

- Should the cash distribution be adjusted due to the amendment of laws or regulations, a request by competent authorities, or any change of the numbers of outstanding share, subject to the approved distribution, it is proposed the General Shareholders' Meeting to authorize the chairman of Board of Directors with full power to adjust the distribution ratio.
- The record date for ex-dividend is temporarily set on July 7, 2023, and the distribution date is set on August 3, 2023. Should the dates above be adjusted due to the amendment of laws or regulations, a request by competent authorities, it is proposed to authorize the chairman of Board of Directors with full power to adjust accordingly.

4.1.7 Analysis on Impact of Proposed Stock Dividends Appropriation in Terms of Operating Results, Earnings Per Share and Rate of Return of Shareholders' Investment

Not Applicable

4.1.8 Compensation of Employees, Directors, and Supervisors

1. Remuneration of the Board of Directors and Employee Compensation Stipulated in Acer's Articles of Incorporation:

(1) Remuneration of the Board of Directors:

Where there is profit in each fiscal year, after covering the accumulated losses, not more than eight thousandths (8‰) of the profit shall be distributed as remuneration of directors; the standard for distribution of remuneration will be recommended by Remuneration Committee and determined by the Board of Directors.

(2) Employees' Compensation Resulted from Annual Earnings:

Where there is profit at the end of each fiscal year, after covering the accumulated losses, at least 4% of the profit shall be distributed as employees' compensation.

The employees' compensation in the previous section may be distributed in the form of either cash or stock bonus, and may be distributed to the employees of subsidiaries of this Company. Qualification requirements of the employees who are entitled to receive the employees' compensation may be specified by the Board of Directors.

2. The standard of accruing employee compensation and remuneration of the Board of Directors and Supervisors, the standard of distributing employees' compensation in the form of stock bonus, and the accounting treatment of difference between the actual distribution amount and the accrued amount:

The Company accrues employee compensation and remuneration of the Board of Directors proportionally from the pre-tax income which referred in Acer's Articles of Incorporation before deducting employee compensation and remuneration of the Board of Directors. Should there be any differences between the actual distribution amount and the accrued amount after the annual financial statements is made and ratified, the difference should be treated as changes in accounting estimates and adjusted in the following year.

3. Distribution of Remuneration of the Board of Directors and Employee Compensation:

(1) The total amount of employees' compensation distributed in the form of either cash or stock bonus, and Remuneration of the Board of Directors. Should there be any differences between the actual distribution amount and the accrued amount after the annual financial statements is made and ratified, the revealing differences, causes and treatment:

- The total amount of employees' 2022 profit sharing bonus is NT\$ 475,000,000, and the total amount of Board Directors' 2022 compensation is NT\$7,000,000. The Board of Directors approved the proposal of employees' 2022 profit sharing bonus and Board Directors' compensation on March 16, 2023. The employees' profit sharing bonus and Board Directors' compensation are to be distributed in cash.
- There is difference of NT\$11,799,565 between the actual distribution amount and the accrued amount, and this difference will be recognized as profit or loss at next year.

(2) The proportion that the amount of employees' compensation distributed in stock bonus to net income stated in this year financial statement or individual financial reports, and the total amount employee compensation: Not applicable

4. The actual distribution to the remunerations to employees, Directors and Supervisors of Last Fiscal Year (including distributed shares, amount and price of shares). Should there be any differences between the actual distribution amount and the accrued amount after the annual financial statements is made and ratified, the revealing differences, causes and treatment:

	FY2021		
	Dividend Distribution Proposed by the BOD	Actual Dividend Distribution	
		Amount	Share

Acer's Business Formula

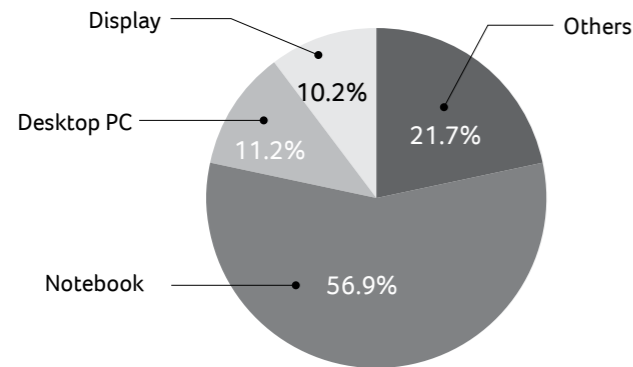

5.1 Business Content

5.1.1 Business Scope

5.1.1.1 Business Portfolio

Founded in 1976, Acer is now one of the world's top ICT companies and has a presence in over 160 countries. As the company evolves with the industry and changing lifestyles, it is focused on enabling a world where hardware, software and services will fuse with one another, creating ecosystems and opening up new possibilities for consumers and businesses alike. Acer has pledged to source 100% renewable electricity by 2035 in addition to developing greener product designs and reducing carbon footprint throughout its supply chain. Acer's 7,700 employees are dedicated to the research, design, marketing, sale, and support of products and solutions that enable smart living and break barriers between people and technology.

R2022 revenue breakdown by application

Note:
 Desktop PC excludes displays.
 Display includes desktop monitor and projector.
 Others include 9 public subsidiaries and businesses under incubation.

5.1.1.2 Industry Highlights

1. Status and Opportunity: As environmental issues become increasingly pressing, brands from across industries have been stepping up efforts to help reduce their burden on the planet. Efforts vary from changing the way they operate to reduce their carbon footprint, using recycled materials, green energy, and more. With the firm belief that it is everyone's responsibility to do the right thing for a greener environment, Acer has continued to focus on maintaining its business momentum while marching toward a more sustainable future.

Since 2012 it has set and steadily achieved its carbon reduction targets. Acer joined the RE100 initiative and pledged to source 100% renewable electricity by 2035. Moreover, through its "Earthion" platform that unites employees and supply chain partners to tackle environmental challenges, Acer expanded its Vero line of eco-conscious products which utilize recycle materials and recyclable packaging.

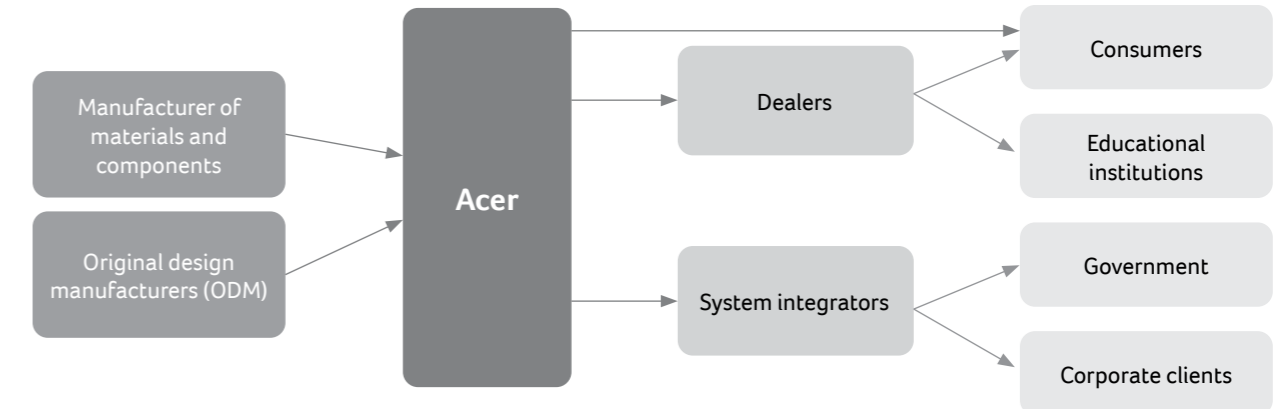

The digital infrastructure developments led by artificial intelligence (AI) and 5G has enabled a new network connecting everyone to all kinds of devices. The superfast data speed, reliability, huge network capacity, and efficient energy usage will enable new applications, opportunities, and challenges across industries.

The convergence of AI and internet of things (IoT) technologies and solutions has led to smarter networks and systems that are becoming ever more capable of solving problems across a diverse number of industry verticals. The direct connectivity of AIoT devices to the cloud has opened the way for a wider scope of innovation. AI adds value to IoT with big data analytics and machine learning to more sophisticated decision making, while IoT brings the additional benefits of connectivity, signaling, and data exchange to AI. Smart solutions for air monitoring, medical, and cities are examples of the various AIoT solutions being developed by Acer and its subsidiaries.

The Covid-19 pandemic propelled a surge in digitization and connectivity through the internet and cloud, and consequently the need to step up security measures to ensure the information of companies and organizations stays safe against cyberattacks. Acer Cyber Security, an Acer subsidiary, is an established leader of cyber security business in Taiwan and offers solutions in this realm.

When most businesses around the world began resuming work back in offices in 2022, Acer saw some new demand for commercial PC use. Currently, as the industry is experiencing headwinds, the company will continue to enhance its business resilience through establishing multiple business engines and developing products and solutions that add value to new lifestyles.

2. Upstream to Downstream Suppliers:

3. Trends: Acer is constantly evolving with the industry and changing lifestyles. While continuing to research and innovate to enhance its existing product offerings, including notebook and desktop PCs, projectors, monitors, gadgets and other smart devices, Acer has also dedicated more resources to segments with high margin and high growth opportunities to optimize investments, such as the gaming ecosystem and Chromebooks for education and enterprises. For initiatives other than PCs and displays, Acer has invested in multiple business engines, including beverage, apparel, home appliances, AI-assisted medical solutions, e-mobility, smart cities, information security, and more. Some of these services are provided through the various Acer subsidiaries:

Acer Cyber Security Inc. (ACSI) is an established leader of cybersecurity business in Taiwan. The surge in digitalization and connectivity through the internet and cloud has accelerated the need for enhanced security measures to safeguard information of companies and organizations against cyber-attacks.

Acer Synergy Tech Corp. (AST) lets companies focus on business development by taking care of the systems integration and IT outsourcing. It provides customers with a one-stop-shop of integrated IT services including planning, integration, installation, and management of enterprise information infrastructure.

AOPEN Inc. integrates digital signage, smart kiosk, and machine vision, into solutions for clients in retail, traffic, medical care, and automated equipment. Amid the Covid-19 pandemic, it quickly adjusted strategies to manage the crisis by developing AI facial recognition systems that effectively detected high body temperatures. Enabling people to exercise from the comfort and safety of their homes, AOPEN also offers a smart home gym for whole-body workout within a compact space, complete with training app to record and track.

Acer e-Enabling Service Business Inc. (AEB) provides digital transformation services including cloud services, applications, AIoT, appliances (edge computing), and PaaS (platform as a service). AEB serves more than 1,000 companies across diversified industries, including the public sector, finance, telecommunications, manufacturing, healthcare, education and culture and high-tech industries.

4. Competition: The gaming market is rigorous, and while having built a comprehensive gaming ecosystem that includes hardware/accessories, esports tournaments, social platforms, and beverages, Acer added a new dimension to gaming with its SpatialLabs 3D technology to its gaming laptops and displays – glasses free. For display and sensory technologies in the virtual world, the SpatialLabs suite of experiences combines eye tracking stereo camera, a real-time rendering system, and stereoscopic 3D display to the world of gaming.

In gaming hardware, Acer has stood out from competition with its advanced thermal cooling solutions that enable its gaming notebooks and desktops to run at peak performance.

Through ongoing research, Acer continues to identify new groups of PC users. The PC industry continues to demand thinner, lighter, and more mobile devices. Acer keeps enhancing its series of thin and light notebooks offering longer power and outstanding performance on the move.

5.1.1.3 Technology and R&D

In 2022, Acer spent NT\$2.45 billion on research and development, which accounted for 1% of total revenues, focusing on user interface, industrial design and usage scenarios, ICT related hardware and software, IoT technology. In addition, the company has been building on its existing PC and displays business and expanding into new areas that can seamlessly integrate PCs with new software applications and integrate cloud services as a “hardware + software + services” company. Focusing on areas with high growth opportunities, Acer has been working on designs that fulfill the needs and desires of various markets, such as mobile professionals, gamers, creators, and education.

Underscoring the importance it places on research and development, in 2022 Acer ranked No.2 in Taiwan patent applications. Acer has developed various patents in the AI medical field and owns over 300 patents in thermal cooling technology. In addition, Acer holds the titles of “Top 50 (of 7128) Companies” worldwide and “Top 3 (of 1040) Taiwan” 2018-2022 at the world-renowned iF Design Awards.

With the commitment in designing for customer needs, Acer has received many international awards for design excellence in 2022:

Design Awards

Design Award	Award Winners
 iF Design Award	iF Design Award winners: Aspire Vero eco-conscious laptop, Swift 5 laptop, Aspire C24 All-in-One PC, Predator X32 FP display, and Predator GD711 projector.
 Red Dot Award	The HYPERLINK Aspire Vero eco-conscious laptop, Predator Orion 7000 gaming desktop, the Predator CG48 OLED gaming monitor, and the Nitro XR383CUR P curved gaming monitor, the thin-and-light Swift X laptop, and theHYPERLINK "https://ces.tech/Innovation-Awards/Honorees/2022/Honorees/C/ConceptD-7-SpatialLabs-Edition.aspx" ConceptD 7 SpatialLabs Edition laptop earned the symbol of design quality.
 Red Dot Award: Packaging Design	The Aspire Vero and Aspire Vero National Geographic Edition laptops both took home the “Packaging Design” award for their eco-friendly and innovative packaging designs.
 Red Dot Award: Film & Animation	The Project Humanity documentary and ConceptD 500/100's product video were bestowed awards in the “Film & Animation” category for their stellar storyboard.
 Red Dot Award: Advertising	The Project Humanity campaign and Predator “It Lies Within” gaming campaign won awards in the “Advertising” category.
 Good Design Award of Japan	Multiple products from the Vero line of eco-conscious products, namely the Acer Chromebook Vero 514, the Veriton Vero all-in-one, and the Vero CB3 series monitor, in addition to the Swift Edge notebook earned the Good Design Award from Japan.

New Technologies

- In the AI medical field, Acer Medical Inc. provides multiple AI-assisted medical solutions, including AI-assisted diagnosis software VeriSee DR (Diabetic Retinopathy), VeriSee AMD (Age-Related Macular Degeneration), and video diagnosis and treatment software TeleMed. So far, VeriSee DR has tapped into five overseas markets and obtained FDA approval from multiple markets including Taiwan, Philippines, Thailand, Indonesia, etc. Also, VeriSee DR has been introduced to Hong Kong and adapted to Thailand and India's hospitals.
- Acer has been actively involved in realizing the smart city vision to build a resilient city. Its subsidiary, Acer Being Communication, offers several business IoT solutions for smart cities and Industry 4.0. With smart connection as the foundation, the smart solutions include agriculture monitoring stations, water quality monitoring, water meter, street lighting, air pollution detection, and such, providing a variety of choices for more efficient and effective business IoT applications. Following the successful collaboration by Acer ITS in Taiwan's first roadside Smart Parking Meter BOT project in Tainan, Acer will continue to expand solutions for smart parking and electric vehicle charging stations all-in-one, and responding to the group's goal of reducing carbon emissions.

5.1.1.4 Long and Short Term Business Plan

Acer is constantly evolving with the industry and changing lifestyles by continuing to push for innovation in existing businesses, while expanding to new territories. In the PC and displays business, Acer is committed to strengthening the foundations with technological innovations such as its state-of-the-art thermal cooling solutions, and designing unique product lines for the specific needs of gamers, education, and more. At the same time, Acer's strategy is to explore new opportunities, expand into adjacent territories, and cultivate multiple business engines. Acer is encouraging employees to think outside the box by promoting intra-preneurship.

Short Term Plan:

Acer will continue to optimize its PC and displays business and has dedicated more resources in segments with high growth opportunities to optimize investments, such as thin-and-light notebooks, gaming line, and Chromebooks for education and enterprises. At the same time, Acer is constantly observing the changes of the global economy and taking measures as necessary to minimize impacts and maintain operational growth.

Long Term Plan:

Acer continues to research and develop customer-centric products, and explore beyond boundaries to identify and incubate micro trends that have potential for growth. Its strategy is to grow its multiple business engines for the group's long-term sustainability, and this strategy has been making progress. Currently, Acer has nine public subsidiaries: Acer Gadget, Acer Gaming, Highpoint Service Network, Acer Medical, Acer Cyber Security, Acer Synergy Tech, Weblink International Inc., Acer e-Enabling Service Business, and AOPEN.

Moreover, Acer applies the Responsible Business Alliance (RBA) Code of Conduct as the standard to ensure responsible sourcing of materials, and compliant working environments that uphold human rights. It demonstrates Acer's commitment to environmental protection, social responsibility, while optimizing its operations.

For more information may be found in Chapter 6: Sustainable Development/ESG.

5.1.2 Market Highlights

5.1.2.1 Market Analysis

1. Market Share of PC Products

Acer's 2022 revenue breakdown by regional operation are: Pan Asia Pacific with 47.7% share, EMEA with 26.6% share, and Pan America with 25.7% share. In worldwide PC shipments (Source: IDC), Acer ranked No. 6 for total PCs with 6% share, No. 6 for notebooks with 7% share, and No. 4 for desktops with 4% share.

2. The Future of Market Demand and Supply

Facing global issues such as inflation, Acer's strategy to build and strengthen multiple business engines continues to gain momentum; in 2022 its businesses other than PCs and displays contributed 21.7% of total revenues, up 119% year-on-year. At the same time, Acer is placing emphasis on optimizing inventory levels and increasing net cash to weather industry headwinds.

Opportunities continue to arise from the expanding gaming ecosystem with diversified business models and innovative applications. According to Statista, the global esports market has boomed in recent years and by 2025, there are expected to be over 318 million esports enthusiasts worldwide, in addition to some 322.7 million occasional viewers of esports.

In the year ahead, the company will continue observing users' needs and identifying micro-trends that have the potential to create a new blue ocean of opportunities. In parallel to focusing on its PC and displays products, Acer will persist in developing multiple growth engines, and integrate "software + hardware + services" as a forward-looking company.

3. Competitive Advantage

The common objective among all of Acer's businesses is to explore new markets and broaden current boundaries. Underscoring the importance the company places on research and development, in 2022 Acer ranked No. 2 in Taiwan patent applications.

In addition, its R&D takes into account of the design thinking process and key technologies, creating a competitive advantage for the company and resulting in the launch of numerous highly competitive and innovative products. Shifting away from traditional computer hardware manufacturers' mindset, Acer's Value Lab has gradually invested more resources in developing artificial intelligence, big data and more, while exploring new business models to create opportunities for growth. Acer also has a number of subsidiaries in diverse scopes of business including information security, smart parking, smart wearables, AI medical, smart public health systems, and these are just some examples of the multiple growth engines. Nine of these engines have made progress to becoming listed companies: Acer Gadget, Acer Gaming, Highpoint Service Network, Acer Medical, Acer Cyber Security, Acer Synergy Tech, Weblink International Inc., AOPEN, and Acer e-Enabling Service Business.

In terms of sales channel reach, Acer has a presence in over 160 countries and a lean organization for effective and fast decision making. Its R&D, design, marketing, sales, and services all adopt a global strategy, which is the company's advantage.

4. Advantages, Disadvantages and Counter Measures

Advantages

- (1) Acer is confident that new technologies trigger new usage models and stimulate market demand over time. It announced its SpatialLabs 3D technology that brought a new dimension to PC gaming.
- (2) Prior to the pandemic, while the traditional PC market had been stagnating, Acer focused on segments with high growth potential, and continues to do so. They are PCs in the areas of thin-and-light, gaming, creators, Chromebooks for education and enterprise, and more, for different users' needs. Market segments are further divided to address specific users, for example, gaming PCs for hardcore and casual gamers.
- (3) Consistent marketing activities for high-profile brand and products, such as the Predator gaming brand and the Swift line of ultraportable laptops have helped to build the company's image for high-end designs and enhanced brand awareness.
- (4) Facing the rapidly changing market dynamics, innovation and entrepreneurship pave the way to the future. Acer ranked No. 2 in Taiwan patent applications, reflecting its competitive edge in design and innovation.
- (5) With a presence in over 160 countries, Acer has a comprehensive network of sales channels, and a lean organization for effective and fast decision making.
- (6) Acer has continued to innovate in the PC and display market, while also expanding to new areas and cultivating multiple business engines to maintain the company's momentum and ensure long-term sustainability.

- (7) Environmental, social, governance (ESG): Through transparent reporting of its efforts in ESG, Acer has been recognized and won major industry accolades. Acer was awarded with a Silver Class distinction in the S&P Global Sustainability Yearbook in both 2021 and 2022 for the top ESG scoring companies. The company was listed in the MSCI ESG Leaders Indexes for the ninth year, and garnered the best rating of "AAA" in its category. And for the ninth consecutive year Acer was listed in the Dow Jones Sustainability Indices Emerging Markets Index.

Disadvantages and Countermeasures:

- (1) In the latter part of the Covid-19 pandemic, the demand for PCs has quietened, however, the supply chain continued to be disrupted due to geopolitical issues.
 - Actions: Acer communicates with its component suppliers on a daily basis of its needs, and strives to optimize its inventory levels with the right portfolio of products.
- (2) The volatile and rapidly changing ICT industry presents a challenge to forecast the future PC demand with accuracy.
 - Actions: Constantly evolve with industry and changing lifestyle is Acer's firm belief to creating renewed growth. The common objective for both its consumer and commercial markets is to explore new markets and broaden current boundaries. Acer will continue to explore different markets and launch products for different applications, identify micro trends for a blue ocean of opportunities. In addition to the PC and display businesses, fulfill the needs of more user groups and market segments; Acer is expanding its offering to beverages, systems integration, AI medical, information security and others, to discover new opportunities. With issues such as global trade, global tax, and geopolitical situations, Acer is open to consideration of additional locations for outsourced productions.
- (3) The speed of information digitalization and ecommerce has accelerated with the Covid-19 pandemic, with the increase to remote working, distance learning, and online shopping.
- (4) Market volatility may result in greatly fluctuating demands.
 - Actions: Acer and its subsidiaries will continue to adopt the channel business model and strengthen cooperation with key suppliers and distributors, while continuously monitoring market demands and new trends. In addition, e-commerce sales models have been adopted to directly serve consumers and understand their preferences.

5.1.2.2 Key Products and Manufacturing Process

1. Current product and service offering

- (1) Notebook PCs
- (2) Desktop PCs
- (3) Monitors
- (4) Projectors
- (5) Gaming products and esports platform
- (6) Gadgets and apparel
- (7) Servers
- (8) Cloud services
- (9) E-business and services
- (10) Commercial solutions
- (11) Digital signage solutions
- (12) Cyber security and datacenter
- (13) Beverages
- (14) Smart cities
- (15) AI-assisted medical solutions
- (16) E-mobility
- (17) Home appliances

2. Manufacturing process

Acer and its subsidiaries outsource manufacturing to various ODMs and are not directly involved in the manufacturing processes. In addition, Acer has set up assembly lines across the Asia Pacific region, aiming to increase flexibility to meet local customer needs, such as government tenders. To fulfill its responsibilities as a corporate citizen, Acer strictly requires its suppliers to comply with environmental protection and local labor regulations, such as the European Union's Restriction of Hazardous Substances (RoHS), in the production and manufacturing processes. In addition, since 2008 Acer has joined the Responsible Business Alliance (RBA), formerly known as the Electronic Industry Citizenship Coalition (EICC), which requires suppliers to adhere to the RBA Code of Conduct to ensure the operational compliance of the company and its suppliers.

5.1.3 Production Process of Key Products

Acer has long-term cooperation with reputable firms, in and out of Taiwan, for the supply of components and parts. In addition, the company strictly prohibits suppliers from using components and finished products produced with raw materials obtained illegally or via inhumane ways; or purchasing tantalum, tin, tungsten and gold (known as 3TG) from sources with direct or indirect funding or benefits from armed groups of Congo or neighboring countries. Acer also updated the "Responsible Raw Materials Purchasing Policy" in 2017 by expanding the scope of mineral management beyond 3TG and Congo to ensure minerals management is consistent with the OECD's guidance for mineral supply chains in conflict-affected and high-risk areas. The company requires suppliers to provide mineral procurement policies and processes, take due diligence process, and shoulder the responsibility of social and environmental protection.

Since 2016, the company has expanded its Responsible Business Alliance (RBA) management to two tiers of suppliers (i.e. the supplier of suppliers), which has extended to three tiers in 2021. In addition, Acer plans to include three tiers of suppliers to participate in the CDP global disclosure system in 2022. These efforts aim to promote a positive cycle for a sustainable future.

5.1.4 Key Buyers and Suppliers Accounting Over 10% of Total Net Sales and Purchase

(1) Key Buyers for Acer Group: None

(2) Key Suppliers for Acer Group

Unit: NTD Thousands

Item	Year 2021				Year 2022			
	From	Amount	Percentage of total net purchase (%)	Relationship with Acer Inc.	From	Amount	Percentage of total net purchase (%)	Relationship with Acer Inc.
1	Supplier D	45,200,090	20.85	None	Supplier D	36,430,033	25.46	None
	Others	171,564,203	79.15		Others	106,679,589	74.54	
	Total Net Purchase	216,764,293	100.00		Total Net Purchase	143,109,622	100.00	

Note: The key suppliers are not significant change in 2021 and 2022.

5.1.5 Production Value in the Last Two Years

Not applicable.

5.1.6 The Sales Value in the Last Two Years

Unit: NTD Thousands

Major production	Year	Year 2021		Year 2022	
		Domestic Sales	Foreign Sales	Domestic Sales	Foreign Sales
Computer		6,337,179	231,100,641	5,964,229	186,860,370
Peripherals & Others		44,184,412	37,383,224	45,131,767	37,467,378
Total		50,521,591	268,483,865	51,095,996	224,327,748

5.2 Keys to a Sustainable Future

5.2.1 Optimize operations by strengthening the foundations and exploring new possibilities

To maintain the company's momentum and long-term sustainability, Acer keeps evolving in both its existing businesses and new initiatives by continuing to push for innovation and environmentally friendly designs with its PC/displays businesses, while expanding multiple business engines.

Acer will continue to research and innovate in its notebook and desktop PC, projector, and display businesses, and dedicates more resources to segments with high growth opportunities to optimize investments, such as the gaming line, thin-and-light notebooks, Chromebooks for education and enterprises, and PCs for creators. In the area of display and sensory technologies in the virtual world, Acer has introduced glasses-free stereoscopic 3D technology to bring a new dimension for gamers, designers, and developers.

To help tackle environmental challenges, Acer expanded its Vero line of eco-conscious products, which utilize recycled plastic, recyclable packaging, and ocean-bound plastic, and launched e-mobility products for sustainable living. With the joining of the RE100 initiative, Acer has pledged to source 100% renewable electricity by 2035 and reach net zero by 2050.

At the same time, the company is exploring new opportunities, expanding into adjacent territories, and cultivating multiple business engines built on the advantage of its expansive global channel reach. Employees are encouraged to think outside the box and pursue intrapreneurship; this means providing them with the freedom and support to discover untapped markets for the group's long-term sustainability. The new possibilities being explored include smart cities, air quality improvement solutions, information security, AI-assisted medical solutions, and other cloud application solutions. Some of these services are provided through subsidiaries.

Evolving with the industry and changing lifestyles is the key to creating renewed growth in the PC industry and beyond, and ensuring Acer's long-term sustainability.

5.2.2 Create synergies with partners and regional operations

Acer diligently builds on the synergy of partnerships and resources to effectively operate, safeguard, and grow its business. With the global ICT industry experiencing severe challenges, Acer's flexible and nimble approach involves the global headquarters working closely with regional offices and partners to understand local market conditions and meet the needs of customers. Through the concerted efforts of its management team, employees, and stakeholders, Acer continues to demonstrate the highest resilience through times of high volatility in the industry and global economy.

5.3 Employees

5.3.1 Global Human Asset Management

Employees are the Company's key assets and the main driver of business growth. Acer has fostered a work environment that empowers employees by entrusting them with the tasks matched to their skill or qualification. There are clear objectives and reward for achievement, extensive communication and interaction among coworkers, constant encouragement for innovations, and an effective decision making process. On-the-job training provides the ideal platform for learning and development.

As a result of employees' joint effort, Acer has received numerous industry and media recognition. For example, Acer has been listed on the DJSI Sustainability Indices (Emerging Markets Index) for nine consecutive years since 2014, awarded Silver Class distinction in the S&P Global Sustainability Yearbook for the second year, and the FTSE4Good Emerging Index for the seventh year. Acer has also been selected in the World Benchmarking Alliance's SDG2000 list. Acer has provided employees with opportunities for development and growth, and therefore has been listed in Forbes World's Best Employers for three consecutive years since 2020, and included in Forbes' list of the World's Top Women-Friendly Companies in 2022. Besides, Acer spent NT\$2.48 billion on research and development in 2022 and ranked No. 5 in Taiwan patent applications with 424 filings. With the commitment in designing for customer needs, Acer has received many international awards for design excellence in 2022, such as Red Dot Awards for Packaging Design, Advertising, Film & Animation, iF Design Awards, Taiwan Excellence Award and CES Innovation Awards. All above results are contributed by our most valuable assets: our employees.

-Human Asset Analysis by Manpower, Average Age and Years of Employment

Category	Date	End of 2021	End of 2022	March of 2023
Manpower		7,713	7,725	7,639

Senior High School or below		0.9%	1.4%	1.4%
Total		100.0%	100.0%	100.0%

5.3.2 Recruitment

The Company abides to each country's labor laws and customs. We are committed to providing equal opportunities and following Anti-discrimination law that it is illegal to make employment decisions based on legally protected factors like race, class, language, thought, religion, political party, place of origin, place of birth, gender, gender orientation, age, marital status, appearance, facial features, disability, or membership in any labor union, and we are sticking to the principle of putting the right people at the right position. Acer seeks high-potential candidates with multi-disciplinary backgrounds in order to build a strong global workforce.

5.3.3 Continuing Learning and Growth

People Development and Career Growth

The company's training policy in 2022 was set to be aligned with the corporate strategy. Governed by the ESG principles, we build lifestyle brands through expanding boundaries anchored around core businesses and optimizing operations.

With the policy's guidance, the training and development was designed to equip the employees with the awareness for corporate sustainability and social responsibilities, the capabilities to stay on top of cutting-edge trends, and the skills to advance people management. All of the efforts were directed to strengthen the consolidation of hardware, software, and service, create value, boost profitability, and ultimately, improve company's brand premium.

- For leadership / management training, we helped the supervisory-level managers to acquire the essential people management competencies; while the leadership training guided the mid-level managers to develop strategic and systematic views in people management.
- For professional competency development, in response to the future trends of lifestyle-related products, we persisted to strengthening core knowledge and skills of IT products, digital display, and value lab through holding internal and external training / technical seminars. In addition, we paid a great deal of attention to developing the team-members in the function of marketing, supply chains, and logistics. Take software design as an example, we held the GitLab System training, with the aim of enhancing collaboration efficiency of software development teams. We also invited the subject experts in lifestyle products to deliver the trending speeches, in the hope of bringing in more insights into the future development of products.
- As for general education and training, through online learning approach, we helped the staff to know more details of social responsibility, including information security awareness, anti-bribery and anti-corruption, anti-trust, workplace harassment and bully etc. By taking the strict online tests, we ensured that all employees had a full understanding of what these e-Learnings try to deliver.

In order to ensure the quality of training, all trainings were conducted in accordance with the "Training Management Process". The evaluation measures included training satisfaction, after-class interviews, and action learning. In 2022, the number of employees trained worldwide reached 25,011, accounting for 92,273.5 man-hours. The averaged training hours reached up to 13.52 per person. All trainings were done in accordance with the principles of job requirements, gender equality, and equal opportunity.

Multiple Approaches of Learning and Development

Each employee was provided with multiple development paths to enhance the profession--- for example, from company within, such opportunities can be found as on-the-job trainings, coaching, job rotations, forums, online learnings. For the company outside, they included profession club seminars, short-term intensive training hosted by the prestigious universities or training institutions.

New Employee Orientation Training

Upon new hires onboarding, we held a series of training activities to help the new employees to know about the company profile, management systems, core values, and branding efforts.

In addition, each unit provided the new employees with introductory trainings in the professional fields, so that the newcomers may get to know the organization's responsibilities, team members, workflows, and cross-unit collaboration protocols. For example, IT Products had PC full function-related training, guiding the new staff to realize the overall product development process, ranging from product development process overview, pro-duct idea creation, software / hardware expertise, supply chain, quality assurance, manufacturing, branding, market analysis, etc.

A mentor was also arranged to assist a new employee. The role of mentor was positioned to offer essential consultation and care at work, in anticipation of that the new colleagues could adapt to the environment in smoother manner and become fully integrated parts of the team.

ESG trainings were offered at the initial stage of joining in the Company, including the Standards of Business Conduct (including instruction on labor rights, freedom of expression, individual privacy rights, information security awareness, sexual harassment prevention, and corruption prevention). The new employees were also encouraged to participate in Cardiopulmonary resuscitation (CPR) and Automated External Defibrillator (AED) training.

Performance Management and Development

The goal of Acer's performance management and development system is to improve performance at individual, departmental and organizational levels, and includes goal setting, delegation, communication & coaching, the link between performance & remuneration, and career development.

5.3.4 Compensation

Acer provides a competitive salary package to attract and retain high-potential human assets. The Company surveys global IT companies' salary levels annually, to ensure that our salary packages are adjusted accordingly and reasonably to reflect market conditions. On top of the monthly salary, the Company offers the bonuses that are differentiated from the performance of business unit and each individual. Taking Taiwan for example, in addition to the fixed monthly salary and festival bonuses, Acer offers incentives that reward new innovations, intellectual property rights, sales achievements, performance bonus and profit sharing. At the same time, an employee stock ownership association trust has been established since 2022 to encourage employees to save and accumulate pensions.

5.3.5 Welfare

In all of our global locations, we provide our employees with a comfortable office environment, quality employee benefits and smooth communication channels in accordance with local laws and customs, in order to stimulate their creativity and increase productivity. In Taiwan, for example, the Employee Welfare Committee has been established by law to provide benefits as required by law, such as welfare points, sports competitions, family days, art and cultural activities, seminars, festivals, community activities, as well as various benefits such as the gifts of the three significant festivals, scholarship subsidies for children, wedding and funeral subsidies, hospitalization subsidies and wedding and funeral subsidies, and hospitalization subsidies. A fitness center and staff recreation facilities are also available to help relieve work stress and provide health promotion programs to care for the balanced physical and mental development of our staff.

5.3.6 Pension

The Company abides to each country's labor laws and customs. Taking Taiwan for example, Acer conforms to the Labor Standards Act and Labor Pension Act by contributing a portion of employees' salaries toward a pension scheme. Besides, employees who have served for 15 years and have reached 50 years of age can apply for early retirement. At the same time, from 2022, a relatively subsidized "Employee Stock Ownership Association Trust" company stock purchase plan will be provided, hoping that colleagues can also participate in the investment method of the company and accumulate wealth after retirement.

5.3.7 Labor Relations and Employee Communication

Acer values the opinions of its employees and strives to maintain harmonious labor-management relations, and its operations are managed in compliance with local laws and regulations in each of its global locations. In Taiwan, for example, we have opened up a number of communication channels to enhance two-way communication between employees and employers, as follows:

- **Single service line for back office.**

Each of our back office support units has a telephone line to provide a single service window to assist employees in solving problems at work or in the area of employee rights and benefits quickly and effectively.

- **Smooth communication channels.**

(1) Conduct employee satisfaction survey regularly:

We conduct regular employee satisfaction surveys every year to understand the organization's climate, and conduct in-depth interviews and formulate improvement plans for major problems.

(2) Routine labor-management consultation system:

The chairman and global CEO hold quarterly labor-management meetings (gardeners' meetings), in which the first-level executives communicate directly with selected employee representatives from each office to respond to employee issues and suggestions and make decisions, and assign staff from relevant units to solve problems and follow up to improve the company's operational and management efficiency.

(3) Collecting opinions from departing employees:

HRBP will conduct exit interviews with departing employees to understand their reasons for leaving the company and to serve as a reference for organizational improvement and optimization.

(4) Preventions of unlawful infringement in the workplace:

In order to maintain gender equality and dignity at work and to provide a channel for employees to complain about unlawful workplace abuse, so that employees are not subjected to verbal, physical, psychological, sexual harassment, and gender discrimination in the workplace, the Company has established prevention measures, complaints, and disciplinary measures to specify the channels for complaints, operational procedures, and disciplinary regulations.

(5) Channels for Stakeholders to Report Complaints

To protect the rights and interests of stakeholders, to promote communication with stakeholders, and to strengthen corporate governance, if an Acer employee is found to have violated Acer's Code of Business Conduct, or to have engaged in any wrongful acts or activities that violate corporate governance, he or she may file a complaint through the stakeholder reporting channel and have it handled by a dedicated supervisor.

- **Company's Operational Achievements and Strategic Advancement:**

In response to our diversified business development, we continue to strengthen internal staff communication so that we can share common beliefs, visions and core values and work together for the Group's direction and strategies.

Mr. Jason Chen, Chairman and Global Chief Executive Officer, holds quarterly communication meetings and "Communication with Jason" meetings to communicate with our executives and colleagues via video or face-to-face about the company's operational results and future direction, and to answer questions and suggestions from employees.

In addition, he also invites renowned figures from various fields to share their experiences in industry management trends and innovations to expand the management horizons of executives.

5.3.8 Acer Employee Management

Standards of Business Conduct

We have completed the revision of Standards of Business Conduct (SBC) in 2020 and changed its name to Standards of Integrity Management & Business Conduct in 2022. SBC guides us on how we interacted with each other, our customers, our business partners, our shareholders and the communities where the Acer Group does business.

Below are the features of the revisions:

- (1) Get more aligned with the new amendments of "Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies" and "Procedures for Ethical Management and Guidelines for Conduct" enacted by Taiwan's governing authority of Stock Exchange and Futures Trading.
- (2) Call for a more strict compliance with the principles of human rights set by the United Nations Universal Declaration of Human Rights, the International Labor Organization's (ILO) Declaration on Fundamental Principles and Rights at Work, and the UN Guiding Principles on Business and Human Rights.
- (3) Require not only all employees of the Acer Group to obey these rules and adhere to the highest standards of business ethics, but also the board members and all other parties who do business with Acer.
- (4) Incorporate the issues of Corporate Social Responsibility that address increasing attention during the recent years, the rules of social media interaction, and the past incidents that we have learned from the industry.
- (5) Specify the procedures dealing with the incident reports in anticipation of providing a guidance for the units to follow and to prevent recurrence.

All employees are required to undergo training regarding anti-corruption measures. During annual performance reviews, we require management and employees to review their adherence to our standards of professional behavior. In the event of corruption being found, the company must immediately report the incident and implement management measures, while also reminding employees that they must follow the regulations of the Standards of Business Conduct.

- Sexual Harassment Prevention Measures

The Company is dedicated to ensuring gender equality and human dignity in workplace, securing work environment free from sexual harassment and discrimination. With the promise, the Prevention Measures and Disciplinary Actions on Sexual Harassment is enacted, which specifies the reporting channels, dealing procedures, and disciplines.

- Declaration of Secrecy and Intellectual Property Rights

The Company places extreme importance on the protection of intellectual properties rights. All staff are required to have the Declaration on Non-Disclosure Agreement signed when onboard, which declares the obligations to protect confidential information and the restrictions on use of the confidential information during the employment period and employment termination.

5.4 Important Contracts

Nature of Contracts	Contracting Parties	Beginning and Ending Dates of Contracts	Major Content	Restrictive Clauses
Software License Agreement	Microsoft Inc.	Aug.1, 2018 until triggering the terminating terms of this Agreement	Obtain license from Microsoft for using certain software	Confidential Non-assignable
Patent License Agreement	IBM Corporation	Oct. 29, 2003 until the end of related patents period	Cross license arrangements for certain patents	Confidential Non-assignable
		Nov 22, 2006 until the end of related patents period		
Purchase Agreement	Worldwide Vendors	Annual 2022	Component Purchase	Confidential Non-assignable

Sustainable Development/ESG

Acer's ESG policies and strategies are aligned with the Company's development direction and the core spirit of the brand:

While pursuing profitability, leading transformation, and providing innovative services, we will continue to create tangible and intangible values, and move toward a future-oriented enterprise by promoting sustainable model transfer and social influence with our three core beliefs of value creation, balance of interests, and sustainable management.

We believe that only by enabling companies to be environmentally and socially responsible while making profits will we be able to achieve long-term ESG development and move the world forward in a more sustainable direction.

Acer's ESG Policy is as follows:

- **Integrating Sustainability Governance:** Deepen ESG governance and stakeholder engagement, and strengthen integrated management and transparent disclosure of financial and non-financial performance
- **Pioneering Green Innovations:** Incorporate low-carbon, sustainable, and recycling innovation technologies and concepts in products and services to lead in smart cities and develop a new green economy
- **Comprehensive Sustainability Impact:** Creating real corporate value and leveraging our influence on suppliers and partners to help the overall industry move toward a sustainable future

Our ESG efforts have continued to earn recognition among the leading sustainable development indices. In 2022, the Company was honored as one of the top 5% of companies in the world in the S&P Global Sustainability Yearbook, which uses ESG (Environmental, Social, and Governance) as a criterion. Acer is ranked among international indices such as the Dow Jones Sustainability Indices (DJSI) Emerging Markets Index, in which we have been listed for nine consecutive years, and earned the AAA rating as a constituent stock of the MSCI ESG Global Sustainability Indexes; we have also been included in the FTSE4Good Emerging Index for seven years running. In addition, Acer has been listed in the World Benchmarking Alliance's SDG2000, recognized as one of the top 2000 most influential companies in the world, as well as being ranked among the world's best employers by Forbes for three years running.

In accordance with ESG's mission and policies, Acer has established the Corporate Sustainability Committee (CSC), chaired by the Chairman and CEO, with the ESG Office serving as the Executive Secretary. The committee members include: Chief Operating Officer, Chief Legal Officer, Chief Financial Officer, Chief Human Resources Officer, Chief Sustainability Officer and other senior executives, who are responsible for approving sustainability visions, strategies and long-term goals, and reporting regularly to the Board of Directors. Under the Corporate Sustainability Committee, working groups on Corporate Governance, Risk Management, Innovation and Product Lifecycle, Environmental Management, and Supply Chain Management are established to communicate and coordinate important sustainability issues across departments, and to plan, implement, and track the progress and effectiveness of action projects on key issues. The Corporate Sustainability Committee convenes twice a year to oversee and review the sustainability actions and implementation status of each working group, respond to stakeholder requests and expectations, review annual sustainability goals and develop medium- and long-term goals, and discuss and resolve important sustainability issues.

The ESG Office is led by the Chief Sustainability Officer, who serves as the Executive Secretary of the Corporate Sustainability Committee. In addition to reporting regularly to the Corporate Sustainability Committee on trends, impacts and performance on sustainability-related issues, the ESG Office also serves as the Executive Secretary of the Corporate Sustainability Committee. It also plays a communication and integration role between the working groups and the Corporate Sustainability Committee. In addition, to effectively communicate with our global locations, we have also established ESG Executive Secretary at Regional Headquarters, who is responsible for formulating regional headquarters ESG action plans and programs to implement various sustainability issues management.

6.1 Environmental, Safety, and Health Management

6.1.1 Environmental Protection

6.1.1.1 Energy and Climate Change

In the area of energy and climate change, Acer continues to enact our Integrated Energy and Climate Change Strategy, completing third-party assurance of greenhouse gas emissions data from Acer Group locations worldwide. Along with the abovementioned integrated strategy, we have also set long-term carbon reduction targets in line with the methodology proposed by the Science-Based Targeting (SBT) initiative. We expect to accomplish a 50% reduction in Scope 1 and Scope 2 carbon emissions in 2030 from the baseline year of 2019.

In 2021, we announced that we have joined the global RE100 initiative, committing to achieve 100% renewable electricity by 2035, and we have taken on the role of brand leader, proposing the "Earthion Sustainability Platform" project, which will extend our innovative and integrated solutions to environmental challenges to our supply chain partners, consumers, distributors and employees. We are working with our business partners to create a resilient supply chain and expand our positive impact on the global environment by introducing green innovations in all aspects of product design, production, transportation, and packaging to improve resource reuse, packaging reduction, and carbon footprint reduction.

Acer has been a part of the CDP (formerly the Carbon Disclosure Project) supply chain system since 2008, taking it a step further by auditing our suppliers' overall carbon management performance, carbon reduction results, and green energy adoption with ESG scorecards to manage the environmental impact caused by our supply chain and bolster the overall supply chain's ability to respond to climate change. In 2022, Acer's Supplier Engagement Rating (SER) has been graded Level-A for three consecutive years, and 60% of our critical suppliers have committed to RE100 or set Science-Based Targets (SBTs) for carbon reduction, in line with expected targets. In terms of supply chain responses, 94% of suppliers have included climate issues at the board level, 84% have integrated carbon management into their operations and developed carbon reduction plans consistent with the 1.5°C carbon reduction pathway scenario, 86% have taken carbon reduction actions, and 67% are using renewable electricity, all outperforming our second and third tier suppliers by about 20-50%. We will continue to communicate with Tier 1 and Tier 2 suppliers and work with ODM suppliers to further influence Tier 3 suppliers, jointly pulling upstream suppliers to deepen the growth potential of carbon management in the industry chain.

6.1.1.2 Product Life Cycle

Acer is committed to reducing the environmental impact of its products during the product lifecycle by integrating the concept of circular economy.

To comply with regulatory requirements and customer standards, Acer integrates environmental and safety-related regulations in the product development stage, and through a rigorous auditing process, ensures that all production stages of the supply chain meet environmental and safety-related requirements.

Acer not only supports the concept of resource recycling, but also actively uses Post-Consumer Recycled Plastics (PCR) in its products. The Company determines the types and ratios to be used during product planning and carefully select suppliers; For products using post-consumer recycled plastics, we ensure that the raw material formulation is as close as possible to the physical properties of the raw material. If necessary, we add strength and reliability to the product design process to ensure product quality. Users can not only enjoy the same quality of products as virgin plastic, but also support the reuse of resources together with Acer to strengthen the concept of recycling economy.

Acer's packaging design principles are based on the life cycle of product packaging materials, from research and development, material selection, manufacturing, transportation, use, to waste disposal, to continuously improve the environmental impact at each stage. For example, we are reducing the volume and weight of packaging by simplifying packaging, standardizing package sizes and print, and further reducing energy consumption for transportation. In addition, Acer strives to reduce the size and weight of product packaging to enhance the efficiency of delivery and reduce energy consumption during the delivery process, further reducing the carbon emissions generated during delivery, which can also reduce the cost of delivery.

With the development of the new business model of circular economy and sharing economy, we have also reduced the capital expenditure expenses of the company's one-time purchase model by replacing the purchase of hardware equipment with the purchase of services (rental), and instead flexibly incorporating the required hardware, software and even maintenance services through contracts that can be adjusted according to demand. From the perspective of product design, we use modular design to achieve easy disassembly, easy maintenance or refurbishment, easy recycling, and even sharing of materials to effectively use resources to extend the product life cycle.

In addition, the product's energy efficiency has always been one of the key indicators in our product design. We use the US Energy Star standard as the basis for product design and will continue to offer more low energy consumption products to consumers. Compared to 2016, we have reduced the average energy consumption of our laptop products by 39% and our desktop products by 35%, which also represents a reduction in the carbon footprint of our products during the usage. In the future, the Company will continue to provide more low-energy products and move toward the goal of reducing the average energy consumption of personal computer products by 45% by 2025.

Limited resources are recycled to create new value. And suitable mechanisms for recycling waste can also create a better future for humanity and greater environmental sustainability. As a citizen of the global village, Acer actively supports a variety of measures promoting recycling around the world, along with Individual Producer Responsibility (IPR), and is committed to working with the government, consumers, and channels/retailers to shoulder the responsibility for recycling and managing electronic waste.

6.1.1.3 Office Carbon Reduction and Energy Saving

The major source of energy consumption for Acer is office electricity, of which air conditioning, lighting, and information equipment use are the primary ones. For effective management, we use systematic data collection to understand the usage situation and grasp the trend of change, and encourage each office area to carry out energy-saving measures such as optimizing power consumption equipment and strengthening power consumption management, and reduce office power consumption every year.

The Xizhi Headquarter conducts ISO 50001 energy management system certification every year and uses the system to promote the setting of reduction targets. In 2022, after a comprehensive review and evaluation of the plan, we set a long-term goal of reducing total electricity consumption by 10% in 2030 compared to 2021. To further promote the use of energy efficiency in each office area, we are conducting energy-saving measures to evaluate two high electricity consumption office areas, including Acer's Cloud Framework Longtan Office and Aspire Resort II, and continue to explore the feasibility of various ways to reduce electricity consumption.

To reduce the impact of carbon dioxide from electricity consumption on the environment, in 2022 we launched the Green Earth Campaign. The largest green power park in Northern Taiwan, the Aspire Park, was planted with trees. We planted Acacia trees, a native species of Taiwan with high carbon sequestration efficiency, on the land formerly used as a weed forest for national conservation. Through the reuse of the idle site, a green cycle is created, and through this "demonstration site for carbon sequestration and reforestation", the industry is called upon to participate and promote the trend of tree planting and carbon reduction.

6.1.2 Safety and Health

6.1.2.1 Environmental and Health and Safety Management System

Acer actively pursues balanced economic, environmental and social development. We understand that all of our products, services and activities may affect the communities and environments in which we operate and are committed to environmental protection. We also conduct due diligence when corporate mergers and acquisitions or business partnerships are required in response to market demands and organizational growth. We also recognize that the safety and health of our employees is the foundation of our business and are committed to maintaining a healthy and safe working environment. We require our employees to understand their roles and responsibilities. We also require suppliers, service providers, contractors, outsourcers, logistics providers, merged and acquired companies and value chain partners to reduce environmental impacts through lifecycle assessment management and to comply with Acer's environmental safety and health policies to fulfill our commitment to the environment, health and safety.

To ensure our compliance with legal regulations and maintain occupational safety and health management performance, Acer Taiwan conducts annual ISO 45001 management system certification. Every year, we set up a system launch schedule with each unit selecting officers and representatives to form a team on environmental safety and health. We use internal and external training to develop the awareness and execution capabilities of occupational safety and health and conduct related common operations and internal/external audits to ensure that the system can maintain effective operation. In addition, to implement the PDCA cycle, the Occupational Safety and Health Committee convenes every quarter to report on the implementation of various operations and review and improve. To enable our employees to understand the safety and health management practices and results, we have established an internal safety and health website and information platform. At the same time, we are able to communicate with workers immediately to establish mutual consensus on their responses and feedback.

6.1.2.2 Working Environment and Employee Safety

To ensure that safety and health are effectively managed and monitored, we encourage employees to call our internal 1911 service line immediately if they find any safety and health issues in the workplace. At the same time, employees can use the labor-management meeting to propose safety and health improvement suggestions, and the responsible unit will evaluate and respond to the proposals according to their content. In addition, the ESH Team conducts an annual hazard assessment of the activities and service areas of all workers in the organization. At the same time, ESH Team conducts risk and opportunity assessment by investigating the needs and expectations of stakeholders. The ESH Team also sets management objectives for high-risk and high-opportunity items and propose a management plan, and track the implementation progress through regular meetings on a quarterly basis.

6.1.2.3 Emergency Response

The Company has set up a comprehensive set of contingency plans and procedures in the event of earthquakes, typhoons, power/water outages, statutory contagious diseases, and other major emergencies. To ensure adherence to laws and regulations, strengthen employees' knowledge of safety and health, and meet the emergency response needs of each office area, we conduct fire, earthquake, typhoon, power outage, and emergency rescue drills according to our annual plan, with seven drills held in 2022. We also run various safety and health education training programs on different focuses each year. Through such efforts, we aim to create a corporate culture of health and safety.

6.1.2.4 Employee Health Checks

The Company has always considered our staff among our most important assets, and we believe that strengthening staff health management is a crucial factor in maintaining our competitiveness. Actual specific practices include: Carrying out annual employee health checks, hiring full-time medical staff to conduct employee health management, organizing a wide variety of activities and events promoting good health, sponsoring large-scale sports events, holding a range of sports competitions, encouraging the establishment of sports clubs, and fostering a pro-exercise internal environment. Through such actions, we strive to constantly be boosting the health and performance of our staff. Although the total rate of employee health screening in 2022 was lower than that of the previous year, the overall satisfaction rating increased to 4.7, showing that employees are positive about health screening activities and continue to pay attention to personal health issues. In 2022, we have increased our employee health screening budget and optimized our employee health screening program to demonstrate our commitment to a healthy workplace.

6.2 Supply Chain Management

Acer and our suppliers are working together to provide customers with valuable products and services; these suppliers are our most important partners. Beyond economic value, we also focus on social and environmental value, building on a foundation of respect for human rights and working diligently toward a sustainable supply chain. With a solid foundation of cooperation and through the Acer Responsible Supply Chain Management (ARSM) mechanism, we jointly shoulder our responsibilities toward society and the environment alongside our supply chain.

The Company has been a member of the Responsible Business Alliance (RBA) since 2008 and participates in actions and discussions around supply chain social and environmental responsibility to better understand international trends in ESG and share in the practical experience of its members. Acer also requires all manufacturers and service providers to comply with both the RBA Code of Conduct and local regulations.

In addition, we carry out annual on-site RBA Code of Conduct supplier audits, gaining a deeper understanding of each location's working environment and the human rights conditions of the staff. We also encourage and require suppliers to uphold their corporate responsibility by ensuring their own suppliers implement socially and environmentally responsible management and to advocate for RBA Code of Conduct adherence, thus improving the working environment in the electronics supply chain worldwide.

We have also established the Acer Responsible Supply-Chain Management (ARSM) system, not only setting in place the social and environmental responsibilities of our first-tier suppliers but also rolling out to three tiers of suppliers in phases. The goal of this is to further expand the reach of our sustainability responsibility and influence. The Company requires first-tier suppliers to implement risk assessment and management of second-tier suppliers based on the RBA Code of Conduct. We also carry out on-site audits and tracking of improvements for higher-risk suppliers. We have also integrated performance in these into our Supplier ESG Scorecard assessments, realizing and expanding the environmental and social responsibility of our supply chain.

To review suppliers' performance in ESG practices, we have developed the Acer Supplier ESG Scorecard, a mechanism for early identification and tracking of supply chain risks in the areas of sustainable operations; environment, energy and climate change; labor, ethics, health and safety management, and assist suppliers in taking necessary measures to eliminate or mitigate risks. Overall, average performance across supplier categories in the 2022 scorecard continued to show improvement. Nearly 67% of suppliers achieved an "excellent" standard, and 27% of suppliers were found to be at the "medium" level. We also use quarterly business reviews and other communication methods to demand that underperforming suppliers implement appropriate actions to improve their ESG performance. In addition, to protect labor human rights, we continue to take a variety of measures to ensure that no enslaved or trafficked labor is used in our supply chain. These include supplier risk assessments, declarations, audits, and training.

Responsible sourcing of minerals is also a significant ongoing concern for the Company. Responsible minerals efforts began with the issue of tantalum, tin, tungsten, and gold (3TG) conflict minerals in the Democratic Republic of the Congo (DRC), and the Company's responsible minerals management has now been strategically expanded to include responsible sourcing management that reduces social and environmental risks. The Acer Responsible Minerals Procurement Project set out the need for priority management of minerals based on their ubiquity in products and their having come from conflict-affected and high-risk areas (CAHRAs). Acer's Responsible Sourcing Strategy defines Congolese tin tantalum, tungsten, and gold (3TG), Congolese cobalt, and Indonesian tin as priority minerals. In 2022, Acer continues to prioritize tantalum, tin, tungsten, gold, cobalt and mica in its responsible sourcing strategy and has issued a Responsible Minerals Report describing actions taken to conduct due diligence on priority minerals for the fifth consecutive year. We will continue to evaluate the priority minerals and participate in refining the process for recognition of the CAHRA. We will continue to assess priority minerals and participate in the process of defining conflict-affected and high-risk areas. Acer continues to issue the Responsible Minerals Report describing actions taken to conduct due diligence on priority minerals.

6.3 Communication

6.3.1 Stakeholder Engagement

Our vision is one of being a responsible global citizen, and we value the expectations of our relevant stakeholders, so we continually bring together the views of our stakeholders, including staff, customers, suppliers, investors, communities/charitable groups, governmental agencies, advocacy organizations, media, industry associations, and academic groups. In addition, we communicate our sustainability performance to internal and external stakeholders through our sustainability website, and we use a variety of methods to communicate with stakeholders on an ongoing basis.

6.3.2 Improving Supplier Capabilities, Supplier ESG Communication Meetings

We continue to communicate with our suppliers and enhance their ability to address sustainability issues, and encourage them to incorporate sustainability into their corporate management agenda. In accordance with Acer's sustainability strategy, we hold various supplier sustainability seminars and annual supplier ESG communication meetings to provide the latest ESG development trends, analyze the main focus of the supplier chain on various issues and the actions to be actively taken, as well as provide opportunities for two-way communication between suppliers and Acer executives to strengthen mutual cooperation and provide the supplier chain with the ability to enhance environmental and social responsibility. The annual supplier ESG communication meeting was held in December 2022 with over 150 supplier attendees.

6.3.3 Customer Relationships

Acer's vision is to become a "leading brand company in sustainable management through innovation and attentive service and customer care, continuously improving the efficiency and quality of service". We believe that our attitude and approach of "pursuing quality in everything we do" helps us to remain competitive in the market. "To better meet the needs of our customers, we plan and conduct regular customer satisfaction surveys in line with the characteristics of each region around the world, using these to gather feedback from our customers, find areas in need of improvement, and strengthen the quality of our customer service. We have set in place a comprehensive global service system with service centers in each of our major operating locations, and we plan different service solutions based on different customer attributes and channel types. Consumers and business customers can contact us through multiple channels. In aggregate, our 2022 survey results show high global satisfaction, with positive customer evaluations accounting for 94.6% of total evaluations.

6.4 Information Security and Privacy Protection

To pursue sustainable business operations and protect customer trust, Acer will begin to promote a company-wide information security management system in 2019 and establish an information security policy as a basis for information security management to ensure the security of Acer's information assets and the continuity of information services, and to reduce the threat and impact of information security incidents. We continued to pass ISO 27001 Information Security Management Systems certification in 2022 and regularly carried out internal and external audits and meetings on management review and information security management systems (ISMS) establishment to supervise system implementation.

We are committed to protecting our customers' confidential information and strictly adhere to our privacy policy. All employees are required to carefully safeguard confidential or proprietary information provided by customers, and our products make use of data security technology to protect the personal information of consumers. In addition, we have set up a dedicated mailbox to handle any complaints about privacy rights worldwide. In line with Taiwanese legislation on the protection of personal data information, from the point that we collect any personal information from a customer through any means, that information will be retained and used only when necessary until the customer requests its deletion. No complaints were received in 2022 about invasion of customer privacy or loss of customer information.

6.5 Social Participation

6.5.1 Acer ESG Project Awards

The Acer Group operates in more than 160 countries around the world, and Acer subsidiaries in all regions are not only concerned with local social issues, but also take action to participate in community activities. To encourage employees to propose projects that respond to the United Nations' sustainability goals, and in conjunction with the company's Project Humanity global program, the Acer Global ESG Project Awards have been held for six consecutive years to encourage employees to be creative and actively participate in community activities, demonstrating the corporate culture and spirit from the inside out. The 2022 Acer Global ESG Program continues to focus on themes such as "education" and "environment" from Acer Group projects around the world, including the following features: leveraging core competencies and products to achieve social impact; working in tandem with various stakeholders to create ESG synergy; and actively engaging employees to enhance their sense of recognition and satisfaction with the Company.

6.5.2 Philanthropy

We have worked with several local charities around the world for many years. These partnerships not only help communities, but also strengthen our ties to them and bring them closer together. We work with communities to address pressing social challenges through our many programs of social care, fundraising activities and disaster relief. We encourage our staff to contribute to the community by volunteering their time and expertise to gain new experiences and ideas, and gain new energy to face the challenges of work and clients. Acer employees are entitled to two days of paid volunteer leave per year.

6.5.3 Acer Foundation

For more than 20 years, Acer Foundation has been organizing the Dragon Series of competitions, from the earliest postgraduate thesis competitions to competitions that encourage college and research students to apply their theories to entrepreneurship, and has transformed into a driving force in assisting quality small and medium-sized enterprises. The 2022 Dragon Smile Competition was divided into international and sustainable categories, with the expectation of identifying corporate teams that have developed steadily in Taiwan and have plans and potential for overseas operations through invitation to the competition. In addition to offering high prizes to the winning teams, Acer Group's years of multinational experience and integration of marketing capabilities from various locations around the world helps the winning corporate teams optimize their marketing and internationalization, so that the future national teams of Taiwan with potential can develop more quickly towards overseas markets.

6.6 Promoting sustainable development, the differences from the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies, and the reasons for those differences

Activity	Implementation Status		Differences from the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies & Reasons for Those Differences
	Yes	No	
I. Has the company established a governance structure to promote sustainable development, and set up a dedicated or ad hoc unit to promote sustainable development? Has the Board of Directors authorized senior management to handle the situation, and does the Board provide supervision?	✓		<p>In accordance with ESG's mission and policies, Acer has established the Corporate Sustainability Committee (CSC), chaired by the Chairman and CEO, with the ESG Office serving as the Executive Secretary. Committee members include: Chief Operating Officer, Chief Legal Officer, Chief Financial Officer, Chief Human Resources Officer, Chief Sustainability Officer and other senior executives, who are responsible for approving sustainability visions, strategies and long-term goals, and reporting regularly to the Board of Directors. Under the Corporate Sustainability Committee, working groups are established to communicate and coordinate important sustainability issues across departments, and to plan, implement, and track the progress and effectiveness of action projects on key issues. The Corporate Sustainability Committee convenes meetings twice a year to oversee and review the sustainability actions and implementation status of each working group, respond to stakeholder requests and expectations, review annual sustainability goals and develop medium- and long-term goals, and discuss and resolve important sustainability issues.</p> <p>The ESG Office is led by the Chief Sustainability Officer, who serves as the Executive Secretary of the Corporate Sustainability Committee. In addition to reporting regularly to the Corporate Sustainability Committee on trends, impacts and performance on sustainability-related issues, the ESG Office also serves as the Executive Secretary of the Corporate Sustainability Committee. It also plays the role of communication and integration between the working groups and the Corporate Sustainability Committee. In addition, to communicate effectively with our global locations, we have also established ESG Executive Secretary at Regional Headquarters, who is responsible for formulating ESG action plans and programs at regional headquarters to implement various sustainability issues management.</p> <p>Implementation Status:</p> <p>We set up working groups on Corporate Governance, Risk Management, Innovation and Product Lifecycle, Environmental Management, and Supply Chain Management are established to communicate and coordinate important sustainability issues across departments, and to plan, implement, and track the progress and effectiveness of action projects on key issues. In accordance with the "Sustainability Development Roadmap for Listed Companies" in 2022, the company has specifically focused on greenhouse gas inventory and verification planning and established key work arrangements:</p> <ol style="list-style-type: none"> (1) Set inventory boundaries: Acer Group's (including consolidated subsidiary) global operating locations. (2) Identify emission sources: including direct emissions (Scope 1), energy indirect emissions (Scope 2), and other indirect emissions (Scope 3). (3) Calculate emissions, prepare inventory reports, distribution, and documents management.

Activity	Implementation Status			Differences from the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies & Reasons for Those Differences
	Yes	No	Description	
			<p>(4) Verification procedures: Internal verification and third-party verification to track and verify that related operations are completed according to plan. It is expected to obtain the ISO 14064-1 greenhouse gas emission verification statement in June 2023.</p> <p>(5) Information system: already in place and continuously being optimized.</p> <p>(6) Employee education and training: Enhance the carbon reduction awareness, greenhouse gas management, and internal verification capabilities of Acer Group employees.</p> <p>(7) Strengthening of management awareness: Arrange sustainability professionals to share how corporate leaders can lead low-carbon ESG transformation plans to strengthen management's awareness and concept of sustainable development.</p> <p>The above key work arrangements were reported to the board of directors on May 5, 2022, August 4, 2022, and November 3, 2022, respectively, regarding their execution status.</p>	
<p>II. Does the company conduct risk assessment of environmental, social corporate governance issues related to the company's operations in accordance with the principle of materiality and formulate relevant risk management policies or strategies?(Note 2)</p>	✓		<p>1. This disclosure covers the Company's sustainable development performance in its major locations from January 2022 to December 2022. The risk assessment boundaries are focused around Acer Inc.</p> <p>2. The Company's Risk Management Working Group holds regular meetings every year to identify, evaluate and discuss potential and emerging risks on the three major aspects of environment, society and corporate governance. In 2022, the Risk Management Workgroup identified a total of 45 risk items. Designated personnel from the relevant departments are responsible for drafting of follow-up risk management strategies related implementation plans with regard to risk items identified and analyzed, including commonly used response methods: damage prevention plan, avoidance, isolation and backup, risk transfer and risk retention, etc., to minimize the possible negative impact of various potential risks on the business objectives and strengthen the risk resilience of the Company's overall operation. In addition, progress reports on material risk information and corporate risk management operations are provided to the Risk Management Committee and the Audit Committee on a regular basis.</p> <p>The Company employs the ISO 14001 Environmental Management Systems international standard to establish standard procedures for environmental management at each operating location, as well as continuously maintaining valid certifications. In 2022, the bulk of the Company's Taiwanese business units passed new ISO 14001:2015 Environmental Management System review, continuing to receive third-party certification. Other subsidiaries that have introduced ISO environmental management systems have similarly passed ISO 14001:2015 review.</p> <p>Source: https://www.acer-group.com/userfiles/ISO%2014001-acer-zh.pdf</p>	No discrepancy
<p>III Environmental Issues</p> <p>(I) Has the company established a suitable environmental management system based on the characteristics of its industry?</p>	✓		<p>The Company employs the ISO 14001 Environmental Management Systems international standard to establish standard procedures for environmental management at each operating location, as well as continuously maintaining valid certifications. In 2022, the bulk of the Company's Taiwanese business units passed new ISO 14001:2015 Environmental Management System review, continuing to receive third-party certification. Other subsidiaries that have introduced ISO environmental management systems have similarly passed ISO 14001:2015 review. Source: https://www.acer-group.com/userfiles/ISO%2014001-acer-zh.pdf</p>	No discrepancy

Activity	Implementation Status			Differences from the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies & Reasons for Those Differences
	Yes	No	Description	
<p>(II) Is the company committed to improving its energy efficiency and to using renewable materials with a lower impact on the environment?</p>	✓		<p>The Company is committed to reducing the impact of our operations and products on the environment and to improving our resource usage efficiency. This includes the continued use of post-consumer recycled plastics and an emphasis on recyclable design in product packaging, with easily recyclable materials a priority in packaging material selection. On top of this, all of the posters included with products are produced with Forest Stewardship Council certified paper, while all printing uses environmentally friendly water-based and soy inks.</p> <p>In 2021, Acer launched the Aspire Vero, an eco-friendly notebook with a box made of 80% to 85% recycled paper pulp and paper-plastic cushioning made of 100% recycled paper pulp instead of traditional styrofoam or folded paper, and a paper sleeve instead of a plastic protective bag to wrap the cables; In addition, the notebook sleeve and the protective paper that prevents the keyboard from scratching the screen are made of 100% recycled PET material. Overall, the packaging is made of 100% recyclable material, and the interior of the box is even reusable and can be converted into a simple laptop stand in just a few simple steps. From 2022, we have expanded the Vero sustainable design concept to more product lines and more models, focusing on reducing energy consumption and pollution generated during new product development to expand Acer's eco-friendly products and their impact. All Vero products are EPEAT certified and have passed the stringent requirements of international certifications in all aspects, and for recycled materials, Vero products have also obtained international certifications such as TCO, EPEAT or the US Energy Star label.</p> <p>Acer has set sustainability goals and expects to achieve by 2025: a 45% reduction in average PC energy consumption by 2025 (base year: 2016); and a target of using 20-30% post-consumer recycled plastics in its core products.</p>	No discrepancy
<p>(III) Does the Company assess potential risks and opportunities for the Company now and in the future and take relevant responsive measures?</p>	✓		<p>The Company continues to grasp the risks associated with climate-change-related policies and regulations, physical operations, and transition strategies. We are analyzing and developing countermeasures for the various factors involved in these risks according to their probability of occurrence and their potential impact. In addition, with regard to opportunities that come with climate change, we continue to pursue improvements to product energy efficiency, but also strive to integrate our existing and new business groups to create a unified low carbon, sustainable strategies and innovative products.</p>	No discrepancy

	Yes	No	Description																	
(IV) Has the Company collected statistics on greenhouse gas emissions, water consumption, and total weight of waste produced over the past two years? Has the Company formulated policies on greenhouse gas reduction, water consumption reduction, or other waste management?	✓		<p>The Company continues to collect information on electricity, water, and waste through its online system, and discloses greenhouse gas emissions, water consumption, and total waste weight in its annual sustainability report. The following describes relevant management:</p> <ol style="list-style-type: none"> Greenhouse gas: We also have an integrated energy and climate change strategy and have set long-term carbon reduction targets in line with the methodology proposed by the Science-Based Targeting (SBT) initiative. We expect to achieve an 50% reduction in Scope 1 and Scope 2 emissions by 2030 compared to the baseline year of 2019. As far as greenhouse gas information is concerned, we obtained ISO 14064-1 certification through third-part assurance. Water consumption: Acer has set a short-term goal of reducing its global water consumption by 1% per year and a medium-term goal of reducing water consumption by 7% by 2025 (compared to 2018). In order to achieve further water savings, after repeated analysis and evaluation, the 2025 medium-term goal was revised to a 10% reduction in 2021. Waste products: Acer's main source of waste is municipal solid waste. In order to reduce waste output, we encourage our employees to reduce the use of disposable plastic, tableware, and paper cups, and to strengthen waste reuse through the implementation of various resource recycling and regular business waste recycling management methods. Water, waste, and greenhouse gas information is verified by SGS, a third-party inspector, and disclosed in the Sustainability Report. 	No discrepancy

IV. Social Issues (I) Has the company formulated relevant management policies and procedures in accordance with relevant laws and the International Bill of Human Rights?	✓		<ol style="list-style-type: none"> Respect for human rights has always been among Acer's fundamental values. To this end, we have established the Acer Group Human Rights Policy, which applies to all Acer Group companies and organizations. We take human rights into account at all points in our value chain, including employees, customers, suppliers, and partners. We also ask our suppliers and partners to take consistent action with Acer to comply with the standards of this policy and uphold human rights. We support and follow the Universal Declaration of Human Rights (UDHR), the United Nations Global Compact (UNGC), the UN Guiding Principles on Business and Human Rights (UNGPs), and the International Labor Organization's core labor standards and local laws and regulations in formulating human rights policies and implement human rights protection based on the principles of protection, respect, and remedy. Assessing potential human rights issues is part of Acer's risk management, with such issues identified, assessed, and discussed by members of the Risk Management Working Group. The responsible units then formulate, implement, and manage mitigation actions for issues so identified. Human rights issues mainly affect: Acer employees (including women), employees of suppliers (third-party employees), and children. Human rights risks identified in 2022 include: forced labor, freedom of association, equal pay, discrimination, child labor, and other issues. We continue to provide training on human rights protection issues for Acer employees worldwide, offering education and training courses on issues such as operates with integrity business standards of conduct, anti-corruption, privacy, safe and healthy working environments, and sexual harassment prevention to create a friendly work environment built around equality, tolerance, and respect. In 2022, Acer offices worldwide had 17,159 participants in training related to human rights protection for 63,031 course hours. Average of 8.8 hours of training per person. 	No discrepancy

(II) Does the company formulate and implement reasonable employee benefits measures (including salaries, vacations, and other benefits) or staff compensation that appropriately reflect operating performance or results?	✓		<p>1. Workplace Diversity and Equality:</p> <p>Wherever we are in the world, Acer strives to adhere to labor laws when hiring staff. We insist on equal opportunity employment, hiring through an open selection process that does not discriminate on the basis of factors that have no bearing on work capability, including ethnicity, skin color, age, religious belief, nationality, ancestry, marital status, gender, sexual orientation, gender identity, military service, or political beliefs. With our focus on hiring the best people for the job, we have been able to assemble a diverse array of outstanding talent. As of 2022, female staff accounted for 38% of total staff; 31% of management, and 36% of senior management.</p> <ul style="list-style-type: none"> • Vacations: <p>In addition to granting employees leave in accordance with the law, Acer has several other practices that go beyond the Labor Standards Act, such as: giving full pay for sick leave, giving new staff a more annual leave days than regulations require, allowing staff to take advance special leave, providing paid volunteer leave, and offering flexible leave for Saturday make-up days.</p> <ul style="list-style-type: none"> • Gifts & Grants: <p>In addition to the benefits as stipulated by law, Acer also provides group life insurance, accident insurance, cancer insurance, and hospital room and board insurance. At the same time, we also provide financial bonuses for Dragon Boat Festival, Mid-Autumn Festival, Lunar New Year, and birthdays, as well as cash gifts for weddings and funerals and sponsorships for employees' children.</p> <p>2. Employee Remuneration: The Company conducts a global survey of salaries among peers every year to formulate a reasonable and competitive salary system. We also provides differentiated performance bonuses to employees based on the performance of each unit and the real contributions of staff members. Operating locations around the world all operate in compliance with local regulations and customs, providing staff with outstanding benefits and easy communications channels.</p>	No discrepancy
(III) Does the company provide a safe and healthy working environment for employees and regularly provide employees with health and safety education?	✓		<p>1. To effectively implement internal communication and health & safety policy, we have put in place an environmental health and safety management system and brought together representatives of various units to form an Occupational Safety and Health Committee. Each year, health and safety projects are carried out in line with the annual plan, ensuring that the system continues to function effectively. We have also launched a range of health and safety education and training programs to ensure compliance with laws and regulations.</p> <p>2. In order to comply with laws and regulations and maintain occupational safety and health management performance, Acer Taiwan conducts ISO 45001 management system certification every year. The scope of certification covers not only the Xizhi headquarters and all office locations, but also six subsidiaries: ACSI, eDC, AEB, Acer Synergy Tech, ISU Service, and Highpoint Network Service.</p> <p>3. We take every accident in the workplace seriously. When an accident is reported, we provide health care to the injured employee, initiate investigation with labor representatives, develop corrective measures and conduct internal promotion to prevent recurrence of the accident. Although traffic accidents that occur during commuting are not included in the occupational accident statistics, we keep track of them because they are the main type of accidents. Acer Taiwan had 32 accidents in 2022.</p>	No discrepancy

Activity	Implementation Status			Differences from the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies & Reasons for Those Differences
	Yes	No	Description	
(IV) Has the company set up effective career development training programs for employees?	✓		The company provides training programs for newcomers, specialist training for job categories, management training (including junior, middle, senior, and cross-level management training), and general education (including ESG-related training and internal instructor training), and provides employees with career development opportunities and challenges in line with the development needs of the organization and the abilities of employees, enabling people to make the best use of their talents and create value together.	No discrepancy
(V) Does the company comply with relevant legislation and international standards on customer health and safety, customer privacy, and marketing/labeling with regard to products and services across the regions in which we operate. In accordance with the law, all products and services carry required labeling and product information. Manuals for products include guidelines for safe usage, laying out proper usage of the product and relevant items to be aware of, as well as environmentally friendly recycling methods for when replacing a product. Consumers can also find the company's contact information in the product manual or on the company's website, so that they can seek assistance from phone or online customer service personnel when encountering any problems.	✓		We adhere to all laws and regulations pertaining to customer health and safety, customer privacy, and marketing/labeling with regard to products and services across the regions in which we operate. In accordance with the law, all products and services carry required labeling and product information. Manuals for products include guidelines for safe usage, laying out proper usage of the product and relevant items to be aware of, as well as environmentally friendly recycling methods for when replacing a product. Consumers can also find the company's contact information in the product manual or on the company's website, so that they can seek assistance from phone or online customer service personnel when encountering any problems.	No discrepancy
(VI) Has the company formulated supplier management policies that require suppliers to be in compliance with regulations on environmental protection, occupational health and safety, and labor rights, and does it monitor their implementation?	✓		<p>1. Contracts between the Company and its primary suppliers include compliance with relevant ESG policies, regulations, and codes of responsible business conduct. We have adopted the RBA Code of Conduct and are dedicated to compliance in terms of environmental, health and safety, labor rights, ethics, and management systems.</p> <p>2. With reference to the RBA Supplier Engagement Process, Acer makes use of a range of supplier social and environmental management approaches, engaging with suppliers through multiple channels and working with them to improve their capabilities. We implement supplier ESG scorecards to review supplier ESG practices and performance. This score is included in quarterly business review (QBR) for key product lines and critical components, and is presented to Acer and supplier senior executives to create a driving force in the business relationship. The overall performance of suppliers on the ESG scorecard in 2021 continued to improved, with 67% of suppliers achieving an "excellent" standard and 27% at the "medium" level. We also use quarterly business reviews and other communication methods to demand underperforming suppliers implement appropriate actions to improve their ESG performance.</p>	No discrepancy
V. Does the company make reference to international reporting standards or guidelines in its preparation of reports such as sustainability reports that disclose non-financial information? Do the aforementioned reports receive assurance from third-party organizations?	✓		<p>1. The content and structure of Acer's sustainability report follows the Global Reporting Initiative's (GRI) GRI Sustainability Reporting Standards Universal Standards 2021 and uses the Sustainability Accounting Standard Board (SASB) Sustainability Indicators and the Task Force on Climate related Financial Disclosures (TCFD) framework. The sustainability report is accompanied by a cross-reference for GRI and SASB indicators.</p> <p>2. SGS Taiwan was contracted in accordance with the limited assurance standards of ISAE3000.</p>	No discrepancy

Activity	Implementation Status			Differences from the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies & Reasons for Those Differences
	Yes	No	Description	

VI. If the company has established its sustainable development code of practice according to the Sustainable Development Best Practice Principles for TWSE/TPEX Listed please describe the operational status and differences:

To boost Acer's overall competitiveness; fulfill our corporate responsibility in social, economic and environmental terms; and make Acer a leading brand, our Standards of Integrity Management & Business Conduct (SBC) gives Acer employees worldwide guidance and principles for conduct when interacting with customers, business partners, stakeholders, and the community. These standards provide fundamental guidance and instruction to staff for interactions with customers, business partners, shareholder, and the community. They are built around Acer's core values of passion, user-orientation, innovation, teamwork, balancing interests, and integrity, and serve as detailed guidelines for decision-making and action with regard to working environments, environmental protection, business matters (e.g., user-oriented commitments, fair competition, and conflicts of interest), supply chain management, gifts & hospitality, finance, information security, the law, marketing communication, and community engagement.

We have also formulated our Principles of Corporate Governance Best-Practice, Anti-Bribery and Anti-Corruption Policy, Antitrust and Fair Competition Guidelines, Regulations on Insider Trading, Personal Information Protection Policy, and Subject Regulations of Prevention, Complaint and Punishment of Sexual Harassment to strengthen ESG at all levels of our business activities. For further information on the Company's ESG/sustainable development operations, please refer to this report's explanation of "sustainable development" and related ESG information on our corporate website. Websites: <https://www.acer-group.com/sustainability/zh>

VII. Other important information to help understand the implementation of sustainable development efforts.

	Fixed assets turnover (times)	60.92	63.25	74.62	80.54	65.93	
	Total assets turnover (times)	1.55	1.51	1.63	1.60	1.36	
Earning Ability	Return on assets(%)	1.95	1.75	3.69	5.80	2.85	
	Return on equity(%)	4.96	4.35	10.15	17.64	8.21	
	To Pay-in Capital (%)	Operating income	12.16	10.01	29.32	46.47	22.73
		PBT	13.83	12.07	29.22	50.64	25.83
	Net income ratio(%)	1.20	1.10	2.22	3.54	2.03	
	EPS(NTD)	1.01	0.87	2.01	3.63	1.67	
Cash Flow(%)	Cash flow ratio	(2.46)	(1.63)	24.83	5.02	5.96	
	Cash flow adequacy ratio	20.94	(20.56)	111.82	63.59	88.44	
	Cash reinvestment ratio	(7.34)	(5.90)	37.82	2.66	(1.17)	
Leverage	Operating leverage	6.68	7.81	3.27	2.58	4.24	
	Financial leverage	1.05	1.07	1.02	1.02	1.03	

Analysis of Deviation over 20%:

Return on assets, return on equity, operating income to pay-in capital, PBT to pay-in capital, net income ratio, EPS and operating leverage: mainly due to decrease in operating income, income before taxes and net income.

Cash reinvestment ratio: mainly due to decrease in cash flows from operating activities.

Cash flow adequacy ratio: mainly due to increase in the most recent 5-year cash flow from operating activities.

	Cash reinvestment ratio	(11.10)	(4.27)	21.71	0.47	0.06	
Leverage	Operating leverage	3.02	3.22	2.28	1.79	2.40	
	Financial leverage	1.05	1.05	1.01	1.01	1.03	

Analysis of Deviation over 20%:

Quick ratio: mainly due to decrease in current assets.

Inventory turnover (times) and inventory turnover days: mainly due to decrease in cost of revenue.

Fixed assets turnover (times) and total assets turnover (times): mainly due to decrease in net revenue.

Interest protection, return on assets, return on equity, operating income to pay-in capital, PBT to pay-in capital, net income ratio, EPS and operating leverage: mainly due to decrease in operating income, income before taxes and net income.

Cash flow ratio: mainly due to increase in cash flows from operating activities.

Cash reinvestment ratio: mainly due to decrease in the difference between cash flows from operating activities and cash dividends.

1. Financial Ratio

- (1) Total liabilities to total assets=total liabilities/total assets
- (2) Long-term funds to Net property, plant and equipment= (net equity+long term debts)/net property, plant and equipment

2. Ability to Pay off debt

- (1) Current ratio=current assets/current liability
- (2) Quick ratio= (current assets-inventory-prepaid expenses)/current liability
- (3) Interest protection=net income before income tax and interest expense/interest expense

3. Ability to Operate

- (1) Account receivable (including account receivable and notes receivable from operation) turnover=net sales/the average of account receivable (including account receivable and notes receivable from operation) balance
- (2) A/R turnover day=365/account receivable turnover
- (3) Inventory turnover=cost of revenue/the average of inventory
- (4) Account payable (including account payable and notes payable from operation) turnover=cost of revenue /the average of account payable (including account payable and notes payable from operation) balance
- (5) Inventory turnover day=365/Inventory turnover
- (6) Net property, plant and equipment turnover=net sales/average Net property, plant and equipment
- (7) Total assets turnover=net sales/average Total assets

4. Earning Ability

- (1) Return on assets= [PAT+interest expense× (1-tax rate)]/the average of total assets
- (2) Return on equity=PAT/the average of total equity
- (3) Net income ratio=PAT/net sales
- (4) EPS = (Earning attributable to shareholders of the Company -dividend from prefer stock)/weighted average outstanding shares

5. Cash Flow

- (1) Cash flow ratio=cash flow from operating activities/current liability
- (2) Cash flow adequacy ratio=most recent 5-year cash flow from operating activities=most recent 5-year (capital expenditure+the increase of inventory+cash dividend)
- (3) Cash reinvestment ratio= (cash flow from operating activities-cash dividend)/(gross property, plant and equipment+long-term investment+other non-current assets+working capital)

6. Leverage

- (1) Operating leverage= (net revenue-variable cost of revenue and operating expense)/operating income
- (2) Financial leverage=operating income/ (operating income-interest expenses)

7.3 Audit Committee Review Report

The Board of Directors has prepared the Company's 2022 Business Report, Financial Statements, and the Proposal for profit & loss appropriation. The CPA Huei-Chen Chang and Ching-Wen Kao from KPMG were retained to audit Acer's Financial Statements and have issued an audit report relating to the Financial Statements. The said Business Report, Financial Statements, and Proposal for profit & loss appropriation have been reviewed and determined to be correct and accurate by the Audit Committee of Acer Incorporated in accordance with Article 14-4 of the Securities and Exchange Act and Article 219 of the Company Act, I hereby submit this Report.

Acer Incorporated

Convener of the Audit Committee: Ching-Hsiang, Hsu

March 16, 2023

7.4 Consolidated Financial Statements Audited by CPAs of the Past Year

Please refer to Appendix I.

7.5 Parent-Company-Only Financial Statements Audited by CPAs of the Past Year

Please refer to Appendix II.

7.6 Disclosure of the Impact on Company's Financial Status Due to Financial Difficulties

None

Review of Financial Position, Management Performance and Risk Management

8.1 Financial position (Consolidated Financial Statements)

Major impact on financial position

Unit: NTD Thousands

Item	Period	2022	2021	Difference	
				Amount	%
Current assets		146,657,025	175,095,238	(28,438,213)	(16.24)
Property, plant and equipment		4,298,887	4,055,870	243,017	5.99
Intangible assets		18,530,591	16,527,283	2,003,308	12.12
Other assets		19,553,216	19,109,920	443,296	2.32
Total assets		189,039,719	214,788,311	(25,748,592)	(11.99)
Current liabilities		99,523,732	129,423,055	(29,899,323)	(23.10)
Non-current liabilities		19,081,792	19,342,313	(260,521)	(1.35)
Total liabilities		118,605,524	148,765,368	(30,159,844)	(20.27)
Common stock		30,478,538	30,478,538	0	0.00
Capital surplus		27,795,883	27,514,269	281,614	1.02
Retained earnings		14,897,145	16,886,389	(1,989,244)	(11.78)
Other equity		(4,309,253)	(8,287,624)	3,978,371	(48.00)
Treasury stock		(2,914,856)	(2,914,856)	0	0.00
Equity attributable to shareholders of the Parent		65,947,457	63,676,716	2,270,741	3.57
Total equity		70,434,195	66,022,943	4,411,252	6.68

Analysis of Deviation over 20%:

1. Current liabilities: The decrease was mainly due to decrease in Notes and accounts payable.
2. Total liabilities: The decrease was mainly due to decrease in Notes and accounts payable.
3. Other equity: The increase was mainly due to increase in gain from foreign currency translation difference.

8.2 Financial performance (Consolidated Financial Statements)

Unit: NTD Thousands

Item	Period	2022	2021	Difference	
				Amount	%
Revenue		275,423,744	319,005,456	(43,581,712)	(13.66)
Cost of revenue		(245,679,257)	(281,814,400)	36,135,143	(12.82)
Gross profit		29,744,487	37,191,056	(7,446,569)	(20.02)
Operating expenses		(22,954,863)	(23,140,474)	185,611	(0.80)
Other operating income and expenses, net		138,073	112,279	25,794	22.97
Operating income		6,927,697	14,162,861	(7,235,164)	(51.09)
Non-operating income and loss		946,124	1,272,784	(326,660)	(25.66)
Income before taxes		7,873,821	15,435,645	(7,561,824)	(48.99)
Income tax expense		(2,270,529)	(4,148,332)	1,877,803	(45.27)
Net income		5,603,292	11,287,313	(5,684,021)	(50.36)
Other comprehensive loss for the year, net of taxes		3,927,825	(3,142,607)	7,070,432	(224.99)
Total comprehensive income		9,531,117	8,144,706	1,386,411	17.02
Net income attributable to shareholders of the Parent		5,003,688	10,897,427	(5,893,739)	(54.08)
Total comprehensive income attributable to shareholders of the Parent		8,930,204	7,818,893	1,111,311	14.21

Analysis of Deviation over 20%:

- Gross profit: The decrease was mainly due to lower revenue.
- Other operating income and expenses, net: The increase was mainly due to higher government grant.
- Operating income: The decrease was mainly due to lower gross profit.
- Non-operating income and loss: The decrease was mainly due to higher foreign currency exchange loss.
- Income before taxes: The decrease was mainly due to lower gross profit.
- Income taxes expense: The decrease was mainly due to lower income before taxes.
- Net income: The decrease was mainly due to lower gross profit.
- Other comprehensive loss for the year, net of taxes: The increase was mainly due to increase in gain from foreign currency translation difference.
- Net income attributable to shareholders of the Parent: The decrease was mainly due to lower net income.

8.3 Cash flows (Consolidated Financial Statements)

8.3.1 Major impact on cash flows

Unit: NTD Thousands

Item	Period	2022
Cash and cash equivalents at beginning of period		44,619,541
Cash flows from operating activities		5,934,436
Cash flows from investing activities		(903,029)
Cash flows from financing activities		(5,839,256)
Effect of foreign exchange rate changes		3,031,210
Cash and cash equivalents at end of period		46,842,902

Analysis of cash flows in 2022:

NT\$5.9 billion net cash provided by operating activities: mainly from transfer of profit before tax, and decrease in notes and accounts receivable, net and inventories.

NT\$0.9 billion net cash used in investing activities: mainly from acquisition of financial assets measured at fair value through profit or loss and at amortized cost and subsidiaries.

NT\$5.8 billion net cash used in financing activities: mainly from cash dividends paid.

8.3.2 Remedial actions for liquidity shortfall

Remedial actions are not required.

8.3.3 Analysis of cash liquidity for next year

Not applicable

8.4 Major capital expenditures and impact on financial and business in recent years

None

8.5 Long-term investment policy and results

The investments accounted for using equity method are for strategic purpose. The share of profits of associates and joint ventures amounted to NT\$120,823 thousands on consolidated statements mainly due to transformation. Acer will still focus on strategic purpose with adequate and prudent assessment.

8.6 Risk Management

8.6.1 Impact of Interest Rate, Exchange Rate and Inflation on Company's P&L and Future Strategy

1. Interest Rate Fluctuation

With high inflation continues, FED is expected to rate hike and keep it at high level in 2023, the market will be concerned about its progress in raising rate. ECB will follow the footsteps of FED to adjust its monetary policy. The Central Bank of the Republic of China (Taiwan) is expected to ensure the interest rate stable and Acer's interest expense will reflect the market trend. Short-term TWD and foreign currency deposits remain to be the most common used instruments for Acer to optimize return while reducing risk.

2. Exchange Rate

With hawkish monetary policy and more rate hike expectation, USD would outperform than other currencies. EUR might be weak accordingly due to geopolitical risks and slow recovery of economy. China reopening will support RMB. The monetary policies of major economies influence the stability of the currencies in emerging markets. Acer will maintain its strategy to meticulously hedge its foreign positions to minimize the impacts on earnings caused by foreign exchange rate fluctuations.

3. Inflation

According to recent IMF World Economic Outlook, Global inflation is forecast to rise from 4.7 percent in 2021 to 8.8 percent in 2022 but to decline to 6.5 percent in 2023 and to 4.1 percent by 2024, it is higher than seen in several decades. Appropriate measures will be taken accordingly to minimize impacts on business operation if need.

8.6.2 The Policy Regarding High-Risk/Highly Leveraged Investments, Lending, Endorsements, and Guarantees for Other Parties; The Main Reasons for the Profits/Losses Generated Thereby; And Response Measures To Be Taken In The Future

Company will use high-safety, high-liquidity, and fixed-income financial instruments provided by financial institutions with high credit rating for the utilization of short-term idle funds. Company will use investment of leading and relative industry for the utilization of long-term idle funds.

Company does not engage in lending, endorsements and guarantees, unless for its subsidiaries; provides, if there is any necessities to lend, endorse, and guarantee to other parties for business purpose, it shall be done in accordance with Company's "Procedures Governing the Acquiring or Disposing of Assets" and "Procedures Governing Endorsement and Guarantee".

As of December 31, 2022, the aggregated amount of guarantees provided is NTD 22,564,546,000, among which NTD 4,392,592,100 was actually used.

Company does not engage in financial derivative transactions unless for hedging purpose. ; If Company engages in financial derivative transactions for business purpose, it shall be done in accordance with Company's "Regulations of Foreign Exchange Risk Management and Structured Deposit."

8.6.3 Research and Development Plan in the Future and Estimated Expense

Company and its affiliates focus on keeping invest in researching and developing (R&D) not only for computers and accessories & peripherals, but for smart retail, artificial intelligence application, smart medicine and healthcare, technology of big data, cloud platform, Video System and Electric bicycle etc. in the near future. The plans are summarized as follows:

Research item	Description
Artificial intelligence	R&D of algorithm, application and service of machine learning and artificial intelligence.
Smart medicine and healthcare	To develop assistant tools and service of artificial intelligence diagnosis, and wearable of physiology monitor by Acer's deep learning and big data system technologies, as well as cooperation with hospital's huge amount of data and medical knowledge.
Big data technology	Data mining, data cleaning, big data management, machine learning and advance analysis of big data.
Cloud platform	To build and develop a cloud platform, and provide a complete solution with the applications of information analysis and artificial intelligence for the necessity for IOT devices.
Video System	In response to post-epidemic era, we develop Video Conference System, Remote Medical System, and apply key Video Technology to the field needing the system in the future.
Electric bicycle	Research and develop motor controller hardware and software algorithm, combine various electric-assist bicycle motors, and analyze those data to optimize motor output power and performance.

It is estimated expense around 0.8% to 1.5% of 2023 total revenue for all R&D plans.

8.6.4 Impacts associated with domestic and international important policies and regulation changes to Company's financial and business and the response measures to be taken in the future

As of the date of print of this annual financial report, the relevant domestic and international important policies and regulation changes have no immediate, obvious and significant expected impacts on the Company's finances and business. Company continues to pay attention to domestic and international important policies and regulation changes to evaluate the impacts timely and then take appropriate steps to protect the Company's finance and business.

8.6.5 Impact Associated with Changes in technology and industry to Company's financial and business and the response measures to be taken in the future

Nowadays, the Information and Communication Industry and relevant technologies change rapider and rapider, which, though, causes no immediately foreseeable, significant and negative impacts on the company's finance and business, Company still continuously and densely focus on the prospects of technology and trends of markets for lead arrangement of business operating. Except self-developing /controlling technologies, Company cooperates with partners in Joint-Development and Joint-Business, and develops new business to foresee the future trendy to technologies and changes of business for keeping competitiveness. Meanwhile, Acer puts the dual transformation strategy into practice vigorously not for finding new markets to its core business, but for new business multiple growth engines by its existing sources and reputations, and that will ambitiously strengthen its performance and new business development. Moreover, Company will focus on gaming PCs, Creator solutions, commercial business growth, in addition to new initiatives including AOPEN, ACSI, AST, Weblink, and more, as its main growth energy to maintain Acer's energy of innovation and progress.

The Company was attacked by ransomware because a employee accidently opened a phishing email, and will probable face similar attacks in the future. In order to prevent and mitigate the damages caused by these kinds of attacks, the Company implements and continuously improves related measures. For example, the Company may implement malicious email filter mechanism can reduce the phishing emails received by the employee, strengthen the firewalls and network control to prevent malware infection crossing different regions, control special accounts by multilayer mechanism to prevent account hacking, implement advanced resolutions to review the machine compliance, execute the system vulnerability scan and patching periodically and conduct the employee's awareness practice.

The Company's cybersecurity defenses would focus on the following issues in the future:

1. The Company shall prevent the customer data leakage. Given that the Company is under multilayer protections, the hackers is unable to obtain the customer data by ransomware attack.
2. The Company shall strengthen overall cybersecurity defense and monitor mechanism. Considering the difficulties of attack, the hackers may reduce their attack intentions. The Company may also implement overall endpoint detection and response software to ensure the visibility of abnormal behaviors.
3. The Company may divide its internal systems, adopt zero trust structure among each regional system and the headquarters' data center, and strengthen the business continuity practice of IT systems. Therefore, the Company may reduce the affected scope eve under the hacker's malicious attack, and recover the system within an acceptable time frame.

8.6.6 The Impacts of enterprise crisis management from Changes in Corporate Reputation and the response measures to be taken in the future

Company has transformed manufacturing into a brand company of information and communication products and service, thus, it focuses on global operations and supply chain management, which results in the shift of the scope of corporate crisis management. Via multi-vendor strategies to separate the risks of cooperation with a single partner, the inventory management of Company will be more resilient. In addition, due to the uncertain global situation, crisis and challenges may occur at any time, Company actively strengthens the awareness of crisis management, develops preventive measures to avoid the occurrence of crisis, and establishes risk management mechanism. If a crisis should be encountered, the losses of risk could be reduced to ensure Company will be evergreen.

8.6.7 Expected benefits and possible risks associated with any merger and acquisitions, and mitigation measures being or to be taken

None

8.6.8 Predicted Benefits and Potential Risk to Company with Factory/Office Expansion

None

8.6.9 Potential Risks to Company from the Concentration of Procurement and Sales

None

8.6.10 Affect on Company from Shares Transfers by Directors, Supervisors or Shareholders Holding More Than 10% Shares

None

8.6.11 Impact and Potential Risks to Company Management Team Change

None

8.6.12 The major litigious, non-litigious or administrative disputes that: (1) involve Acer and/or any Acer director, any Acer supervisor, the general manager, any person with actual responsibility for the firm, any major shareholder holding a stake of greater than 10 %, and/or any company or companies controlled by Acer; and (2) have been concluded by means of a final and definitive judgment, or are still under litigation. Where such a dispute could materially affect shareholders' equity or the prices of the company's securities, the facts of the dispute, amount of money at stake in the dispute, the date of litigation commencement, the main parties to the dispute, and the status of the dispute as of the date of printing of this annual report shall be disclosed as follows

- The status of the dispute as of the date of printing of this annual report:
 - An American company has filed a lawsuit against Acer for violating confidential agreement and trade secret. The Group had appointed outside counsel to handle the case. Acer won the summary motion to dismiss but the plaintiff filed appeal. The appellate procedure is still under review. However, the Group has recognized the litigation provisions based on the development of the aforesaid lawsuit. The management foresees no immediate material adverse effect on the Group's business operations and finance.
 - Acer from time to time receives notices from third parties asserting that Acer has infringed certain patents or demands Acer obtain certain patents licenses. Although Acer does not expect that outcome of the notices, individually or collectively, will have a material adverse effect on Acer's financial position or operation, given the outcome of legal proceedings are difficult to foresee, relevant settlements may affect Acer's result of operation or cash flow in a particular period.
 - Due to the globally fast-changing environment, Acer has faced many kinds of challenges and different interpretation from local tax authorities; therefore, for the tax cases which reach the requirements of liability reserve (including but not limited income tax, withholding tax, and sale tax), Acer has prior-estimated properly accordance with relevant rules. However, tax issues are usually complicated, time-consuming, and unpredictable, thus there would be an influence to Acer's business result or cash flow on specific period.
- In year 2022 and as of the date of printing of this annual report, any Acer director, supervisor, the general manager, any person with actual responsibility for the firm, any major shareholder holding a stake of greater than 10% were not involved in any material litigious, non-litigious or administrative disputes of which the result could materially affect shareholders' equity or the prices of Acer's securities.
- In year 2022 and as of the date of printing of this annual report, any subsidiaries and affiliates controlled by Acer were not involved in any material litigious, non-litigious or administrative disputes of which the result could materially affect Acer shareholders' equity or the prices of Acer's securities.

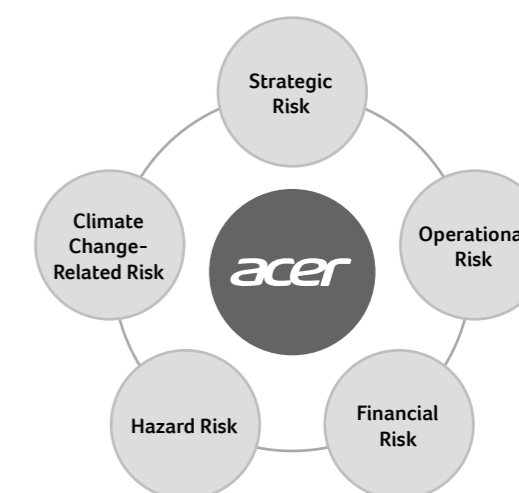

8.6.13 Other important risks

Acer's corporate philosophy is based on the ultimate goal of "sustainable development". We believe that rigorous and pragmatic risk management not only reflects Acer's persistent commitment to our customers, employees, supply chain partners and investors, but also to our long-term commitment to ensuring sound business performance and compliance of corporate social responsibility. It is also a concrete act of ensuring sound business performance and fulfilling corporate social responsibility. The relationship between sustainable corporate development and risk management is intricate. Only by continuously identifying and analyzing the short-term dynamic changes and long-term trends of risks and implementing relevant risk management strategies, and by establishing a risk-conscious corporate culture through frank internal communication and training programs, can we ensure our hard-earned business results and achieve our goal of "sustainability".

To realize the vision of sustainable development and establish a risk-conscious corporate culture, the Company not only follows the relevant risk management measures under the organizational management system and operational processes at all levels, but also commits to continuously improve the Company's risk management practices through the participation of senior managers, using international standards such as ISO 31000:2018 risk management system and the Corporate Risk Management Integrated Framework (COSO ERM 2017) issued by the National Council on Fraudulent Financial Reporting (NCFR) as references. The Company will continue to improve its risk management practices through the participation of its senior management, and will establish a risk management policy based on international standards such as ISO 31000:2018 risk management system and COSO ERM 2017, which was approved by the Board of Directors on March 16, 2022.

Acer takes a proactive and cost-efficient approach to manage risk. The risk management scope is based on strategic, operational, financial, disaster and climate change risk components, and regular overall assessment of the internal and external business environment (external business environment assessment includes various external international risk reports and relevant reports/research results of the insurance industry/risk management consultants for the purpose of assessing the integrity of risk perception) and establishing a risk radar. The Acer Risk Radar for 2022 identified 19 internal risks and 26 external risks, totaling 45 risks, through the aforementioned process. Risk Prioritization and Risk Appetite are conducted for the purpose of business growth and effective resource allocation, and corresponding risk management strategies and preventive/mitigation measures, implementation mechanisms and responsible organizations are formulated to ensure that the relevant key risks are effectively controlled and responded to appropriately. To continuously monitor and strengthen risk management practices and response measures, the Audit Committee evaluates and incorporates them into the regular agenda based on the importance and urgency of the risk ranking, and decides on the reporting issues and the responsible units. The Audit Committee regularly summarizes the risk environment, risk management priorities, risk assessment results and related countermeasures together with information security risk management implementation in the Board of Directors' report (at least once a year).

Scope of Acer Risk Management

Acer Risk Management Organization Structure

Organizational History

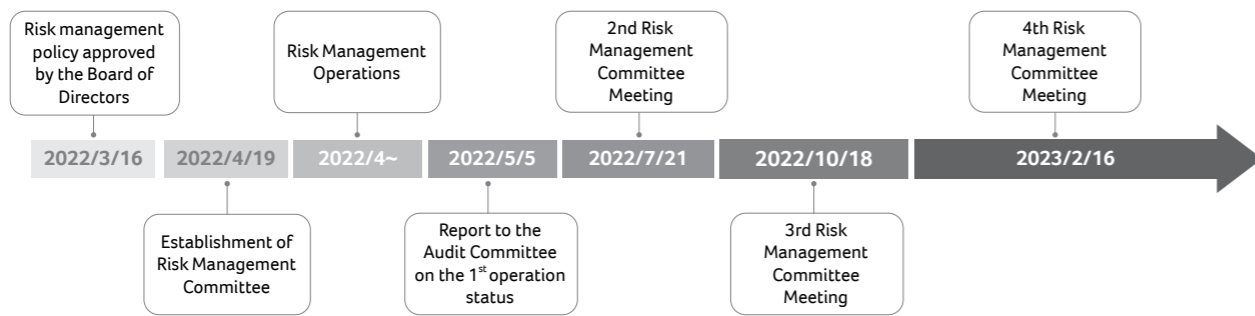

- End of 2012: The Company has established a Risk Management Group, whose members include Legal, Finance, Human Resources, Supply Chain Management, Corporate Communication, Marketing, Quality and Service, IT and Information Security, Environmental Safety and Health, Asset Management, various product business groups, and the Sustainable Development Office. Through regular meetings of the Risk Management Working Group, members of the Working Group are invited to identify, evaluate and discuss potential and emerging risks in the three major areas of economy, environment and society.
- 2018: The Company reorganized the former Global Corporate Social Responsibility Committee (GCSRC) into the Corporate Sustainability Committee (CSC), with the Risk Management Working Group as a unit under the CSC. We believe that the aforementioned reorganization will not only further strengthen the existing risk management practices, but also gradually build a corporate culture with risk management awareness through discussions and participation of all departments and business unit-level executives.

- 2022: Acer formally establishes the Risk Management Committee and completes the development of Acer's Risk Management Policy. The establishment of the Risk Management Committee and the risk management policy were approved by the Audit Committee at its March meeting and then submitted by the Audit Committee to the Board of Directors for approval.

Acer Risk Management Organization Chart

Responsibilities of the Acer Risk Management Organization

Responsibilities of the Acer Risk Management Organization

Risk Management Procedures

- Risk Identification and Assessment**
 - Risk Management Working Group members identify risks and assess potential risk scenarios and operational impacts using relevant risk management assessment tools such as Risk Register and Risk Map.
- Risk Control and Risk Mitigation**
 - Use the Risk Management Working Group as a platform to communicate risk across business units/functional organizations, and promote the strengthening of risk control and mitigation programs for each business unit/functional organization
 - The Risk Management Working Group implements risk management programs and regularly tracks the progress and effectiveness of implementation to ensure continuous improvement of risk management.
 - Each unit will include risk control in the annual internal control self-assessment review
- Risk Monitoring and Corporate Risk Management Report**
 - The Risk Management Working Group summarizes the risk environment, risk management priorities, assessment results and related response measures, and the Risk Management Committee approves/decides.
 - The Risk Management Committee shall report to the Audit Committee and the Board of Directors at least once a year.

Risk Management Procedure

The "Three Lines of Defense" Framework for Organizational Risk Management

Risk Identification and Management Effectiveness in 2022

The Company identifies, evaluates and discusses potential and emerging corporate risks in three major areas: environmental, social and corporate governance. Risk management organizations use the Risk Map to assess the potential threat level of each risk to the company's future operations based on the likelihood of occurrence of each risk and the degree/severity of loss that may be caused once the risk occurs, and to prioritize risk management strategies by classifying the risk level. We also use Sensitivity Analysis and Stress Test to further quantify and analyze the risks and examine whether there is a high correlation between the risk factors. The Risk Map for 2022 includes six risk items with a medium to high level, including geopolitical risk, information security risk, inventory risk, ICT market downside risk, downtime/operational disruption, and ESG-related risk (Refer to the 2022 Risk Map for details).

The Risk Management Working Group compiles the results of the aforementioned analyses and tests, draws up a follow-up implementation plan, and reports them to the Risk Management Committee on a regular basis (quarterly); in 2022, the Risk Management Working Group has a total of 16 departments/units to coordinate with. To integrate the implementation of ERM with the daily operation procedures of each department/unit and the Business Objective, each department/unit first compiles 46 Key Performance Indicators (KPIs) and then develops/identifies 82 Risk Scenarios that may actually cause operational impacts on the aforementioned KPIs. Based on the identified and analyzed risk items, the relevant department staff are assigned to prepare the subsequent risk management strategy and related implementation plan (Risk Mitigation), including the common risk management responses in practice: Loss Prevention, Avoidance, Separation & Duplication, Transfer and Retention. Duplication, Transfer, and Retention, etc., and evaluate the appropriate resource input, implementation priorities, and follow-up progress tracking methods. At the same time, we have developed the Incident Response and Crisis Management plans to minimize the negative impact of potential risks on our business objectives and to strengthen the risk resilience of our overall operations. The aforementioned risk management strategy and related implementation plan are based on the cycle of Plan, Do, Check, and Action, and the effectiveness of the risk management plan and the room for improvement are reviewed periodically during the working group meetings for continuous adjustment/refinement. Finally, progress reports on material risk information and corporate risk management operations are made regularly to the Risk Management Committee and the Audit Committee.

In summary, we continue to actively engage in risk management activities with a proactive approach to address current and future risks and challenges in a prudent manner. The Audit Committee also summarizes the risk environment, risk management focus, risk assessment results and the corresponding response measures, which are reported by the Chairman at the Board of Directors' meeting.

2022 Risk Map

* Risks are ranked according to Severity/Frequency. The higher the severity of risk on the right, the higher the probability of occurrence on the top

Note:

1. The risk identification/analysis process is initiated in the 4th quarter of each year and completed in the 1st quarter of the following year.
2. The Risk Map is based on the risk level assessment of the risk items in 2022.
3. Materiality analysis is part of the ERM integration process. Therefore, ESG-related risks, compliance requirements and human rights-related risks have been incorporated into the risk identification/analysis/ranking/control measures process.
4. Risk item codes (S)-strategic risk, (O)-operational risk, (F)-financial risk, (H)-hazard risk; the numbers represent the serial numbers in the risk register and are not related to the risk level.

Emerging Risks

The Risk Management Working Group has identified emerging risks such as information security risks, extreme climate risks, large-scale infectious diseases, supply chain-related risks and geopolitical risks in 2021. After regular reconsideration and review in 2022, the Risk Management Committee and Working Group identified a number of emerging risks in 2022, including geopolitical risks (including geo-economic), ICT market downside, inventory management, inflation (including green inflation), interest rate increase, and global climate change. Through group discussions and focused thinking, we hope to carefully assess the potential negative impact of each emerging risk item on the company's future operations, and to consider and structure feasible and cost-effective risk management action plans for registration in the risk analysis/registration worksheet. Cyber Security Risk continues to be a key risk concern for the Company, especially considering the risk correlation between geopolitical and global economic environment and cyber security risk. The Risk Management Working Group summarizes possible loss types (including loss of goodwill, business interruption, data leakage, ransomware, etc.), and the IT department has also compiled the following basic information security principles and continues to work on them to obtain ISO 27001 international certification for information security in 2020. In addition, Acer has continued to purchase global information security insurance policies since 2018 and regularly reviews the integrity of the overall coverage every year. In addition to risk transfer considerations, Acer also expects to obtain further assistance and resources from external information security experts through the international information security insurance market. With the rapid development of information technology, the trend of digital transformation and the continuous investment in various innovative applications, we will continue to pay attention to the development trend of cyber security risks (e.g., cyber security risks arising from the adoption of remote working mode) in order to continuously review and improve the relevant information security principles and appropriate risk transfer measures.

- Reviewing external services that are open to the public
- Using the least privilege principle and encryption
- Verifying and securing endpoints
- Considering the security of the application
- Educating users
- Identifying and protecting the weakest points
- Keeping up with the latest information security regulations and understanding the latest attack techniques

The future trends and potential negative impacts of geopolitical risks (geo-economics), such as country-to-country trade protectionism, related barrier measures and economic and financial sanctions. The Risk Management Working Group collects and summarizes possible loss patterns (including a decline in sales volume or market share due to political and economic instability, or an increase in labor and other related costs due to the relocation of production bases). We will closely monitor the long-term development trend of related risks and their subsequent impact, and make efforts to integrate upstream components with diversified suppliers, and continue our efforts to develop new niche markets and sales channels in order to diversify operational risks and reduce the impact and uncertainty caused by changes in supply chain, logistics and global political and economic conditions.

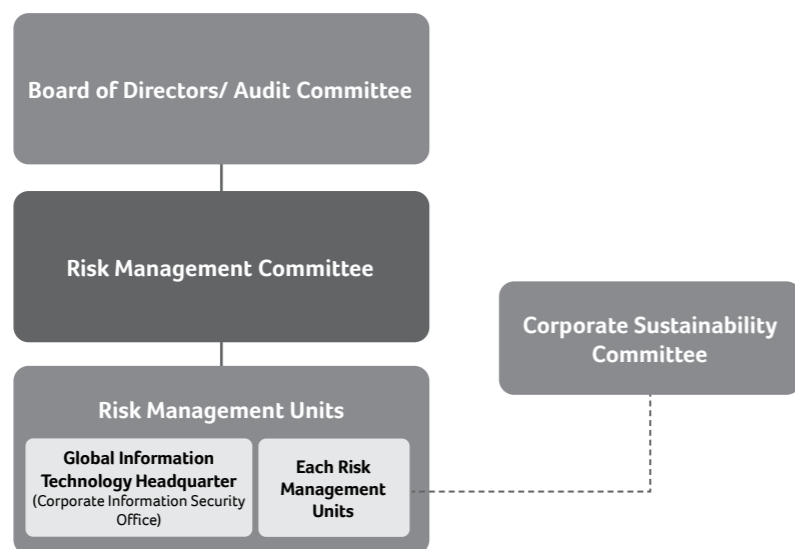

Acer continues to focus on the long-term trends and threats of global climate change and extreme weather phenomena, and has formally introduced the Task Force on Climate-Related Financial Disclosures (TCFD) assessment framework in 2020. Currently, the supply chain management department assesses the potential low-temperature variation during the shipment period for a specific shipment route and, depending on the type and characteristics of the product, consults with the insurance industry/risk management consultant to discuss and cooperate with the shipping company to take feasible and cost-effective damage prevention measures. For infrastructure service interruptions and other operation-related risks (e.g., typhoons, floods, fires, etc.) with a high probability of occurrence, similar to the impact of the Texas snowstorm, Acer has started to develop a basic emergency response/business continuity management plan (IR/BCP) for global warehousing locations in 2021. The Company started with a pilot project at the Taiwan headquarters (the project was completed in January 2022 and the on-site exercise and validation were completed at Acer's Taoyuan warehouse), with a view to gradually evaluating and incorporating the implementation/improvement and regular audits according to the current resource situation at each global warehouse location, or further incorporating it into the evaluation items for the selection of warehouse service providers, in order to gradually and orderly strengthen the risk resilience in warehouse logistics management.

8.6.14 Information disclosure of Cybersecurity Management

8.6.14.1 Cybersecurity Management Strategy and Framework

1. Cybersecurity Risk Management Framework

The Company established Risk Management Committee in 2022. The head of the Corporate Information Security Division under the Global Information Technology Headquarter is one of the members of the committee. The Corporate Information Security Division is responsible for the adoption, execution and risk management of the Company's cybersecurity management and protection policies. The officer of Risk Management Committee would report the cybersecurity management results, cybersecurity issues and directions to board of directors and audit committee at least once a year.

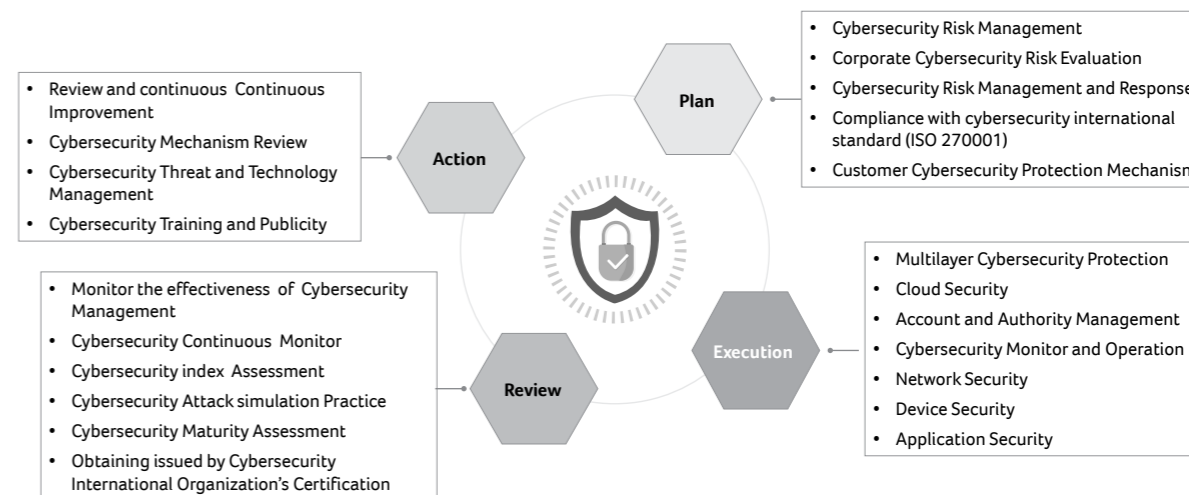

2. Cybersecurity Policies

(1) Corporate Cybersecurity Management Strategy and Framework

In order to fully enforce the cybersecurity management, the corporate cybersecurity unit may convene the meeting of ISMS (Information Security Management System, ISMS) every two weeks for reviewing cybersecurity policies' applicability and protection measures based on Plan-Do Check-Act (PDCA) management cycle system, and would annually arrange internal and external audit to ensure the operation compliance and protection of the material assets' confidentiality, Integrity and availability. ISMS focuses on cybersecurity risk management, and ensure IT infrastructure and core systems to continuously obtain the certification of ISO/IEC 27001., to reduce the threats of corporate cybersecurity from the perspectives of system, technology and procedure, and build up the confidential information protection for the company

In addition to ISMS, the Company took NIST Cybersecurity Framework (CSF) as a reference in 2021 to increase multilayer cybersecurity protections by covering cybersecurity's five functions, including identity (developing an organizational understanding for managing cybersecurity risk to systems, people, assets, data, and capabilities), protection (establishment of appropriate safeguards to ensure delivery of critical infrastructure services), detect (defining the appropriate activities for identifying the occurrence of a cybersecurity event.), respond (adoption of appropriate activities to take action regarding a detected cybersecurity incident) and recover (identifying appropriate activities to maintain plans for resilience and to restore any capabilities or services that were impaired due to a cybersecurity incident). The Company fully enforce the cybersecurity life cycle's risk management, continuously implements new cybersecurity defense technology, integrate the cybersecurity control mechanism into software and hardware operation and daily operation procedure, systematizes cybersecurity monitor, and use NIST CSF framework to continuously review the Company's cybersecurity for developing future strengthen plan.

(2) Corporate Cybersecurity Risk Management and continuous Improvement Structure

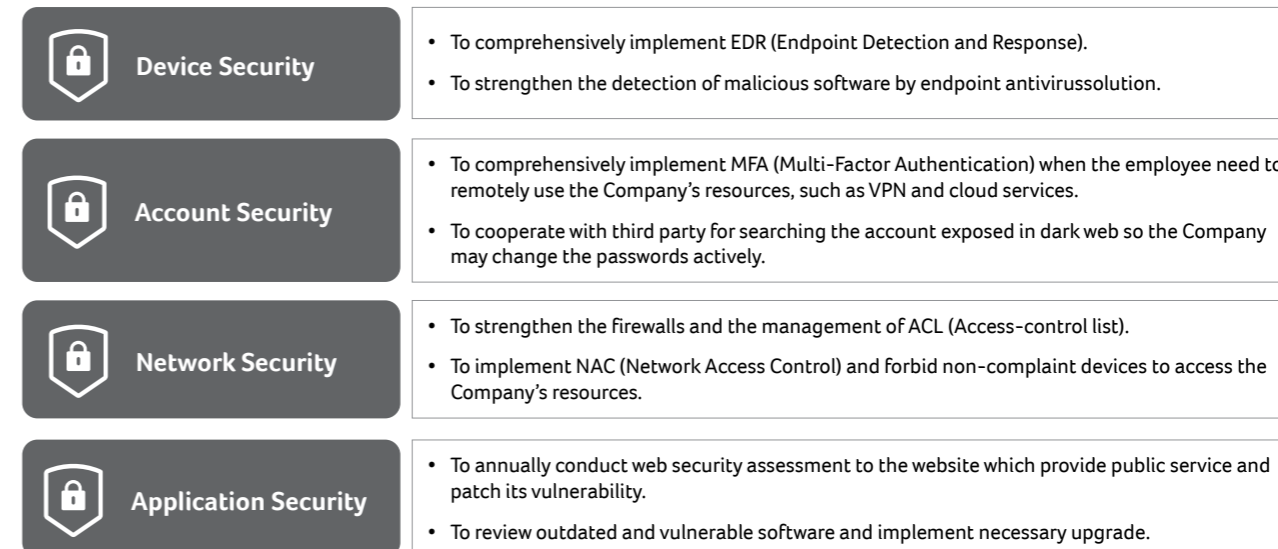

(3) Comprehensive Management Plan

Key Points and Achievements:

- Acer's ISO 27001:2013 certification has been re-validated as continuously effective by the third-party information security verification company BSI, and the scope of ISO 27001 certification has been expanded to include e-commerce systems.
- The implementation of ISO 27001 has been promoted for important core systems by the Pan-European IT team.
- Acer's Global Information Technology Headquarter has enacted "Cloud Operations Management Specification" to ensure that Acer IT may secure operation of systems when using cloud services.
- The implementation of EDR threat detection, response, compliance detection and defense mechanisms, has been implemented globally, significantly enhancing Acer's global security defense capabilities.
- A global vulnerability management dashboard has been established for real-time monitoring, providing a quick overview of the information needed for risk control and enhancing repair standards to reduce risk.
- A global defense and detection information dashboard has been established to provide a comprehensive view of information security risks in real-time.
- Continuously transferring internet information services to the cloud, enhancing DDoS protection for reduction of cybersecurity risks.

Multilayer Cybersecurity Protection

Cybersecurity Management Result Monitoring

The Company continuously responds and corrects cybersecurity defects by third-party assessments to ensure that its cybersecurity protection mechanism meets industry standards.

Assessment of Cybersecurity Maturity

- To engage external experts for the Company's cybersecurity assessment.

The industry average standard, represented by the blue line, is around 83 points, indicating a maturity level of B.

Acer, represented by the black line, has maintained an upward trend and has been consistently performing above the industry average since May 2022, with a score of 88, which is higher than the market average of 83.

Review and Continuous Improvement

Cybersecurity Training and Publicity

- To conduct training periodically for enhance the employees' cybersecurity awareness.
- To strengthen the employees' awareness to phishing email and implement related email protection solution.

8.6.14.2 Cybersecurity Risks and Mitigating Measures:

1. Cybersecurity Risks and Management Measures:

The Company has been established comprehensive internet and computer cybersecurity protection measures but cannot guarantee to fully avoid the third party's internet attacks which may cause breakdown of the computer systems controlling the corporate's major functions. Under the condition of serious internet attacks, the systems may probably lose the Company's important data. Malicious hackers and the internet attacks caused by geopolitics can also intentionally spread computer virus, destructive software, and ransomware in the Company's systems and disturb the Company's operation.

The Company was attacked by ransomware because a WFH employee accidentally opened a phishing email, and will probably face similar attacks in the future. In order to prevent and mitigate the damages caused by these kinds of attacks, the Company implements and continuously improves related measures. For example, the Company may implement malicious email filter mechanism can reduce the phishing emails received by the employee, strengthen the firewalls and network control to prevent malware infection crossing different regions, control special accounts by multilayer mechanism to prevent account hacking, implement advanced resolutions to review the machine compliance, execute the system vulnerability scan and patching periodically and conduct the employee's awareness practice.

The Company's cybersecurity defenses would focus on the following issues in the future:

1. The Company shall prevent the customer data leakage. Given that the Company is under multilayer protections, the hackers is unable to obtain the customer data by ransomware attack.
2. The Company shall strengthen overall cybersecurity defense and monitor mechanism. Considering the difficulties of attack, the hackers may reduce their attack intentions. The Company may also implement overall endpoint detection and response software to ensure the visibility of abnormal behaviors.
3. The Company may divide its internal systems, adopt zero trust structure among each regional system and the headquarters' data center, and strengthen the business continuity practice of IT systems. Therefore, the Company may reduce the affected scope even under the hacker's malicious attack, and recover the system within an acceptable time frame.

2. Major Cybersecurity Event:

There is no major cybersecurity event in 2022.

8.7 Other Necessary Supplement: None

Introduction

AOPEN, a multinational technology company headquartered in Taiwan, it was founded in 1996 and is now an Acer group company. AOPEN provides global certified service and specializes in commercial and industrial services and products, including industrial PC (IPC) products for process control and data acquisition, as well as Artificial Intelligence of Things (AIoT) technologies and digital signage applications. With Acer technology and group power, AOPEN is well-positioned to meet the needs of its partners and customers across quality and support.

AOPEN has extensive experience in global industrial applications market. It serves customers in more than 100 countries and covers various industries. It also cooperates with partners to cultivate business in digital signage, Kiosk, cloud computing, Product design of miniaturized computing host technology and touch technology such as machine vision and security monitoring.

Acer Cyber Security Inc. (ACSI, 6690.TW)

Company Profile

(1) Date of Incorporation : 2000/5/29 (3) Tel : +886-2-8979-6286
 (2) Address : 8F., No. 563, Sec. 4, Zhongxiao E. Rd., Xinyi Dist., Taipei City 110, Taiwan (R.O.C.) (4) Website : www.acercsi.com

Introduction

Acer Cyber Security Inc. (ACSI) is a professional information security service provider specializing in IT and operation technology (OT) management. Its main services include information security consulting management, security operation center (SOC) operation management, operation continuity, information sharing and analysis center (ISAC) setup and monitoring services, antivirus and anti-hacking, security testing, vulnerability scanning, penetration testing, and digital forensics.

In terms of business operations, ACSI relies on its own professional technical capabilities in information security research and development, to assist enterprises in managing IT and OT security, cloud applications, and daily data and system backup, providing a comprehensive range of security services and helping customers build lean security protection capabilities.

ACSI has collaborated with Acer eDC, a cloud architecture provider, to develop the Cloud SOC service, which provides integrated cloud security services for enterprises. Acer eDC's cloud security technology capabilities have earned it the title of Microsoft Top Security's best security partner. The Azure cloud device log and data integration platform API are integrated with ACSI's SOC core technology strength, to report related cloud security events, making Acer eDC an important piece in ACSI's fast-developing cloud security service offerings. This collaboration not only meets the urgent needs of enterprises for cloud security, but also builds operational advantages for ACSI in sustainable development of security services.

Future/Currently Developing New Products and Services

In response to the increasingly diverse patterns of cybersecurity threats, and to better meet market demand, ACSI continues to innovate and optimize the quality of its cybersecurity services. ACSI continues to invest resources in the development of emerging cybersecurity services and solutions. Currently, ACSI's main strategy still centers around the Security Operation Center (SOC) as its core, while increasing its clients' demand for zero-trust architecture, accelerating the deployment of Cloud SOC, integrating cloud and on-premise event notification and 24/7 monitoring. ACSI not only strengthens its existing cybersecurity detection, compliance inspection, and OT detection, but also adds new semiconductor production line equipment cybersecurity standard specifications (SEMI E187) and cloud service detection.

Acer Cyber Security Academy, a subsidiary dedicated to promoting cybersecurity talent development, has obtained certification from the Taiwan Occupational Skill Development and Quality Management System (TTQS) of the Ministry of Labor. This accelerates the establishment of vocational training institutions, which will expand the scale of physical courses and enterprise training, enhancing the capacity for talent development and cybersecurity skills education and training services. In response to various hacking attacks recently, ACSI provides cybersecurity attack and defense field exercises service. I.e., within a certain time frame, the referee ("Purple Team") issues exercise propositions for the attack team ("Red Team") and the defense team ("Blue Team") to conduct practical attack and defense exercises in order to simulate, as a government agency or an enterprise facing attacks from hackers, how to respond to such attacks in time and trace attack IP addresses. Through such attack and defense field exercise service, the cybersecurity resilience for national critical infrastructures or enterprises' operation continuity can be strengthened, and the ability of government agencies or enterprises to respond to unexpected hacker attacks can be verified.

 (2) Address: 6F.-3, No. 33, Huanke 1st Rd., Zhubei City, Hsinchu County, Taiwan (R.O.C.) (4) Website : www.acer-ast.com

Introduction

Acer Synergy Tech Corp. ("AST") was founded in 2017 and listed on the Taipei Exchange in December 2020 with the stock symbol: 6751. AST provides customers one-stop-shop for integrated IT services. The extensive experience and knowledge of AST's professional and technical teams, combined with the collaboration with strategic business partner, AST provides customized application systems based on the needs of customers for the IT environment. The AST's service of information system integration includes the installation of computer equipment, network equipment, storage devices, application software and planning, integration, consulting, and management of enterprise infrastructure, as well as long and short term outsourcing services. Customers can rely on AST for the technical knowhow and the aforementioned service, and achieves their goals of operation and strategy related to the information technology plan.

Current service offering are as follows:

A. Enterprise Infrastructure

AST will consider and design the Information Technology ("IT") architecture planning and application architecture planning together to provide customers a comprehensive enterprise infrastructure planning. IT architecture planning includes: Datacenter Planning; Network Planning; Infrastructure Planning; Information Security Surveillance and Consulting; Sustainable Development and IT Backup Planning; Virtual Infrastructure Planning; Shared System Mechanism Planning; and Operation Management Planning.

B. Information System Integration Service

The service item includes: Server Infrastructure Optimization; Network Setting and Optimization; Infrastructure Implementation and Optimization; Solution Designation and Implementation; and the Planning, integration, installation, fault diagnosis, troubleshooting, online support and management of enterprise information infrastructure.

C. Information Infrastructure Operation Service

AST will provide support service in various fields after setting up the information infrastructure completely, and the service includes: Server Monitoring; Storage Management and Monitoring; Communication Management for Datacenter; Virtual System Management; Terminal Desktop Management (PC/NB/VDI).

AST can monitor relevant data, aggregate the information system application situation, and provide customers suggestions and optimization of operation management and system capacity planning.

D. IT Project Outsourcing Service

AST will provide IT Project Outsourcing Service to clients, including : Information Service management Outsourcing and Long and Short Term Project Outsourcing.

Future/Current Development of New Products and Service:

A. The Consulting Service of Enterprise Infrastructure:

- Industry application information system architecture planning in the financial and manufacturing industries.
- Information system integration application in other industries.

B. The Integrated Application between Information Security Products and System Platform.

- The integrated application solutions for information security (network isolation) products.
- The integrated application solution for Software define data center.
- The information platform establishment and integration services.
- The integrated application solutions for IT service management services.

Introduction

Weblink was founded in 1997, spun off from Acer, Technology Software and Peripherals Department. Weblink was a listed company at emerging stock market in March, 2020, and a listed company at stock exchange market in March, 2021. Weblink is positioned as a professional channel agent, and fully cooperate with vendors to provide the product distribution, stocking, technical support. Weblink's product portfolio comprises of 150 leading brands including commercial and home information electronics, application software, digital entertainment, system integration, and SMB's solution services etc. In addition to computer and communication related products, Weblink also entered to the beauty-life product business, towards multi-business operations, and to meet the diverse needs of customers.

Weblink acts as the agent for following products:

Category	Main Products
Peripheral products	Screens, Printers and consumables, Motherboards, Graphic cards, Handy drives, Memory cards, Video systems, etc.
System and Mobile device products	Desktop PC, NB, Tablets, and Mobile phones, etc.
Software	Office software, ERP, Graphics, font software, etc.
Living and Tech. products	Game console, Game software, TV, Refrigerators, Washing machines, Air conditioners, Air purifiers, etc.
System Integration products	Workstations, Servers, Netcom, UPS, Digital signages, etc.

Future/Current Development of New Products and Service:

- Act as agent for the related artificial intelligence, big data analysis, cloud computing products.
- Increase the distributorship for or the right of agency of international brands related to computing system.
- Aggressively expand the right of agency for the software of business management solutions.
- Combine the resources of physical appliance stores and virtual channels, to develop a new O2O business operation by Online to Offline model and to create a multiple win-win business model for vendors, distributors, dealers and customers.
- Expand the distributorship for or the right of agency of beauty-life product business.

Introduction

AEB (ACER E-ENABLING SERVICE BUSINESS INC.) was incorporated in 2012 as a key strategic investment of global IT leader Acer Inc. in the ICT segment. It aims to be the smart digital partner of enterprises in pursuit of digital transformation. AEB and its team of customer-success professionals commit to bring corporates proved and best-in-class solutions. The company is also the first IT vendor in Taiwan to be certified by Microsoft Taiwan as AE Managed Service Provider (MSP), Cloud Solution Provider (CSP) and Licensing Solution Partner (LSP).

AEB is a key-account based, enterprise focus, B2B IT service provider that serves more than 2000 large accounts from government, high-tech, finance institutions, telecommunications, manufacturing, medical and education industries. In the era of Cloud, AEB partners with 200 plus first-tier solution vendor such as Microsoft, IBM, TrendMicro, Google, AWS, Adobe, Autodesk, Commvault, etc., translates global best practices of digital transformation into local use cases, and enables the success of customers' DX journey with professionals of both business and technology domains.

AEB offers technology consultant, value-added application/ customization development and integration services, system operation and business continuity services to enterprises, and commits to bring enterprises proven and best-in-class solutions of "C3A+P":

- A. Cloud Service: Private Cloud/ Public Cloud/ Hybrid Cloud/ Multi Cloud.
 B. AIoT: Smart Retail/ Smart Medical/ Smart Inspection/ AI Factory.
 C. Application: Mobile/ Web/ Commercial/ e-Commerce/ Value-added system integration/ Customized Development and Deploy.
 D. Appliance: Network and Edge Computing.
 E. PaaS (Platform as a Service): Cloud Managed Service Platform/ e-Book Platform/ e-Payment Platform/ e-Ticketing Platform.

Future/Currently Developing New Products (Services):

- A. Stay focus on cloud service: With the launch of in-house developed iCMP- intelligent Cloud Management Platform, AEB is now a cloud managed service provider that provides enterprise clients multi-cloud and hybrid cloud services.
 B. Expand information security solutions: The company invested in DataSitter, a digital asset protection expert of Greater China region, in Q4 of 2022, further completing its security solution offering as it is now able to provide customer last mile services such as backup and disaster recovery on corporate's valuable digital data.
 C. Continue innovation of smart solutions for medical industry, such as hospital health examination platform, medical technology e-forum platform will be available in near future.
 D. Cloud-based Data Middle Platform for retail or manufacture industry to carry out precision marketing or predication production.

 (2) Address: 7F., No. 86, Sec. 1, Xintai 5th Rd., Xizhi Dist., New Taipei City 221006, Taiwan (R.O.C.) (4) Website: https://www.acer-medical.com/

Introduction

Acer Medical Inc. (AMED) is a subsidiary of the Acer Group that employs communication expertise and focuses on AI and big data analysis technology to work with hospitals and healthcare-related industries in cross-domain collaboration, and designs and develops intelligent medical products for use within the healthcare field and promotion on the international market. AMED passed the QMS and ISO 13485 certification regarding AI-assisted diagnostic and screening software, its product "VeriSee DR", AI-assisted diagnostic software for Diabetic Retinopathy (DR) identification, is even the first TFDA-certified AI-assisted diagnostic software for ophthalmic smart medical materials in Taiwan.

VeriSee DR is an AI diagnostic aid that has been trained using DR diagnosis experience from multiple ophthalmologists and uses AI deep learning techniques to produce diagnosis results similar to that of professional physicians. AMED AI software can be used for edge computing without a network connection. The introduction of VeriSee DR in medical clinics and health examination centers with ophthalmoscopes allows initial screening to be conducted without an ophthalmologist. Analysis results can be seamlessly integrated with hospital information system and operation process, which are used to inform patients whether or not they require a referral to an ophthalmology department for a more detailed examination, in order to avoid missing opportunities for treatment. AMED has signed cooperation agreements with various medical centers, research institutions, international pharmaceutical companies and international medical device manufacturers for expanding the application and commercialization of VeriSee DR. In terms of overseas promotion, VeriSee DR has also obtained medical device licenses in Thailand, Indonesia and the Philippines.

AMED, with its outstanding achievements in the research and development and promotion of artificial intelligence medical device, was officially listed on the Pioneer Stock Board (PSB) (code: 6857) in October 2021, and transferred to the emerging stock market in March 2022.

The new products and services AMED develops now:

- A. Increase the offerings of ophthalmology AI product, so that the same medical image taken from eyes can be used to detect more symptoms through AI-assisted diagnosis and screening, as well as improving the chances of early detection and treatment, reducing the burden of screening for medical personnel, and therefore increasing public health and wellbeing
 B. Expand the non-ophthalmology products and develop the digital healthcare market in order to improve public's awareness of their own health risks as well as the efficiency of the use of medical resources, so as to prevent diseases and improve public health.

Highpoint Service Network Corporation (HSNC, 6884, TW)

Company Profile

- (1) Date of Incorporation: 2018/9/14 (3) Tel: +886-2-2719-5000
 (2) Address: 7F.-5, No. 369, Fuxing N. Rd., Zhongshan Dist., Taipei City 104100, Taiwan (R.O.C.)

Introduction

Highpoint Service Network Corporation (HSNC) is a company providing computer, computer accessories, server, workstation, consumer electronics, network equipment, and server room equipment malfunction detect, repair and maintenance service for multiple brands.

Besides headquarter and several service centers in Taiwan, HSNC has also set up subsidiaries in Malaysia, Thailand, Philippines, Indonesia, and Vietnam to provide service around Taiwan and South East Asia region.

HSNC not only services enterprise clients but also general consumers. HSNC can provide customization service for equipment malfunction detect, repair and maintenance depending on enterprise clients' need. To service consumers, HSNC has established several service centers around Taiwan and South East Asia region. Consumers may obtain professional malfunction detect, repair service in HSNC service centers during normal business hours. In addition, HSNC has successfully built business relationship with some well-known electronic product and accessories brand companies as their authorized malfunction detect, repair and maintenance service provider. HSNC would keep expand service scope and enhance service quality. Currently, HSNC has been registering the public issuance of its shares on the emerging stock market and is preparing to file application for its shares to be listed over-the-counter (OTC) in Taiwan.

Currently, HSNC's main business scope includes:

A. Multi-brands malfunction detect and repair service center:

HSNC has established several multi-brands repair service centers in Taiwan and South East Asia region. By those service centers, HSNC can cooperate with well-known electronic product and accessories brand companies, provide them satisfied and high-quality service, assist them to build service base rapidly in specific areas, and play a professional malfunction detect and repair service consultant role for them. Meanwhile, general consumers also have access to HSNC service center for professional repair service.

B. Global Contact Center:

In order to fulfill clients' service demand globally, HSNC has established Global Contact Center in Philippines due to the language advantage there, aiming global Business Process Outsourcing (BPO) market. By doing so, HSNC can provide brand clients with more valuable service and expand its service area to other areas.

C. Enterprise malfunction detect, repair and maintenance service:

Currently, HSNC's business is focus on Taiwan and South East Asia region, providing hardware and software on-site repair and maintenance service and solutions to enterprise clients. One of the major competition advantage of HSNC is its capability of providing service in multiple countries, therefore HSNC would be able to cover multinational enterprise clients. HSNC is successfully being clients' primary cooperation choice because of its consistent high-quality service and the capacity of creating extra value.

Introduction

Acer Gadget Inc. (Acer Gadget) is a subsidiary of Acer Inc., a top global information and communication technology enterprise. Acer Gadget is headquartered in Taiwan and is dedicated to innovative lifestyle gadgets with operations across five continents around the globe. The mission of Acer Gadget is to break the barriers between people and technology and foster smart lifestyles with innovative technologies. Acer Gadget aims to provide different products, services and solutions across a variety of industries to enable digital transformation and improve customer lifestyles.

Product Lineup

• Acer Apparel

Acer Apparel originated from the Acer Group and is now part of the Acer Gadget's business. It has distributed millions of computer bags around the world every year for over 20 years. Acer Apparel designs, procures, distributes and markets soft products and luggage such as bags, backpacks, protective covers, mouse pads, and more. In recent years, existing resources have been integrated to further expand business to clothing and related wearable accessories, providing a more diversified product portfolio for an existing and newly expanded customer base.

• Xplova

Xplova is Acer Gadget's outdoor and sports brand. Starting from the needs of sports and outdoor enthusiasts, Xplova is challenging customer to push their physical limits, whether indoors, outdoors, running, or cycling. Xplova products are now available worldwide.

Through a marriage of software and hardware, harnessing fitness data, and recreating realistic virtual environments, we are helping consumers have fun and develop fitness habits through technology. Xplova is committed to fostering a social network for sports enthusiasts to achieve healthy living.

• ePay Wearable Product Series

The Acer Gadget Wearable Products Series is committed to creating products for a multitude of customer lifestyles. Among them, the ePay wearable product series is designed for contactless payment to conveniently change payment methods as we go about our lives. The ePay Wearable Series is a series of wearable accessories developed in cooperation with several electronic payment companies in Taiwan. With exclusively developed 3D sensor payment technology, users can travel between cities with contactless payment.

• Digital Solutions: Mobile App and Ecommerce Website Customization

Acer Gadget provides customized application and ecommerce website building services to clients from all walks of life, helping clients create and optimize product portfolios and drive success stories.

Altos Computing Inc. (ALT)

Company Profile

- (1) Date of Incorporation: 2016/9/20 (3) Tel: +886-2-2696-0289
 (2) Address: 6F., No. 99, Sec. 1, Xintai 5th Rd., Xizhi Dist., New Taipei City 221, Taiwan (R.O.C.) (4) Website: www.altoscomputing.com

Introduction

The business model of Altos Computing Inc. (ALT) is to provide solution of High-Performance Computing system (including artificial intelligent computing) and cloud computing. ALT also provides customized system and solutions to customers for their needs on meteorology simulation, fluid dynamics calculation, deep learning calculation, computer learning calculation, edge computing, cloud computing. The main products and service scope of ALT are as following :

A. High-Performance Computing solution

ALT provides High-Performance Computing system with high clock speed and multi-core processor, large capacity memory, and broadband internet. ALT High-Performance Computing system has the ability to provide remote system management, preventive error detection management, server group management, group power management strategy, automatic prompt alert and multi-tunnel notification service to satisfy the demand of high-performance computing from government institution, universities, and enterprise clients for fundamental science research and development of advanced technology.

ALT also provides customized system for the requirement of artificial intelligence computing system. The customized system may provide optimal management on existing accelerator through unique load-balancing algorithm based on the demand of deep learning and computer learning and would effectively enhance preciseness of artificial intelligence computing system and calculation efficiency.

B. Cloud computing solution

ALT supplies various systems architecture integrated with servers, workstations, storage system, Thin Client, or virtualization technology as application solutions to help education institution and enterprise clients. For example, Virtual Desktop Infrastructure (VDI) can simplify system management and operation, and enhance flexibility to reduce the cost incurred from computer terminal control and improve system liability. And Intelligent Desktop Virtualization (IDV) can satisfy clients' demand on computer terminal's centralization management, flexibility, computing efficiency optimization but keep uniformity of system management and operation simultaneously by utilizing virtualization technology in computer terminal to enhance computing performance.

C. Computing system products

ALT provides various series of servers and workstations to clients, and develops AI Development Platform (ADP), Thin Clients, Uninterruptible Power Supply system.

Future/Current Development of New Products and Service:

A. Intelligent computing application solution:

Virtual Desktop Infrastructure and Intelligent Desktop Virtualization platform service solution.

B. New generation of computing system:

New generation of high density server, rack server, tower server, workstation, edge computing system, storage system, Thin Client, Uninterruptible Power Supply system.

Introduction

Acer ITS, an Acer subsidiary, specializes in solutions which incorporate smart transportation and electronic payment capabilities to improve people's quality of life. Acer ITS extends the application of multi-payment technology to various fields of life, whether it is multi-payment for public transportation, taxi or rehabilitation bus, payment for Roadside parking at smart parking meters. These technical services provided by Acer ITS are ubiquitous.

As a pioneer of smart city solutions, Acer ITS pays more attention to the executable application. Among them, the market share of the "smart Roadside parking management system" has reached as high as 90%. There are commercial-operated areas in Tainan City, Taipei City, New Taipei City, Miaoli Zhunan, Kaohsiung Software Technology Park. In recent years, in line with the development trend of EV, some of the new generations of smart parking meters have been integrated into EV chargers, adhering to the original intention of Acer Group for the sustainable development of ESG.

With more than 20 years of experience in payment technology research and development, we have outlined a blueprint for various applications for smart cities. The application fields of the multi-payment solutions include public transportation, private vehicles, and various life fields:

- A. Smart Multiple Payment Solutions: Bus/Exhibition/Paratransit system/stores
 B. Smart Roadside Parking and EV Charging Solution: On-street parking
 C. Smart Parking and EV Charging Solution: Off-street parking
 D. Smart Micro e-ticketing module: More life fields (including shared bicycles/libraries, etc.)

 (2) Address : 7F.-5, No. 369, Fuxing N. Rd., Zhongshan Dist., Taipei City, Taiwan (4) Website : https://www.mpsenergy.com.tw

Introduction

MPS Energy Inc. (hereinafter referred to as MPS) is a lithium-ion battery pack designer and e-bike propulsion system solution provider.

Founded in 2015, MPS has been committed to lithium-ion battery pack design and manufacturing since establishment. The self-designed intelligent Battery Management System (BMS) protects and manages cells, and the robust BMS & cell holder with clear layout inside assure the safety of battery packs. MPS battery packs are manufactured by ISO9001 certified plants, and have obtained several certifications from CE, cTUVus, FCC, EN13849, UN38.3, RoHS, and REACH. MPS battery packs can be applied to various types of applications such as e-bikes, e-cargo bikes, and smart parking charging piles.

MPS also advances in e-bike propulsion system integration. MPS integrates in-house designed battery packs, controllers, HMI, with mid-drive/hub motors, sensors, IoT technology, into a seamless system, providing customers an one-stop total solution. Depending on each customer's intended use, MPS optimizes the performance and functionality of each component, and aims to create an efficient system that delivers smooth and responsive riding experience for users.

MPS have collaborated with many e-bike brands or shared e-bike companies across Europe, North America, and Australia. MPS core technologies lie in the safety and functional design of battery pack, well integrated propulsion system that meet the highest standards of e-bikes. MPS also provides customized services to clients and actively expands the application of battery module technology.

Introduction

Acer Synergy Manpower Corp. (ASM), previously known as ISU Service Corp., was established in November 2019 to cater to the growing demand for diversified and flexible human resources integration services.

With the intensifying international competition, industries require a wide range of human resources to maintain their competitive edge. As a member of the Acer Group, ASM leverages over 30 years of experience in the information services industry, strong service technology expertise, professional information planning consultants, and numerous partners to provide full-function human resources services, software development services, and enterprise management platform integration services. Whether it's short-term or long-term, ASM's services cater to the operational strategies of our customers, enabling them to focus on developing their core businesses, maintaining their competitive advantages, controlling costs effectively, reducing labor costs and operational risks, and maintaining flexibility in corporate development.

Business operations include:

1. Professional human resources services: providing short-term to long-term outsourcing and dispatching services for the information and technology industry, aimed at providing customers with the best talent and assistance.
2. Software project development services: providing assistance to customers with software project planning and development, and also dispatches professional personnel to enterprises to provide software development services tailored to the customer's needs.
3. Enterprise management platform integration services: providing service platform integration planning, recommendations, and execution according to the customer's operational needs.

Operational advantages include:

1. Team with IT expertise: professional team with over 30 years of experience in hardware, software, and information services.
2. Team with HR service expertise: professional team with extensive experience in human resources services, providing professional services for different needs of talents.
3. Full-function enterprise solutions: with a range of solutions for enterprises, offering diverse and flexible service modes.
4. Global supports: With the support of ACER group's global service locations, ASM are able to meet the global strategic needs of our customers.

Representation Letter

The entities that are required to be included in the combined financial statements of Acer Incorporated as of and for the year ended December 31, 2022 under the Criteria Governing the Preparation of Affiliation Reports, Consolidated Business Reports, and Consolidated Financial Statements of Affiliated Enterprises are the same as those included in the consolidated financial statements prepared in conformity with International Financial Reporting Standards No. 10 "Consolidated Financial Statements" endorsed by the Financial Supervisory Commission. In addition, the information required to be disclosed in the combined financial statements is included in the consolidated financial statements. Consequently, Acer Incorporated and Subsidiaries do not prepare a separate set of combined financial statements.

Independent Auditors' Report

To the Board of Directors
Acer Incorporated:

Opinion

We have audited the consolidated financial statements of Acer Incorporated and its subsidiaries, which comprise the consolidated balance sheets as of December 31, 2022 and 2021, and the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Acer Incorporated and its subsidiaries as of December 31, 2022 and 2021, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards (“IFRSs”), International Accounting Standards (“IASs”), and interpretations developed by the International Financial Reporting Interpretations Committee (“IFRIC”) or the former Standing Interpretations Committee (“SIC”) endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of Acer Incorporated and its subsidiaries in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirement. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters for the consolidated financial statements for the year ended December 31, 2022 are stated as follows:

1. Revenue recognition

Refer to Note 4(p) for the accounting policies on recognizing revenue and Note 5(a) for uncertainty of accounting estimations and assumptions for sales returns and allowances, respectively, to the consolidated financial statements.

Description of key audit matter:

Acer Incorporated and its subsidiaries engaged primarily in the sale of brand-name IT products. Revenue is recognized depending on the various trade terms agreed with customers. This exposes Acer Incorporated and its subsidiaries to the risk that the sales transactions made close to the balance sheet date are not recorded in the appropriate period. Furthermore, the accrual of sales allowances and returns based on business practice is subject to management's judgment, which involves significant uncertainty. Consequently, the revenue recognition and accrual of sales allowances and returns have been identified as one of the key audit matters.

How the matter was addressed in our audit:

In relation to the key audit matters above, we have performed certain audit procedures including, among others, testing the design and operating effectiveness of Acer Incorporated and its subsidiaries' internal controls over the timing of revenue recognition; performing a sample test of sales transactions taking place before and after the balance sheet date to ensure that revenue was recognized in the appropriate period; assessing the methodology used by management in estimating sales allowances and returns, including the reasonableness of key assumptions; and inspecting the historical payments of sales allowances and returns to evaluate the reasonableness of the sales allowances and returns estimated by management.

2. Valuation of inventories

Refer to Note 4(h) for the accounting policies on inventory valuation, Note 5(b) for uncertainty of accounting estimations and assumptions for inventory valuation and Note 6(f) for the details of the write-down of inventories, respectively, to the consolidated financial statements.

Description of key audit matter:

Inventories are measured at the lower of cost and net realizable value. Due to the rapid innovation of the information technology products and fierce market competition, Acer Incorporated and its subsidiaries' product price may fluctuate rapidly. Furthermore, the stocks for products and key components may exceed customers' demands thus becoming obsolete. These factors expose Acer Incorporated and its subsidiaries to significant level of uncertainty particularly in the area of estimating net realizable value, which is subject to management's judgments. Therefore, the valuation of inventories has been identified as one of the key audit matters.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain audit procedures including, among others, evaluating whether valuation of inventories was accounted for in accordance with Acer Incorporated and its subsidiaries' accounting policies; obtaining the inventory aging report, analyzing the fluctuation of inventory aging and selecting samples to verify the accuracy of inventory aging classification; and testing the net realizable value of inventories to evaluate the reasonableness of inventory provisions.

3. Impairment of goodwill

Refer to Note 4(n) for the accounting policies on impairment of non-financial assets, Note 5(c) for uncertainty of accounting estimations and assumptions for goodwill impairment and Note 6(l) for the evaluation of goodwill impairment, respectively, to the consolidated financial statements.

Description of key audit matter:

Goodwill arising from acquisition of subsidiaries is subject to impairment test annually or at the time there are indications that goodwill may have been impaired. The assessment of the recoverable amount of the cash-generating unit of goodwill involves management's judgment and estimation with respect to the future cash flows and key assumptions which are complex and involve significant uncertainty. Accordingly, the assessment of impairment of goodwill has been identified as one of the key audit matters.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain audit procedures including, among others, assessing the basis used by management for identifying the cash-generating units and whether book value of assets belonging to respective cash-generating units have been completely covered; assessing the appropriateness of the valuation method and key assumptions (in particular projected sales growth rate and weighted-average cost of capital) used by the management in measuring the recoverable amount; assessing the historical reasonableness of management's estimates of financial forecasts, and performing a sensitivity analysis to assess the impact of variations in key assumptions. In addition to the above audit procedures, we have also involved a valuation specialist to evaluate the appropriateness of the weighted-average cost of capital used and its underlying assumptions; and inspecting the adequacy disclosures of related information on impairment evaluation of goodwill.

Other Matter

Acer Incorporated has additionally prepared its parent-company-only financial statements as of and for the years ended December 31, 2022 and 2021, on which we have issued an unmodified audit opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the IFRSs, IASs, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing Acer Incorporated and its subsidiaries' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate Acer Incorporated and its subsidiaries or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including members of the Audit Committee) are responsible for overseeing Acer Incorporated and its subsidiaries' financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Acer Incorporated and its subsidiaries' internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Acer Incorporated and its subsidiaries' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause Acer Incorporated and its subsidiaries to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within Acer Incorporated and its subsidiaries to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Huei-Chen Chang and Ching-Wen Kao.

KPMG

Taipei, Taiwan (Republic of China)

(English Translation of Consolidated Financial Statements Originally Issued in Chinese)
ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements
For the years ended December 31, 2022 and 2021
(Expressed in Thousands of New Taiwan Dollars, Except for Per Share Information
And Otherwise Specified)

1. Organization and business

Acer Incorporated (the “Company”) was incorporated on August 1, 1976, as a company limited by shares under the laws of the Republic of China (“R.O.C.”) and registered under the Ministry of Economic Affairs, R.O.C.

The Company and its subsidiaries (the “Group”) are primarily engaged in the marketing and sale of brand-name IT products. The Group also build innovative ecosystems in consumer and commercial markets to provide more products and integrated applications, along with software, hardware and related services. In addition, the Group aims at building multiple business engines to foster innovation of products and application services for market expansion.

2. Authorization of the consolidated financial statements

These consolidated financial statements were authorized for issue by the Board of Directors on March 16, 2023.

3. Application of new and revised accounting standards and interpretations:

- (a) The impact of the International Financial Reporting Standards (“IFRSs”) endorsed by the Financial Supervisory Commission, R.O.C. (“FSC”) which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2022:

- Amendments to IAS 16 “Property, Plant and Equipment – Proceeds before Intended Use”
- Amendments to IAS 37 “Onerous Contracts – Cost of Fulfilling a Contract”
- Annual Improvements to IFRS Standards 2018–2020
- Amendments to IFRS 3 “Reference to the Conceptual Framework”

- (b) The impact of IFRS issued by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2023, would not have a significant impact on its consolidated financial statements:

- Amendments to IAS 1 “Disclosure of Accounting Policies”
- Amendments to IAS 8 “Definition of Accounting Estimates”
- Amendments to IAS 12 “Deferred Tax related to Assets and Liabilities arising from a Single Transaction”

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- (c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Group, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

Standards or Interpretations	Content of amendment	Effective date per IASB
Amendments to IAS 1 “Classification of Liabilities as Current or Non-current”	Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional right to defer settlement for at least 12 months after the reporting date. The amendments has removed the requirement for a right to be unconditional and instead now requires that a right to defer settlement must exist at the reporting date and have substance. The amendments clarify how a company classifies a liability that can be settled in its own shares – e.g. convertible debt.	January 1, 2024
Amendments to IAS 1 “Non-current Liabilities with Covenants”	After reconsidering certain aspects of the 2020 amendments, new IAS 1 amendments clarify that only covenants with which a company must comply on or before the reporting date affect the classification of a liability as current or non-current. Covenants with which the company must comply after the reporting date (i.e. future covenants) do not affect a liability’s classification at that date. However, when non-current liabilities are subject to future covenants, companies will now need to disclose information to help users understand the risk that those liabilities could become repayable within 12 months after the reporting date.	January 1, 2024

The Group is evaluating the impact of its initial adoption of the abovementioned standards or interpretations on its consolidated financial position and consolidated financial performance. The results thereof will be disclosed when the Group completes its evaluation.

The Group does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture”
- IFRS 17 “Insurance Contracts” and amendments to IFRS 17 “Insurance Contracts”

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- IFRS 16 “Requirements for Sale and Leaseback Transactions”

4. Summary of significant accounting policies

The significant accounting policies presented in the consolidated financial statements are summarized below. The following accounting policies have been applied consistently throughout the periods presented in the consolidated financial statements.

(a) Statement of compliance

The accompanying consolidated financial statements have been prepared in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers” (the “Regulations”) and the IFRSs, IASs, IFRIC Interpretations and SIC Interpretations endorsed and issued into effect by the FSC (collectively as “Taiwan-IFRSs”).

(b) Basis of preparation

(i) Basis of measurement

The accompanying consolidated financial statements have been prepared on a historical cost basis except for the following items:

- 1) Financial instruments measured at fair value through profit or loss (including derivative financial instruments);
- 2) Financial assets measured at fair value through other comprehensive income; and
- 3) Net defined benefit liability measured at present value of defined benefit obligation less the fair value of plan assets.

(ii) Functional and presentation currency

The functional currency of each Group entity is determined based on the primary economic environment in which the entity operates. The Group’s consolidated financial statements are presented in New Taiwan dollars, which is the Company’s functional currency. Except when otherwise indicated, all financial information presented in New Taiwan dollars has been rounded to the nearest thousand.

(c) Basis of consolidation

(i) Principles of preparation of the consolidated financial statements

The accompanying consolidated financial statements incorporate the financial statements of the Company and its controlled entities (the subsidiaries) in which the Company is exposed, or has right, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

The financial statements of the subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. All inter-company transactions, balances and resulting unrealized income and loss are eliminated on consolidation. Total comprehensive income (loss) of a subsidiary is attributed to the shareholders of the Company and the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

When necessary, financial statements of subsidiaries are adjusted to align the accounting policies with those adopted by the Company.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. The difference between the adjustment of the non-controlling interests and the fair value of the consideration paid or received is recognized directly in equity and attributed to the shareholders of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognized in profit or loss, which is calculated as the difference between (1) the aggregate of the fair value of consideration received and the fair value of any retained interest at the date when control is lost, and (2) the previous carrying amount of the former subsidiary's assets (including goodwill), liabilities and non-controlling interest at the date when the Group loses control. All amounts recognized in other comprehensive income in relation to the subsidiary are accounted for on the same basis as would be required if the Group had directly disposed of the related assets and liabilities.

The fair value of any investment retained in a former subsidiary at the date when control is lost is regarded as the cost on initial recognition of a financial asset measured at fair value through other comprehensive income or an investment in an associate.

Note 1: Although the Group did not hold more than half of the ownership of the entities, the Group, directly and indirectly, held more than half of their voting shares, resulting in the Group to obtain control over those entities.

Note 2: The subsidiaries were newly established or acquired in 2022.

Note 3: The subsidiaries were newly established or acquired in 2021.

Note 4: WLII formerly owned 19% shares of PGL and its subsidiaries (“PGL Group”). On June 1, 2021, WLII acquired an additional 32% shares of PGL Group, resulting in WLII to have control over PGL Group.

Note 5: The Company acquired 40.55% voting shares, and is the single largest shareholder, of AOI. Since the remaining 59.45% ownership was not concentrated within specific shareholders, and according to the degree of participation of the other shareholders in the previous shareholders' meeting, the Group was able to obtain more than half of the voting rights at AOI' s shareholders' meeting, and thus, obtaining control over AOI and its subsidiaries.

Note 6: The subsidiaries were liquidated in 2022.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Note 7: In addition to the 42.42% equity ownership held directly and indirectly by the Group in Bluechip, the Group entered into a voting and proxy agreement with the original shareholders of Bluechip, who agreed to allow the representatives assigned by the Group to exercise their voting rights and other rights on behalf of them at shareholders' meeting. The Group concluded that the equity interests held directly and indirectly by the Group, along with the shares under proxy agreement, exceeded half of the shareholdings of Bluechip, resulting in the Group to obtain control over Bluechip.

Note 8: AOSD merged with AOI in the fourth quarter of 2021.

(iii) List of subsidiaries which are not included in the consolidated financial statements: None.

(d) Foreign currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured at historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for an investment in equity securities designated as at fair value through other comprehensive income, which are recognized in other comprehensive income.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising from acquisition, are translated into the presentation currency of the Group's consolidated financial statements at the exchange rates at the reporting date. The income and expenses of foreign operations, excluding foreign operations in hyperinflationary economies, are translated into the presentation currency of the Group's consolidated financial statements at the average exchange rates for the period. All resulting exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, joint control, or significant influence is lost, the accumulated exchange differences related to that foreign operation is reclassified to profit or loss. In the case of a partial disposal that does not result in the Group losing control over a subsidiary, the proportionate share of the accumulated exchange differences is reclassified to non-controlling interests. For a partial disposal of the Group's ownership interest in an associate or joint venture, the proportionate share of the accumulated exchange differences in equity is reclassified to profit or loss.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, the monetary item is, in substance, a part of net investment in that foreign operation, and the related foreign exchange gains and losses thereon are recognized as other comprehensive income.

(e) Classification of current and non-current assets and liabilities

An asset is classified as current when one of the following criteria is met; all other assets are classified as non-current assets:

- (i) It is expected to be realized, or intended to be sold or consumed in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) The asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current when one of the following criteria is met; all other liabilities are classified as non-current liabilities:

- (i) It is expected to be settled in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.

(f) Cash and cash equivalents

Cash comprises cash on hand, checking deposits and demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes should be classified as cash equivalents.

(g) Financial instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(i) Financial assets

On initial recognition, a financial asset is classified as measured at: amortized cost, fair value through other comprehensive income (FVOCI), or fair value through profit or loss (FVTPL). All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold financial assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Fair value through other comprehensive income ("FVOCI")

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Debt investments at FVOCI are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment loss are recognized in profit or loss. Other net gains and losses are recognized in other comprehensive income. On derecognition, other comprehensive income accumulated in equity are reclassified to profit or loss.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income. On derecognition, other comprehensive income accumulated in equity is reclassified to retained earnings and is never reclassified to profit or loss.

Dividend income derived from equity investments is recognized on the date that the Group's right to receive the dividends is established (usually the ex-dividend date).

3) Fair value through profit or loss ("FVTPL")

All financial assets not classified as measured at amortized cost or at FVOCI described as above are measured at FVTPL, including derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any dividend and interest income, are recognized in profit or loss.

4) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses ("ECL") on financial assets measured at amortized cost (including cash and cash equivalents, notes and accounts receivable, other receivables and other financial assets) and contract assets.

The Group measures loss allowances for accounts receivable, contract assets and other financial assets at an amount equal to lifetime ECL, except for the following financial assets which are measured using 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- bank balances for which credit risk (i.e., the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. The information includes both quantitative and qualitative information and analysis based on the Group's historical experience and credit assessment, as well as forward-looking information.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

ECLs are probability-weighted estimate of credit losses over the expected life of financial assets. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

5) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets; in these cases, the transferred assets are not derecognized.

(ii) Financial liabilities and equity instruments

1) Classification of debt or equity

Debt and equity instruments issued by the Group are classified as financial liabilities or equity in accordance with the substance of the contractual agreements and the definitions of a financial liability and an equity instrument.

2) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recognized at the amount of consideration received, less the direct issuing cost.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

3) Treasury shares

When shares recognized as equity are repurchased, the amount of the consideration paid, including directly attributable costs, is recognized as a deduction from equity. Repurchased shares are classified as treasury stock. When treasury stock is sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is recognized in capital surplus or retained earnings (if the capital surplus is not sufficient to be written down).

4) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is held for trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

5) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligation has been fulfilled or cancelled, or has expired. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value. The difference between the carrying amount of a financial liability derecognized and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

6) Offsetting of financial assets and liabilities

Financial assets and liabilities are presented on a net basis only when the Group has the legally enforceable right to offset and intends to settle such financial assets and liabilities on a net basis or to realize the assets and settle the liabilities simultaneously.

(iii) Derivative financial instruments

The Group uses derivative financial instruments to hedge its foreign currency exposures. Embedded derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and certain criteria are met. Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are recognized in profit or loss.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(h) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is calculated using the weighted-average method, and includes expenditure incurred in bringing them to their existing location and condition. Net realizable value represents the estimated selling price in the ordinary course of business, less all estimated costs of completion and necessary selling expenses.

(i) Investment accounted for using the equity method

Investments accounted for using the equity method include investments in associates and interests in joint venture.

Associates are those entities in which the Group has significant influence, but not control or joint control, over their financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition less any accumulated impairment losses.

The Group recognizes its share of the profit or loss and other comprehensive income of those associates from the date on which significant influence commences until the date on which significant influence ceases. The Group recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in percentage of ownership.

Gains and losses resulting from transactions between the Group and an associate are recognized only to the extent of unrelated investors' interests in the associate.

Adjustments are made to associates' financial statements to conform to the accounting policies applied by the Group.

When the Group's share of losses of an associate equals or exceeds its interests in an associate, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group discontinues the use of the equity method and measures the retained interest at fair value from the date when its investment ceases to be an associate. The difference between the fair value of retained interest and proceeds from disposing of a part interest in the associate, and the carrying amount of the investment at the date the equity method was discontinued is recognized in profit or loss. The Group accounts for all the amounts previously recognized in other comprehensive income in relation to that associate on the same basis as would have been required if the associates had directly disposed of the related assets or liabilities. If a gain or loss previously recognized in other comprehensive income would be reclassified to profit or loss (or retained earnings) on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (or retained earnings) when the equity method is discontinued. If the Group's ownership interest in an associate is reduced while it continues to apply the equity method, the Group reclassifies the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to the reduction in ownership interest to profit or loss (or retained earnings).

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

When the Group subscribes to additional shares in an associate at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment will differ from the amount of the Group's proportionate interest in the net assets of the associate. The Group records such a difference as an adjustment to investments, with the corresponding amount charged or credited to capital surplus. If the adjustments are charged to capital surplus and the capital surplus resulting from investments accounted for using the equity method is not sufficient, the remaining difference is debited to retained earnings. If the Group's ownership interest is reduced due to the additional subscription to the shares of the associate by other investors, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate will be reclassified to profit or loss on the same basis as would be required if the associate had directly disposed of the related assets or liabilities.

A joint venture is a joint arrangement whereby the Group has joint control of the arrangement (i.e. joint ventures) in which the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities. The Group recognizes its interest in a joint venture as an investment and accounts for that investment using the equity method in accordance with IAS 28 "Investments in Associates and Joint Ventures", unless the Group qualifies for exemption from that Standard.

When assessing the classification of a joint arrangement, the Group considers the structure and legal form of the arrangement, the terms in the contractual arrangement, and other facts and circumstances. When the facts and circumstances change, the Group reevaluates whether the classification of the joint arrangement has changed.

(j) Property, plant and equipment

(i) Recognition and measurement

Property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Reclassification to investment property

A property is reclassified to investment property at its carrying amount when the purpose of the property changes from owner-occupied to investment.

(iii) Subsequent costs

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(iv) Depreciation

Depreciation is calculated on the cost of assets less their residual values and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated. The estimated useful lives of property, plant and equipment are as follows: buildings – main structure - 30 to 50 years; air-conditioning system - 10 years; other equipment pertaining to buildings - 20 years; computer and communication equipment - 2 to 5 years; other equipment - 3 to 10 years.

Depreciation methods, useful lives, and residual values are reviewed at each financial year-end, with the effect of any changes in estimate accounted for on a prospective basis.

(k) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business or for administrative purposes. Investment property is measured at cost on initial recognition, and subsequently at cost, less accumulated depreciation and accumulated impairment losses. The methods for depreciating and determining the useful life and residual value of investment property are the same as those adopted for property, plant and equipment.

Rental income from investment property is recognized as other operating income and expenses on a straight-line basis over the term of the lease. Lease incentives granted are recognized as an integral part of the total rental income, over the term of the lease.

An investment property is reclassified to property, plant and equipment at its carrying amount when the purpose of the investment property has been changed from investment to owner-occupied.

(l) Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) As a lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically evaluated and reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is subsequently measured at amortized cost using the effective interest method. It is remeasured when:

- there is a change in future lease payments arising from the change in an index or rate; or
- there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- there is a change of the Group's assessment on whether it will exercise an option to purchase the underlying asset, or;
- there is a change in the lease term resulting from a change of the Group's assessment on whether it will exercise an extension or termination option; or
- there is any lease modifications in lease subject, scope of the lease or other terms.

At inception or on reassessment of whether a contract contains a lease, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings, the Group has elected not to separate non-lease components and account for each lease component and any associated non-lease components as a single lease component.

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize the difference in profit or loss for any gain or loss relating to the partial or full termination of the lease.

The Group presents right-of-use assets that do not meet the definition of investment properties, and lease liabilities as a separate line item respectively in the consolidated balance sheets.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group has elected not to recognize right-of-use assets and lease liabilities for leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(ii) As a lessor

When the Group acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers to the lessee substantially all the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

For operating lease, the Group recognizes rental income on a straight-line basis over the lease term.

(m) Intangible assets

(i) Goodwill

Goodwill arising from acquisitions of subsidiaries is accounted for as intangible assets. Refer to note 4(u) for the description of the measurement of goodwill at initial recognition. Goodwill arising from acquisitions of investments accounted for using the equity method is included in the carrying amount of the investments. Goodwill is not amortized but is measured at cost less accumulated impairment losses.

(ii) Trademarks

Trademarks acquired in a business combination are measured at fair value at the acquisition date. Subsequent to the initial recognition, trademarks with definite useful lives are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over the estimated useful lives of 7 years. Trademarks with indefinite useful lives are carried at cost less any accumulated impairment losses and are tested for impairment annually. The useful life of an intangible asset not subject to amortization is reviewed annually at each financial year-end to determine whether events and circumstances continue to support an indefinite useful life assessment for the asset. Any change in the useful life assessment from indefinite to definite is accounted for as a change in accounting estimate.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(iii) Other intangible assets

Other separately acquired intangible assets are carried at cost or fair value at the acquisition date, less accumulated amortization and accumulated impairment losses. Amortization is recognized in profit or loss on a straight-line basis over the following estimated useful lives: customer relationships - 7 to 10 years; developed technology - 10 years; channel resources - 8.8 years; developing technology - 15 years; patents - 4 to 15 years; acquired software - 1 to 3 years.

The residual value, amortization period, and amortization method are reviewed at least at each financial year-end, with the effect of any changes in estimate accounted for on a prospective basis.

(n) Impairment of non-financial assets

The Group assesses at the end of each reporting date whether there is any indication that the carrying amounts of non-financial assets (other than inventories, contract assets, and deferred tax assets) may be impaired. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually or when there are indications of impairment.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets. Goodwill arising from a business combination is allocated to cash-generating units ("CGUs") or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an individual asset or CGU is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other non-financial assets, an impairment loss is reversed only to the extent that the asset's carrying amount that would have been determined (net of depreciation or amortization) had no impairment loss been recognized for the assets in prior years.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(o) Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

(i) Warranties

A provision for warranties is recognized when the underlying products or services are sold. This provision reflects the historical warranty claim rate and the weighting of all possible outcomes against their associated probabilities.

(ii) Others

Provisions for litigation claims and environmental restoration are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

(p) Revenue recognition

(i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below.

1) Sale of goods

The Group recognizes revenue when control of the products has been transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

The Group recognizes revenue based on the price specified in the contract, net of the estimated volume discounts and rebates. Accumulated experience is used to estimate the discounts and rebates using the expected value method, and revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. A refund liability is recognized for expected sales discounts and rebate payable to customers in relation to sales made until the end of the reporting period. No element of financing is deemed present as the sales are made with a credit term ranged from 30 to 90 days, which is consistent with the market practice.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Some subsidiaries of the Group grant their customers the right to return the products within 90 days. Therefore, they reduce revenue by the amount of expected returns and recognize a refund liability and a right to the returned goods. Accumulated experience is used to estimate such returns at the time of sale. At each reporting date, the Group reassesses the estimated amount of expected returns.

The Group's obligation to provide a refund for faulty goods under the standard warranty terms is recognized as a provision for warranty. Please refer to note 6(r) for more explanation.

A receivable is recognized when the goods are delivered as this is the point in time that the Group has a right to an amount of consideration that is unconditional.

2) Revenue from service rendered

The Group provides system implementation or integration services to enterprise customers. Revenue from providing services is recognized in the accounting periods in which the services are rendered. For performance obligations that are satisfied over time, revenue is recognized based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided. The proportion of services provided is determined based on the portion of the work performed, the time passed by, or the milestone reached.

Estimates of revenues, costs, or extent of progress toward completion, are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by the management.

In case of fixed-price contracts, the customer pays the fixed amount based on a payment schedule. If the accumulated revenue recognized by the Group exceeds the payments, a contract asset is recognized. If the payments exceed the accumulated revenue recognized, a contract liability is recognized.

3) Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and the payment made by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

(ii) Contract costs

1) Incremental costs of obtaining a contract

The Group recognizes the incremental costs of obtaining a contract with a customer as an asset if the Group expects to recover those costs. The incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained. Costs to obtain a contract that would have been incurred, regardless of whether the contract was obtained, shall be recognized as an expense when incurred, unless those costs are explicitly chargeable to the customer regardless of whether the contract is obtained.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group applies the practical expedient to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the Group otherwise would have recognized is one year or less.

2) Assets recognized from costs to fulfill contracts with customers

If the costs incurred in fulfilling a contract with a customer are not within the scope of another Standard (e.g., IAS 2 *Inventories*, IAS 16 *Property, Plant and Equipment* or IAS 38 *Intangible Assets*), the Group recognizes an asset from the costs incurred to fulfil a contract only if those costs meet all of the following criteria:

- the costs relate directly to a contract or to an anticipated contract that the Group can specifically identify;
- the costs generate or enhance resources of the Group that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and
- the costs are expected to be recovered.

General and administrative costs, costs of wasted materials, labor or other resources to fulfil the contract that were not reflected in the price of the contract, costs that relate to satisfied performance obligations (or partially satisfied performance obligations), and costs for which the Group cannot distinguish whether the costs relate to unsatisfied performance obligations or to satisfied performance obligations (or partially satisfied performance obligations) are recognized as expenses when incurred.

(q) Government grant

A government grant is recognized in profit or loss only when there is reasonable assurance that the Group will comply with the conditions associated with the grant and that the grant will be received.

A government grant is recognized in profit or loss in the period in which it becomes receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group without future related costs.

Government grant is recorded in other operating income and expenses, net.

(r) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution pension plans are expensed during the year in which employees render services.

(ii) Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets. The discount rate for calculating the present value of the defined benefit obligation refers to the interest rate of high-quality government bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating the terms of the related

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

pension obligation. The defined benefit obligation is calculated annually by qualified actuaries using the projected unit credit method.

When the benefits of a plan are improved, the expenses related to the increased obligations resulting from the services rendered by employees in the past years are recognized in profit or loss immediately.

The remeasurements of the net defined benefit liability (asset) comprise (i) actuarial gains and losses; (ii) return on plan assets, excluding amounts included in net interest on the net defined benefit liability (asset); and (iii) any change in the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability (asset). The remeasurements of the net defined benefit liability (asset) are recognized in other comprehensive income and reflected in other equity.

The Group recognizes gains or losses on the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs. The gain or loss on curtailment or settlement comprises any resulting change in the fair value of plan assets and any change in the present value of the defined benefit obligation.

(iii) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed during the period in which employees render services. A liability is recognized for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to make such payments as a result of past service provided by the employees, and the obligation can be estimated reliably.

(s) Share-based payment

The grant-date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, and the amount ultimately recognized is based on the number of awards that meet the related service and non-market performance conditions at the vesting date.

For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

The grant date of options for employees to subscribe new shares for a cash injection is the date when the Board of Directors approves the exercise price and the shares to which employees can subscribe.

(t) Income taxes

Income taxes comprise current taxes and deferred taxes. Current and deferred taxes are recognized in profit or loss unless they relate to business combinations or items recognized directly in equity or other comprehensive income.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred income taxes are recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred taxes are not recognized for:

- (i) Temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- (ii) Temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- (iii) Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for unused tax losses, tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date, and reflect uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if the following criteria are met:

- (i) the Group has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
 - 1) the same taxable entity; or
 - 2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(u) Business combinations

The Group accounts for business combinations using the acquisition method. The goodwill arising from an acquisition is measured as the excess of the acquisition-date fair value of consideration transferred, including the amount of non-controlling interest in the acquiree, over the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed (generally at fair value). If the amount calculated above is a deficit balance, the Group recognizes that amount as a gain on a bargain purchase in profit or loss immediately after reassessing whether it has correctly identified all of the assets acquired and all of the liabilities assumed. For each business combination, non-controlling interest in the acquiree is measured either at fair value or at the non-controlling interest's proportionate share of the fair value of acquiree's identifiable net assets.

Acquisition-related costs are expensed as incurred except for the costs related to issuance of debt or equity instruments.

For each business combination, the Group measures any non-controlling interests in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets, if the non-controlling interests are present ownership interests and entitle their holders to a proportionate share of the acquiree's net assets in the event of liquidation. Other components of non-controlling interests are measured at their acquisition-date fair values, unless another measurement basis is required by the IFRSs endorsed by the FSC.

In a business combination achieved in stages, the Group shall remeasure its previously held equity interest in the acquiree at its acquisition-date fair value and recognize the resulting gain or loss in profit or loss. The amount previously recognized in other comprehensive income in relation to the changes in the value of the Group's equity interest should be reclassified to profit or loss on the same basis as would be required if the Group had disposed directly of the previously held equity interest.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, provisional amounts for the items for which the accounting is incomplete are reported in the financial statements. During the measurement period, the provisional amounts recognized at the acquisition date are retrospectively adjusted, or additional assets or liabilities are recognized, to reflect new information obtained about facts and circumstances that existed as of the acquisition date. The measurement period shall not exceed one year from the acquisition date.

(v) Earnings per share ("EPS")

The basic and diluted EPS attributable to stockholders of the Parent are disclosed in the consolidated financial statements. Basic EPS is calculated by dividing net income attributable to stockholders of the Parent by the weighted-average number of common shares outstanding during the year. In calculating diluted EPS, the net income attributable to stockholders of the Parent and weighted-average number of common shares outstanding during the year are adjusted for the effects of dilutive potential common shares. The Group's dilutive potential common shares include profit sharing for employees to be settled in the form of common stock.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(w) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker, who decides on the allocation of resources to the segment and assesses its performance. Each operating segment consists of standalone financial information.

5. Critical accounting judgments and key sources of estimation and assumption uncertainty

The preparation of the consolidated financial statements in conformity with the Regulations and Taiwan-IFRSs requires management to make judgments, estimates and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in the future periods affected.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year is included as follows:

(a) Revenue recognition (accrual of sales return and allowance)

The Group records a refund liability for estimated future returns and other allowances in the same period the related revenue is recognized. Refund liability for estimated sales returns and other allowances is generally made and adjusted based on historical experience, channel inventory, market and economic conditions, and any other factors that would significantly affect the allowance. The adequacy of estimations is reviewed periodically. The fierce market competition and rapid evolution of technology could result in significant adjustments to the accruals made.

(b) Valuation of inventory

Inventories are measured at the lower of cost or net realizable value. The Group uses judgment and estimates to determine the net realizable value of inventory at each reporting date.

Since the Group is under the electronics industry that is rapidly innovative, the Group estimates the net realizable value of inventory, taking obsolescence and unmarketable items into account at the reporting date, and then writes down the cost of inventories to net realizable value. The net realizable value of the inventory is mainly determined based on assumptions of future demand within a time horizon, which could result in significant adjustments. Refer to note 6(f) for further description of inventory write-downs.

(c) Impairment of goodwill

The assessment of impairment of goodwill requires the Group to make subjective judgments to identify cash-generating units, allocate the goodwill to relevant cash-generating units, and estimate the recoverable amount of relevant cash-generating units. Any changes in these estimates based on changed economic conditions or business strategies could result in significant adjustments in future years. Refer to note 6(l) for further description of the impairment of goodwill.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group applies the simplified approach to provide for its expected credit losses, i.e., the use of lifetime expected loss provision for all receivables. Forward looking information is taken into consideration as well. Analysis of expected credit losses on notes and accounts receivable was as follows:

	December 31, 2022		
	Gross carrying amount	Weighted- average loss rate	Loss allowance
Current	\$ 43,825,399	0.14%	(61,296)
Past due 1-30 days	6,520,997	0.28%	(17,948)
Past due 31-60 days	716,355	2.57%	(18,399)
Past due 61-90 days	202,999	2.71%	(5,501)
Past due 91-180 days	175,403	10.38%	(18,199)
Past due 181 days or over	<u>23,876</u>	90.67%	<u>(21,649)</u>
	<u>\$ 51,465,029</u>		<u>(142,992)</u>
	December 31, 2021		
	Gross carrying amount	Weighted- average loss rate	Loss allowance
Current	\$ 59,972,724	0.09%	(56,097)
Past due 1-30 days	3,550,650	0.48%	(16,893)
Past due 31-60 days	441,709	1.62%	(7,155)
Past due 61-90 days	81,506	10.31%	(8,400)
Past due 91-180 days	63,545	11.06%	(7,025)
Past due 181 days or over	<u>50,066</u>	50.32%	<u>(25,193)</u>
	<u>\$ 64,160,200</u>		<u>(120,763)</u>

As of December 31, 2022 and 2021, no expected credit losses was provided for accounts receivable from related parties after management's assessment.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Movements of the allowance for notes and accounts receivable were as follows:

	<u>2022</u>	<u>2021</u>
Balance at January 1	\$ 120,763	192,005
Impairment losses recognized (reversal of impairment loss)	20,735	(35,070)
Acquisition through business combination	-	6,911
Write-off	(4,218)	(35,458)
Effect of exchange rate changes	<u>5,712</u>	<u>(7,625)</u>
Balance at December 31	<u><u>\$ 142,992</u></u>	<u><u>120,763</u></u>

The Group entered into factoring agreements with financial institutions to sell its accounts receivable. Under the agreements, the Group does not have the responsibility to assume the default risk of the transferred accounts receivable but is liable for the losses incurred on any business dispute. The Group derecognized the above accounts receivable as it has transferred substantially all of the risks and rewards of ownership of the accounts receivable, and it did not have any continuing involvement in them. The accounts receivable from the financial institutions were recognized as “other receivables” upon the derecognition of those accounts receivable. As of December 31, 2021, the Group sold its accounts receivable without recourse as follows:

<u>December 31, 2021</u>						
<u>Purchaser</u>	<u>Amount Derecognized</u>	<u>Amount Advanced Unpaid</u>	<u>Amount Advanced Paid</u>	<u>Amount Recognized in Other Receivables</u>	<u>Range of Interest Rate</u>	<u>Significant Transferring Terms</u>
HSBC Bank	\$ <u>364,861</u>	<u>19,007</u>	<u>345,854</u>	<u>19,007</u>	5.25%	None

(d) Inventories

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Raw materials	\$ 13,048,547	15,676,331
Work in process	57,117	18,380
Finished goods and merchandise	22,151,378	22,188,155
Spare parts	1,009,184	1,073,057
Inventories in transit	<u>5,946,851</u>	<u>19,747,904</u>
	<u><u>\$ 42,213,077</u></u>	<u><u>58,703,827</u></u>

For the years ended December 31, 2022 and 2021, the amounts of inventories recognized as cost of revenue were \$225,668,269 and \$255,560,066, respectively, of which \$1,914,349 and \$1,943,032, respectively, were the write-down of inventories to net realizable value.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- (e) Financial assets measured at fair value through other comprehensive income-non current

	December 31, 2022	December 31, 2021
Equity investments measured at fair value through other comprehensive income		
Domestic listed stock	\$ 6,713,753	7,064,857
Unlisted stock	890,208	741,845
	\$ 7,603,961	7,806,702

The Group designated the investments shown above as financial assets measured at fair value through other comprehensive income (FVOCI) because these equity instruments are held for long-term strategic purposes and not for trading.

Certain financial assets measured at FVOCI were disposed of in 2022 and 2021. The realized loss accumulated in other comprehensive income of \$43,825 and \$308,290 have been reclassified from other equity to retained earnings.

- (f) Financial assets measured at amortized cost

	December 31, 2022	December 31, 2021
Fixed Rate Corporate Bonds	\$ 183,622	-
Fixed Rate Callable Notes	614,160	-
	\$ 797,782	-

The Group evaluated these financial assets being hold-to-maturity in order to collect the contractual cash flows, which are solely payments for principal and interest on principal amount outstanding. Therefore, such financial assets were classified as financial assets measured at amortized cost.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(g) Investments accounted for using the equity method

A summary of the Group's investments in associates and joint ventures at the reporting date is as follows:

<u>Name of Associates and Joint Ventures</u>	<u>December 31, 2022</u>		<u>December 31, 2021</u>	
	<u>Percentage of ownership</u>	<u>Carrying amount</u>	<u>Percentage of ownership</u>	<u>Carrying amount</u>
Associates :				
GrandPad Inc. ("GrandPAD")	28.85	\$ 182,967	28.88	169,885
Apex Material Technology Corp. ("AMTC")	6.73	348,266	7.01	317,106
Antung Trading Corporation ("ANT")	11.79	317,502	11.79	275,656
Shine Passion Engineering Co, Ltd. ("SPE")	19.25	110,277	-	-
Others	-	161,630	-	102,881
Joint Venture:				
Smart Frequency Technology Inc. ("SFT", note(i))	55.00	<u>53,732</u>	55.00	<u>71,601</u>
		<u>\$ 1,174,374</u>		<u>937,129</u>

Note (i): According to the joint venture agreement with a third party, the Group and the other party have joint control over SFT. Accordingly, this investment is accounted for using the equity method.

AOI donated partial of its ownership interest in MPL, formerly an investment accounted for using the equity method, to Acer Foundation on August 30, 2021. Consequently, AOI's ownership interest in MPL decreased from 27.21% to 17.21% and lost significant influence over it. Therefore, AOI reclassified the investment to fair value through other comprehensive income (FVOCI) – non-current and recognized a gain on disposal of investment of \$47,815, which was included in "other gains and losses" in the accompanying statements of comprehensive income.

Since AMTC failed to meet its sales forecast and maintain its profitability under the influence of the fierce market competition, on December 31, 2019, AOI assessed that there was an indication of impairment in the carrying amounts of its investments in AMTC, resulting in AOI to recognize the impairment loss of \$50,294. Moreover, since the aforementioned impairment indicators may no longer exist or may have been mitigated based on the impairment assessments conducted in June 2022, the related recoverable amount had been remeasured, and a reversal of impairment loss of \$30,048 was recognized in other gains and losses.

(h) Subsidiaries

(i) Acquisition of Winking Entertainment Ltd. by AGM

1) Consideration transferred

On December 31, 2022 (the acquisition date), AGM acquired 54.96% ownership interest of Winking Entertainment Ltd. (“WKC”) for a consideration of \$641,544, resulting in the Company to obtain control over WKC and its subsidiaries (“WKC Group”), who has been included in the Group’s consolidated entities thereafter. The acquisition of WKC was contracted under advance arrangements, whereby the payment of \$61,102 made to the original shareholders in January 2023 was recognized in other payables as of December 31, 2022.

WKC Group is engaged in the operation of Art Outsourcing and Game Development. The acquisition of WKC enables the Group to jointly develop and expand game-related business and embark on the game business.

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

2) Identified assets acquired

The following table summarizes the fair value of assets acquired, liabilities assumed and goodwill recognized at the acquisition date (December 31, 2022):

Consideration transferred	\$	641,544
Non-controlling interest in the acquiree (proportionate share of the fair value of the identifiable net assets)		247,911
Less: Fair value of identifiable assets acquired and liabilities assumed		
Cash and cash equivalents	\$	186,012
Contract assets-current		91,362
Notes and accounts receivable, net		101,768
Other receivable		98,321
Other current assets		13,878
Property, plant and equipment		70,860
Right-of-use assets		86,114
Intangible assets-customer relationships		189,068
Intangible assets software		7,469
Deferred tax asset		25,136
Other non-current assets		11,208
Contract liabilities-current		(4,206)
Notes and accounts payable		(37,062)
Other payable		(141,116)
Other current liabilities		(3,722)
Lease liabilities		(85,907)
Deferred tax liabilities		(58,761)
		<u>550,422</u>
Goodwill	\$	<u><u>339,033</u></u>

If there is any information discovered within one year from the acquisition date about facts and circumstances that existed at the acquisition date which leads to an adjustment to the above provisional amounts, or any additional provisions existed as at the acquisition date, the acquisition accounting will be revised.

3) Intangible assets

Intangible assets – customer relationships are amortized on a straight-line basis over the estimated future economic useful life of 12 years. Goodwill arising from the acquisition is due to control premium over WKC, the synergies of the business combination, future market development and value of workforce, none of these qualifies as an identifiable intangible asset.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

4) Pro forma information

From the acquisition date to December 31, 2022, WKC contributed revenue of \$0 and net income of \$0 to the Group's operating results. If the acquisition had occurred on January 1, 2022, the management estimates that consolidated revenue would have been \$276,154,994, and consolidated net income would have been \$5,622,974.

(ii) Acquisition of Protrade Global Ltd. by WLII

On June 1, 2021, WLII acquired 32% of ownership interest in Protrade Global Ltd. After the acquisition, WLII's interest in Protrade Global Ltd. increased from 19% to 51%, and therefore obtained control over it since then.

Protrade Global Ltd. and its subsidiaries (the "Protrade") are mainly engaged in the global trade and distribution of synthetic rubber, plastics and related chemical products and raw materials as well as the logistic business. Although Protrade engages in different industry with WLII, they both involve in channel resources and platform industry. While WLII is developing "partnership economic" and cross-industry platform, it is expected to be benefited from the synergies of including Protrade as one of the important partners of the cross-industry alliance.

The purchase consideration, assets acquired and liabilities assumed at the acquisition date and goodwill recognized were as follows:

1) Fair value of consideration transferred the acquisition date

Cash	\$ 184,923
Contigent consideration	<u>35,758</u>
	<u>\$ 220,681</u>

According to the contigent consideration arrangements, the contigent consideration os estimated based on Protrade's consolidated net income in 2021 and 2022 and the maximum amount of the contigent consideration does not exceed US\$1,672. The potential undiscounted contingent payments to be paid by the Group ranges from US\$0 to US\$1,672.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

2) Identifiable assets acquired and liabilities assumed

The following table summarizes the fair value of assets acquired and liabilities assumed at the acquisition date (June 1, 2021).

Cash and cash equivalents	\$ 373,961
Financial assets measured at fair value through profit or loss	46,504
Notes and accounts receivable, net	408,925
Other receivables	4,863
Inventories	404,619
Other current assets	380,392
Property, plant and equipment	134,224
Right-of-use assets	24,211
Intangible assets	183,663
Other non-current assets	7,909
Short-term borrowings	(827,234)
Contract liabilities	(162,464)
Notes and accounts payable	(175,947)
Other payables	(450,656)
Current income tax liabilities	(5,607)
Other current liabilities	(397)
Lease liabilities — non-current	(24,503)
Other non-current liabilities	(976)
Fair value of identifiable net assets	<u><u>\$ 321,487</u></u>

3) Goodwill

Goodwill arising from the acquisition has been recognized as follows.

Consideration transferred	\$ 220,681
Add: Non-controlling interest in the acquiree (proportionate share of the fair value of the identifiable net assets)	157,528
Fair value of pre-existing interest in the acquiree	96,068
Less: Fair value of identifiable net assets	<u>(321,487)</u>
Goodwill (reported under intangible assets)	<u><u>\$ 152,790</u></u>

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

WLII remeasured the fair value of its pre-existing 19% ownership of Protrade at the acquisition date, resulting in a valuation loss of \$56,915, which was accumulated in other equity. At the acquisition date, the related other comprehensive loss accumulated in other equity has been reclassified to retained earnings by WLII, and the Group reduced the retained earnings of \$33,538 accordingly based on its percentage of ownership of WLII.

Goodwill arising from the acquisition of Protrade is mainly due to value of workforce. It is expected to be benefited from the synergies of cross-industry alliance between Protrade and the Group. None of the goodwill recognized is expected to be deductible for tax purposes.

4) Pro forma information

From the acquisition date to December 31, 2021, Protrade contributed revenue of \$3,279,739 and net income of \$39,306 to the Group's operating results. If the acquisition had occurred on January 1, 2021, the management estimates that consolidated revenue would have been \$320,987,875, and consolidated net income would have been \$11,372,141.

(iii) Changes in ownership interests of subsidiaries without losing control

The Group acquired additional equity interests of its subsidiaries or disposed a portion of them, which did not result in a loss of control over them. Moreover, subsidiaries of the Group increased their share capital by issuing shares, wherein the Group did not subscribe proportionately based on its current ownership percentage, resulting in the Group's ownership interest in its subsidiaries to change. Please refer to note 4(c).

A summary the effect on the equity attributable to the parent arising from abovementioned changes in ownership interests in subsidiaries:

	<u>2022</u>	<u>2021</u>
Capital surplus — arising from changes in ownership interests in subsidiaries	\$ 154,065	60,105
Capital surplus — arising from difference between consideration and carrying amount of subsidiaries acquired or disposed.	<u>12,345</u>	<u>29,880</u>
	<u>\$ 166,410</u>	<u>89,985</u>

Fair value:			
Balance at December 31, 2022			<u>\$ 1,251,802</u>
Balance at December 31, 2021			<u>\$ 1,250,794</u>

The fair value of the investment property is determined by referring to the market price of similar real estate transaction or the value in use of the investment property. The value in use is the present value of the future cash flows from continuous lease activities. On December 31, 2022 and 2021, the estimated discount rate used for calculating the present value of the future cash flows was 6.83% and 5.79%, respectively.

For certain land acquired, the ownership registration has not been transferred to the land acquirer, APDI, a subsidiary of the Company. To protect its interests, APDI has obtained signed deeds of assignment from the titleholders assigning all rights and obligations related to the land to APDI. Additionally, the land title certificates are held by APDI, and APDI has registered its liens thereon.

(ii) Impairment test on goodwill and other intangible assets

The carrying amounts of goodwill arising from business combinations and the respective CGUs to which the goodwill was allocated for impairment test purpose were as follows:

	<u>RO-EMEA</u>	<u>RO-PA</u>	<u>RO-PAP</u>	<u>RO-China</u>	<u>Other CGUs without significant goodwill</u>	<u>Total</u>
Balance at January 1, 2022	\$ 8,927,087	1,430,653	2,951,891	2,263,095	244,241	15,816,967
Acquisition through business combination	-	-	-	-	339,033	339,033
Reclassification	-	-	-	-	40,414	40,414
Effect of exchange rate changes	834,244	144,097	243,557	54,813	15,436	1,292,147
Balance at December 31, 2022	<u>\$ 9,761,331</u>	<u>1,574,750</u>	<u>3,195,448</u>	<u>2,317,908</u>	<u>639,124</u>	<u>17,488,561</u>
Balance at January 1, 2021	\$ 9,240,816	1,469,709	3,018,281	2,271,251	17,722	16,017,779
Acquisition through business combination	-	-	-	-	233,816	233,816
Effect of exchange rate changes	(313,729)	(39,056)	(66,390)	(8,156)	(7,297)	(434,628)
Balance at December 31, 2021	<u>\$ 8,927,087</u>	<u>1,430,653</u>	<u>2,951,891</u>	<u>2,263,095</u>	<u>244,241</u>	<u>15,816,967</u>

The recoverable amount of a CGU was determined based on the value in use, and the related key assumptions were as follows:

- 1) The cash flow projections were based on historical operating performance and future financial budgets, covering a period of 5 years, approved by management. Cash flows beyond that 5-year period have been extrapolated using zero growth rate.
- 2) Discount rates used to determine the value in use for each CGU were as follows:

	<u>RO-EMEA</u>	<u>RO-PA</u>	<u>RO-PAP</u>	<u>RO-China</u>
December 31, 2022	15.7 %	11.1 %	16.3 %	14.9 %
December 31, 2021	16.9 %	13.5 %	19.2 %	20.3 %

The estimation of discount rate is based on the weighted-average cost of capital.

Based on the impairment assessments conducted in 2022 and 2021, no impairment losses were recognized as the recoverable amount of CGUs were higher than their carrying amounts.

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(q) Lease liabilities

(i) The carrying amount of lease liabilities were as follows:

	December 31, 2022	December 31, 2021
Current	\$ <u>613,263</u>	<u>530,564</u>
Non-current	\$ <u>1,495,786</u>	<u>1,320,713</u>

Please refer to note 6(ad) for the maturity analysis of lease liabilities.

(ii) The amounts recognized in profit or loss were as follows:

	2022	2021
Interest on lease liabilities	\$ <u>38,738</u>	<u>36,338</u>
Variable lease payments not included in the measurement of lease liabilities	\$ <u>90,651</u>	<u>56,516</u>
Expenses relating to short-term leases	\$ <u>41,099</u>	<u>40,448</u>
Expenses relating to leases of low-value assets	\$ <u>4,736</u>	<u>3,492</u>

(iii) The amounts recognized in the statement of cash flows for the Group were as follows:

	2022	2021
Total cash outflow for leases	\$ <u>827,442</u>	<u>816,589</u>

(iv) Major terms of leases

The Group leases land, buildings, vehicles, office equipment, and miscellaneous equipment with lease terms ranged from 1 to 30 years, some of which include options to extend the lease term after the end of the contract term. As certain leases of office and miscellaneous equipment meet the definition of short-term lease or lease of low-value assets, the Group elected to applied exemption and not to recognize right-of-use assets and lease liabilities.

(i) Warranties

The provision for warranties is made based on the number of units sold currently under warranty, historical rates of warranty claim on those units, and cost per claim to satisfy the warranty obligation. The Group reviews the estimation basis on an ongoing basis and revises it when appropriate.

(ii) Litigation

Litigation provisions are recorded for pending litigation when it is determined that an unfavorable outcome is probable, and the amount of loss can be reasonably estimated.

(iii) Restructuring

One of subsidiaries underwent an operational optimization and organizational downsizing in response to the change of international trade environment and other factors and restructuring provision and cost was recognized accordingly. The provision was mainly for employee termination benefits and relocation costs of machinery equipment. The related expenses were reported in other expenses under operating expenses in the accompanying statements of comprehensive income.

(iv) Environmental protection and others

An environmental protection provision is made when products are sold and is estimated based on historical experience.

(s) Operating lease

The Group leases its investment and operating properties to others. The Group has classified these leases as operating leases as it does not transfer substantially all the risks and rewards incidental to ownership of the assets to lessees. Please refer to note 6(k) for the information of investment property.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

A maturity analysis of lease payments, showing the undiscounted lease payments to be received after the reporting date, is as follows:

	December 31, 2022	December 31, 2021
Less than 1 year	\$ 24,912	91,256
1 year to 2 years	29,957	50,860
2 years to 3 years	24,860	36,291
3 years to 4 years	18,039	21,360
4 years to 5 years	15,760	17,488
Over 5 years	<u>39,008</u>	<u>44,747</u>
Total undiscounted lease payments	<u>\$ 152,536</u>	<u>262,002</u>

In 2022 and 2021, the rental income from investment property amounting to \$36,107 and \$89,327, respectively, were recognized and included in other operating income and loss. Related repair and maintenance expenses recognized and included in operating expense were as follows:

	2022	2021
Arising from investment property that generated rental income during the period	\$ 29,811	34,756
Arising from investment property that did not generate rental income during the period	<u>7,816</u>	<u>11,957</u>
	<u>\$ 37,627</u>	<u>46,713</u>

(t) Employee benefits

(i) Defined benefit plans

The reconciliation between the present value of defined benefit obligations and the net defined benefit liabilities (assets) for defined benefit plans was as follows:

	December 31, 2022	December 31, 2021
Present value of benefit obligations	\$ 2,742,742	2,980,785
Fair value of plan assets	<u>(1,340,916)</u>	<u>(1,112,882)</u>
Net defined benefit liabilities (reported under other non-current liabilities)	<u>\$ 1,401,826</u>	<u>1,867,903</u>
	December 31, 2022	December 31, 2021
Present value of benefit obligations	\$ 12,002	66,518
Fair value of plan assets	<u>(70,527)</u>	<u>(115,826)</u>
Net defined benefit assets (reported under other non-current assets)	<u>\$ (58,525)</u>	<u>(49,308)</u>

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Company and its domestic subsidiaries make defined benefit plan contributions to the pension fund account at Bank of Taiwan that provides pension benefits for employees upon retirement. The plans (covered by the Labor Standards Law) entitle a retired employee to receive a payment based on years of service and average salary for the six months prior to the employee's retirement.

Foreign subsidiaries, including AJC, ATH, AIN, AMI, AIL, APHI, AEG, ASZ, AIT, ACF, ASIN, AEH, SER, AOJ, HSNI, HSNP and HSNT, also have defined benefit pension plans based on their respective local laws and regulations.

1) Composition of plan assets

The pension fund (the "Fund") contributed by the Company and its domestic subsidiaries is managed and administered by the Bureau of Labor Funds of the Ministry of Labor (the Bureau of Labor Funds). According to the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund", with regard to the utilization of the Fund, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks. The Company and its domestic subsidiaries also established pension funds in accordance with the "Regulations Governing the Management, Investment, and Distribution of the Employees' Retirement Fund Established by a Profit-seeking Enterprise", which are funded by time deposits and bank deposits deposited in the designated financial institutions. The administration of pension funds is separate from the Group, and the principal and interest from such funds shall not be used in any form except for the payment of pension and severance to employees.

Foreign subsidiaries with defined benefit pension plans make pension contributions to pension management institutions in accordance with their respective local regulations.

As of December 31, 2022 and 2021, the Group's fair value of plan assets, by major categories, was as follows:

	December 31, 2022	December 31, 2021
Cash	\$ 446,957	466,440
Equity instruments	531,806	444,883
Instruments with fixed return	126,350	85,958
Real estate	<u>306,330</u>	<u>231,427</u>
	<u>\$ 1,411,443</u>	<u>1,228,708</u>

Cash includes the labor pension fund assets. For information on the domestic labor pension fund assets (including the asset portfolio and yield of the fund), please refer to the website of the Bureau of Labor Funds.

Remeasurement on the net defined benefit liabilities (assets):		
Actuarial loss (gain) arising from experience adjustments	(77,667)	35,476
Actuarial loss (gain) arising from changes in demographic assumption	481	(58,786)
Actuarial loss (gain) arising from changes in financial assumption	(427,807)	70,889
Benefits paid by the Group and the plan	(99,052)	(189,572)
Past service costs and settlement loss (gain)	(13,886)	(116,372)
Settlement	(53,520)	(54,505)
Contributions by plan participants	19,635	25,282
Effect of exchange rate changes	145,401	(128,270)
Defined benefit obligations at December 31	<u>\$ 2,754,744</u>	<u>3,047,303</u>

3) Movements in fair value of plan assets

	<u>2022</u>	<u>2021</u>
Fair value of plan assets at January 1	\$ 1,228,708	1,355,940
Interest income	4,981	5,407
Remeasurement on the net defined benefit liabilities (assets):		
Return on plan assets (excluding amounts included in net interest expense)	82,287	10,442
Benefits paid by the plan	(81,958)	(174,285)
Contributions by plan participants	19,635	25,282
Contributions by the employer	119,202	117,094
Loss on curtailment	(5,025)	(64,367)
Settlement	(44,063)	-
Effect of exchange rate changes	87,676	(46,805)
Fair value of plan assets at December 31	<u>\$ 1,411,443</u>	<u>1,228,708</u>

4) Changes in the effect of the asset ceiling

In 2022 and 2021, there was no effect of the asset ceiling.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

5) Expenses recognized in profit or loss

	<u>2022</u>	<u>2021</u>
Current service costs	\$ 195,043	233,367
Net interest expense	13,832	12,001
Past service costs and settlement loss (gain)	(13,886)	(116,372)
Loss on curtailment	5,025	64,367
	<u>\$ 200,014</u>	<u>193,363</u>
Classified under cost of revenue	\$ 12,375	522
Classified under operating expense	187,639	192,841
	<u>\$ 200,014</u>	<u>193,363</u>

6) Actuarial assumptions

The principal assumptions of the actuarial valuation were as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Discount rate	0.625%~7.45%	0.15%~6.94%
Future salary increases rate	1.50%~7.00%	2.00%~6.00%

The weighted-average duration of the defined benefit plans ranges from 4 years to 22 years. The Group expects to make contribution of \$115,812 to the defined benefit plans in the year following December 31, 2022.

7) Sensitivity analysis

When calculating the present value of the defined benefit obligations, the Group uses judgments and estimations to determine the actuarial assumptions for each measurement date, including discount rates and future salary changes. Any changes in the actuarial assumptions may significantly impact the amount of the defined benefit obligations.

The following table summarizes the impact of a change in the assumptions on the present value of the defined benefit obligation.

	<u>December 31, 2022</u>		<u>December 31, 2021</u>	
	<u>0.25% Increase</u>	<u>0.25% Decrease</u>	<u>0.25% Increase</u>	<u>0.25% Decrease</u>
Discount rate	\$ (77,009)	58,321	(118,564)	132,939
Future salary change	\$ 28,147	(48,786)	56,274	(50,329)

The above sensitivity analysis considers the change in one assumption at a time, leaving the other assumptions unchanged. This approach shows the isolated effect of changing one individual assumption but does not take into account that some assumptions are interrelated. The method used to carry out the sensitivity analysis is consistent with the calculation of the net defined benefit liabilities recognized in the balance sheets. The method and assumptions used to carry out the sensitivity analysis is the same as in the prior year.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(ii) Defined contribution plans

The Company and its domestic subsidiaries contribute monthly an amount equal to 6% of each employee's monthly wages to the employee's individual pension fund account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under this defined contribution plan, the Group has no legal or constructive obligation to pay additional amounts after contributing a fixed amount to the Bureau of Labor Insurance. Foreign subsidiaries make contributions in compliance with their respective local regulations.

For the years ended December 31, 2022 and 2021, the Group recognized pension expenses of \$393,144 and \$378,604, respectively, in relation to the defined contribution plans.

(u) Income taxes

- (i) Income tax returns of the Group are filed individually by each entity and not on a combined basis. The Company and its subsidiaries incorporated in the R.O.C. are subject to R.O.C. income tax at a rate of 20% for fiscal years 2022 and 2021. Foreign subsidiaries are subject to income tax in accordance with their respective local tax law and regulations. The components of income tax expense were as follows:

	<u>2022</u>	<u>2021</u>
Current income tax expense		
Current period	\$ 2,024,117	3,709,640
Adjustments for prior years	<u>(3,706)</u>	<u>538,476</u>
	<u>2,020,411</u>	<u>4,248,116</u>
Deferred tax expense		
Origination and reversal of temporary differences	(428,737)	(14,281)
Change in unrecognized deductible temporary differences	<u>678,855</u>	<u>(85,503)</u>
	<u>250,118</u>	<u>(99,784)</u>
Income tax expense	<u>\$ 2,270,529</u>	<u>4,148,332</u>

The components of income tax benefit (expense) recognized in other comprehensive income were as follows:

	<u>2022</u>	<u>2021</u>
Items that will not be reclassified subsequently to profit or loss:		
Remeasurement of defined benefit plans	<u>\$ (34,430)</u>	<u>39,131</u>

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Reconciliation between the expected income tax expense calculated based on the Company's statutory tax rate and the actual income tax expense reported in the consolidated statements of comprehensive income was as follows:

	<u>2022</u>	<u>2021</u>
Income before taxes	\$ <u>7,873,821</u>	<u>15,435,645</u>
Income tax using the Company's statutory tax rate	\$ 1,574,764	3,087,129
Effect of different tax rates in foreign jurisdictions	713,287	1,381,200
Adjustments for prior-year income tax expense	(3,706)	538,476
Change in unrecognized temporary differences and tax losses	678,855	(85,503)
Others	<u>(692,671)</u>	<u>(772,970)</u>
	<u>\$ 2,270,529</u>	<u>4,148,332</u>

(ii) Deferred income tax assets and liabilities

1) Unrecognized deferred income tax assets

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Tax losses	\$ 4,057,145	3,635,014
Loss associated with investments in subsidiaries	2,258,231	2,337,741
Deductible temporary differences	<u>3,387,583</u>	<u>3,774,575</u>
	<u>\$ 9,702,959</u>	<u>9,747,330</u>

The above deferred income tax assets were not recognized as management believed that it is not probable that future taxable profits will be available against which the Group can utilize the benefits therefrom.

Each entity in the Group is entitled to use tax losses to offset future taxable income in accordance with the respective local tax regulations of each jurisdiction. As of December 31, 2022, the tax effects of unused tax losses and the respective expiry years were as follows:

<u>Tax effects of tax losses</u>	<u>Year of expiry</u>
\$ 140,987	2023
195,093	2024
10,604	2025
2,995	2026
<u>3,707,467</u>	2027 and thereafter
<u>\$ 4,057,146</u>	

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

2) Unrecognized deferred income tax liabilities

	December 31, 2022	December 31, 2021
Net profits associated with investments in subsidiaries	\$ 910,775	1,634,001

The Group is able to control the timing of reversal of the temporary differences associated with investments in subsidiaries. As management believed that it is probable that the temporary differences will not reverse in the foreseeable future, such temporary differences were not recognized as deferred income tax liabilities.

3) Recognized deferred income tax assets and liabilities

Changes in the amount of deferred income tax assets and liabilities were as follows:

Deferred income tax assets:

	Inventory	Accrued expenses and provisions	Unused tax loss carryforwards	Others	Total
Balance at January 1, 2022	\$ 166,351	3,253,687	41,074	210,522	3,671,634

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(iii) No income tax expense was recognized directly in equity in 2022 and 2021.

(iv) The Company's income tax returns for the years through 2019 were examined and approved by the R.O.C. income tax authorities.

(v) Capital and other equity

(i) Common stock

As of December 31, 2022 and 2021, the Company had issued 5,664 thousand units and 5,707 thousand units, respectively, of global depository receipts (GDRs). The GDRs were listed on the London Stock Exchange, and each GDR represents five common shares.

As of December 31, 2022 and 2021, the Company's authorized shares of common stock consisted of 4,000,000 thousand shares, of which 3,047,854 thousands shares were issued. The par value of the Company's common stock is \$10 per share. All issued shares were paid up upon issuance.

Certain shares of common stock were not outstanding as they were repurchased by the Company or held by the Company's subsidiaries. The movements in outstanding shares of common stock were as follows (in thousands of shares):

	<u>2022</u>	<u>2021</u>
Balance at January 1 (at December 31)	<u><u>3,001,108</u></u>	<u><u>3,001,108</u></u>

(ii) Capital surplus

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Paid-in capital in excess of par value	\$ 10,094,950	10,086,648
Surplus from mergers	15,797,245	15,797,245
Surplus related to treasury stock transactions and cash dividend	729,273	621,975
Difference between consideration and carrying amount of subsidiaries acquired or disposed	259,646	247,301
Employee share options	90,000	90,000
Surplus from equity-method investments	<u>824,769</u>	<u>671,100</u>
	<u><u>\$ 27,795,883</u></u>	<u><u>27,514,269</u></u>

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Pursuant to the Company Act, any realized capital surplus is initially used to cover accumulated deficit, and the balance, if any, could be transferred to common stock as stock dividends or distributed by cash based on the original shareholding ratio. Realized capital surplus includes the premium derived from the issuance of shares of stock in excess of par value and donations received by the Company. In accordance with the “Regulations Governing the Offering and Issuance of Securities by Securities Issuers”, distribution of stock dividends from capital surplus in any one year shall not exceed 10% of paid-in capital.

(iii) Legal reserve, special reserve, surplus distribution and dividend policy

The Company’s Articles of Incorporation stipulate that at least 10% of annual net income, after deducting accumulated deficit, if any, must be retained as legal reserve until such retention equals the amount of paid-in capital. In addition, a special reserve shall be set aside in accordance with applicable laws and regulations. The remaining balance, together with the unappropriated earnings from the previous years, after retaining a certain portion of it for business considerations, can be distributed as dividends to stockholders. Except for the distribution of capital surplus and legal reserve in accordance with applicable laws and regulations, the Company cannot distribute any earnings when there are no retained earnings. The distributable dividends in whole or in part will be paid in cash by the Company after a resolution has been adopted by a majority vote at a meeting of the Board of Directors attended by two-thirds of the total number of directors; and in addition thereto a report of such distribution shall be submitted to the shareholders’ meeting.

Since the Company operates in an industry experiencing rapid change and development, earnings are distributed in consideration of the current year’s earnings, the overall economic environment, related laws and decrees, and the Company’s long-term development and stability in its financial position. The Company has adopted a stable dividend policy, in which a cash dividend comprises at least 10% of the total dividend distribution.

Additionally, pursuant to the Company Act, if the Company has no accumulated deficit, it may, pursuant to a resolution approved by the stockholders, distribute its legal reserve by issuing new shares or distributing cash for the portion of legal reserve which exceeds 25% of the paid-in capital.

In accordance with the rulings issued by the FSC, a special reserve shall be retained at an amount equal to the proportionate share of the carrying value of the treasury stock held by subsidiaries in excess of the market value at the reporting date. The special reserve may be reversed when the market value recovers in subsequent periods.

In accordance with the rulings issued by the FSC, a special reserve equal to the total amount of items that are accounted for as deductions from stockholders’ equity shall be set aside from the after-tax net profit in the period, plus items other than the after-tax net profit in the period, that are included in the current-period undistributed earnings and prior-period undistributed earnings. This special reserve shall revert to retained earnings and be made available for distribution when the items that are accounted for as deductions from stockholders’ equity are reversed in subsequent periods.

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

On March 16, 2022, the Company's Board of Directors approved the distribution of cash dividends amounting to \$6,949,107 (\$2.28 per share), of which \$107,298 was distributed to the subsidiaries holding the Company's common shares. Additionally, on June 10, 2022, the Company's shareholders approved an appropriation of legal reserve and special reserve of \$1,058,914 and \$2,564,442, respectively.

On March 16, 2023, the Company's Board of Directors approved the distribution of cash dividends amounting to \$4,571,781 (\$1.5 per share), of which \$70,119 was distributed to the subsidiaries holding the Company's common shares.

On March 17, 2021, the Company's Board of Directors had approved the distribution of cash dividends amounting to \$4,571,781 (\$1.5 per share), of which \$70,119 was distributed to the subsidiaries holding the Company's common shares. Additionally, on July 9, 2021, the Company's shareholders approved an appropriation of legal reserve and special reserve of \$602,575 and \$857,485, respectively.

Related information is available on the Market Observation Post System website of the Taiwan Stock Exchange.

(iv) Treasury stock

As of December 31, 2022 and 2021, details of the GDRs (for the implementation of an overseas employee stock option plan) held by subsidiary ASCBVI and the Company's common stock held by subsidiaries ASCBVI (to maintain the Company's shareholders' equity), CCI (to maintain the Company's shareholders' equity), and AGT (resulting from the acquisition of AGT) were as follows (expressed in thousands of shares):

	December 31, 2022		
	Number of shares	Carrying amount	Market value
Common stock	21,809	\$ 945,239	513,602
GDRs	24,937	1,969,617	536,042
	46,746	\$ 2,914,856	1,049,644

(Continued)

GDRs	24,937	1,969,617	704,324
	46,746	\$ 2,914,856	1,368,408

According to the Securities and Exchange Act, treasury stock cannot be collateralized. In addition, treasury shares do not bear shareholder rights prior to being sold to third parties. Moreover, the number of treasury shares shall not exceed 10% of the number of common shares issued. The total amount of treasury stock shall not exceed the sum of retained earnings, paid-in capital in excess of par value, and other realized capital surplus.

(w) Share-based payment

The Group's share-based payment arrangements in 2022 and 2021 were as follows:

(i) Restricted stock

Grant date	111.03.25
Number of shares granted (in thousands)	241
Vesting conditions	1~3 years of service subsequent to grant date
Qualified employees	Shares granted to qualified full-time employees of ACSI

ACSI's shareholders in an extraordinary meeting held on December 23, 2021 approved the issuance of 300 thousand shares of restricted stocks to qualified full-time employees. ACSI had filed an effective registration with the Securities and Futures Bureau of the FSC for the issuance of the stocks. As of December 31, 2022, ACSI issued 241 thousand shares of restricted stocks to entitled qualified employees who can purchase the shares at the exercise price of \$0. The restricted stocks have the vesting periods of 1, 2 and 3 years subsequent to the grant date, and shall be vested based on each employee's performance. During the vesting period, the restricted stock could not be sold, pledged, transferred, gifted, or disposed, in any other forms, except for inheritance; nevertheless, the shareholders' rights (such as attendance, proposing, speaking, voting and electing at the shareholders' meeting) are the same as those of the Company's outstanding shares but are executed by a custodian who will act based on the law and regulations. Employees holding restricted stocks may participate in stock dividends even when the vesting conditions are still yet to be met. For those employees who failed to meet the vesting conditions, ACSI shall recall those shares and retire them thereafter.

The fair value of the restricted stocks at the grant date was \$117.5 per share, which was determined by reference to the closing price of the Company's common stock traded on the Taiwan Stock Exchange at the grant date.

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(ii) Issuance of new shares reserved for employee subscription

Issuer	Grant Date	Numbers of options granted (in thousands of shares)	Contract period
WLII	2021/3/17	1,174	2021/03/17~ 2021/03/19
AST	2022/02/22	1,045.5	2022/02/23~2022/03/02
ACSI	2022/05/20	222	2022/05/20~2022/06/23
AEB	2022/08/02	750	2022/08/02
AGM	2022/03/16	2,250	2022/03/16~2022/04/22
AGT	2022/05/17	4,500	2022/05/17~ 2022/06/17
MPS	2022/11/04	600	2022/11/12~ 2022/11/28
AMED	2022/08/01	5	2022/11/24~ 2022/12/26
PAM	2022/10/19	893,100	2022/10/19~ 2022/10/24

The abovementioned issuance of new shares by cash reserved for employee subscription granted were vested immediately.

The Group used the Black-Scholes Model in measuring the fair value of its employee stock options. The main inputs to the valuation model were as follows:

	WLII	AST	ACSI	AEB	AGM	AGT
Fair value of options granted (NT\$/ share)	1.6	0	13	10.3	0.07	0.003449
Fair value of stock at grant date (NT\$/ share)	26.63	33.34	109	120.3	16.15	13.66
Exercise price (NT\$/ share)	25	45.00	96	110	18	18
Expected volatility (%)	21.08%	27.0986%	28.33%	24.17%	27.01%	37.77%
Expected life (in years)	0.0082	0.0137	0.0931	0.002	0.1	0.085
Risk-free interest rate (%)	0.35%	0.2904%	0.63%	0.65%	0.26%	0.7260%
	MPS	AMED	PAM			
Fair value of options granted (NT\$/ share)	0.008224	6.26	0			
Fair value of stock at grant date (NT\$/ share)	9.84	68	32.24			
Exercise price (NT\$/ share)	11	62	43			
Expected volatility (%)	28.8889%	23.82%	33.84%			
Expected life (in years)	0.0438	0.0904	0.016			
Risk-free interest rate (%)	1.0724%	0.95%	1.325%			

Expected volatility was determined based on the vesting period and historical volatility of the comparable companies. The risk-free interest rate was determined based on government bonds.

(iii) For the years ended December 31, 2022 and 2021, the compensation cost recognized for the abovementioned share-based payment arrangements amounted to \$20,757 and \$1,704, respectively, which was reported in the operating expenses.

Please refer to note 6(c) for details on notes and accounts receivable and related loss allowance.

The major changes in the balance of contract assets and contract liabilities were due to the timing difference between the satisfaction of performance obligation and the receipt of customer's payment.

The amount of revenue recognized in 2022 and 2021 that was included in the contract liability balance at January 1, 2022 and 2021, was \$1,257,234 and \$1,160,024, respectively.

(z) Remuneration to employees and directors

The Company's Articles of Incorporation require that annual earning shall first be offset against any deficit, then, a minimum of 4% shall be allocated as employee remuneration and a maximum of 0.8% be allocated as directors' remuneration. Employees who are entitled to receive the abovementioned employee remuneration, in share or cash, include the employees of subsidiaries of the Company who meet certain specific requirements.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

For the years ended December 31, 2022 and 2021, the Company accrued its remuneration to employees amounting to \$475,000 and \$720,000, respectively, and the remuneration for directors of \$18,800 and \$29,819, respectively. The said amounts, which were recognized as operating expenses, were calculated based on pre-tax net profit for each year before deducting the amount of the remuneration to employees and directors, multiplied by the proposed distribution ratio of remuneration to employees and directors.

Except that the remuneration to directors for 2022 resolved by the Company's Board of Directors on March 16, 2023 was \$7,000 and that for 2021 resolved by the Company's Board of Directors on March 16, 2022 was \$12,000, the aforementioned accrued remunerations to employees were the same as the amounts resolved by the Board of Directors, which were all paid in cash. The difference between accrual and actual payment, amounting to \$11,800 and \$17,819 for 2022 and 2021, respectively, is treated as change in accounting estimate and recognized in profit or loss in the following year.

	<u>December 31,</u> <u>2022</u>	<u>December 31,</u> <u>2021</u>
Financial liabilities measured at fair value through profit or loss	\$ 1,020,257	294,983
Financial liabilities measured at amortized cost:		
Short-term borrowings	1,652,086	1,253,590
Notes and accounts payable	31,549,698	57,897,697
Other payables	35,449,182	37,249,145
Lease liabilities (including current and non-current)	2,109,049	1,851,277
Bonds payable	10,000,000	10,000,000
Long-term debt (including current portion)	<u>162,493</u>	<u>119,926</u>
	<u>\$ 81,942,765</u>	<u>108,666,618</u>

(ii) Fair value information

1) Financial instruments not measured at fair value

The Group considers that the carrying amounts of financial assets and financial liabilities measured at amortized cost approximate their fair values.

2) Financial instruments measured at fair value

The following financial instruments are measured at fair value on a recurring basis.

The table below analyzes the financial instruments measured at fair value subsequent to initial recognition, grouped into Levels 1 to 3 based on the degree to which the fair value is observable. The different levels have been defined as follows:

- a) Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- b) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- c) Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Notes to the Consolidated Financial Statements

3) Movement in financial assets included in Level 3 fair value hierarchy

	<u>2022</u>		<u>2021</u>	
	Financial liabilities measured at fair value through profit or loss	Financial assets measured at fair value through other comprehensive income	Financial liabilities measured at fair value through profit or loss	Financial assets measured at fair value through other comprehensive income
Balance at January 1	\$ (35,758)	741,845	-	1,111,551
Total gains or losses:				
Recognized in profit and loss	(3,125)	-	-	-
Recognized in other comprehensive income	-	(12,565)	-	(295,230)
Additions	(9,700)	165,449	(35,758)	42,305
Disposals	37,534	(41,535)	-	(99,122)
Effect of exchange rate changes	-	37,014	-	(17,659)
Balance at December 31	<u>\$ (11,049)</u>	<u>890,208</u>	<u>(35,758)</u>	<u>741,845</u>

The abovementioned total gains or losses were included in “other gains and losses” and “unrealized gain (loss) from financial assets measured at fair value through other comprehensive income”, respectively. The gains or losses attributable to the financial assets held on December 31, 2022 and 2021 were as follows:

	<u>2022</u>	<u>2021</u>
Total gains or losses:		
Recognized in profit and loss (included in “other gains and losses”)	\$ (3,125)	-
Recognized in other comprehensive income (included in “unrealized gain (loss) from financial assets measured at fair value through other comprehensive income”)	(12,565)	(3,193)
	<u>\$ (15,690)</u>	<u>(3,193)</u>

4) Valuation techniques and inputs used for financial instruments measured at fair value

- a) The fair values of financial assets with standard terms and conditions and traded on active markets are determined with reference to quoted market prices (e.g., listed stocks).
- b) The fair value of derivative financial instruments is determined using a valuation technique, with estimates and assumptions consistent with those used by market participants that are readily available to the Group. The fair value of foreign currency forward contracts and foreign currency option contracts is computed individually by each contract using the valuation technique.
- c) The fair value of unlisted stocks in Level 3 fair value hierarchy is estimated by using the market approach and is determined by reference to recent financing activities, valuations of similar companies, market conditions, and other economic indicators. The fair value of financial liabilities measured at fair value through

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

profit or loss (contingent consideration arising from business combinations) is determined based on the discounted cash flow model.

5) Quantitative information of significant unobservable inputs

Item	Valuation technique	Significant unobservable inputs	Interrelationship between significant unobservable inputs and fair value measurement
Financial assets measured at fair value through other comprehensive income	Comparable company valuation	Discount for lack of marketability (10%~30%)	The estimated fair value would decrease if the discount for lack of marketability was higher
Financial liabilities measured at fair value through profit or loss - Contingent consideration arising from business combinations	Discounted cash flow model	Discount rate (10.10% at December 31, 2022 and 2021)	The estimated fair value would increase if the discount rate was lower

6) Fair value measurements in Level 3— sensitivity analysis of reasonably possible alternative assumptions

The Group's measurement on the fair value of financial instruments may change if different valuation models or inputs are used. For fair value measurements in Level 3, changing one or more of the assumptions would have the following effects on other comprehensive income:

	Input	Change in assumptions	Net income or loss for current period		Other comprehensive income	
			Favorable	Unfavorable	Favorable	Unfavorable
December 31, 2022						
Financial assets measured at fair value through other comprehensive income:						
Equity investments without an active market	Discount for lack of marketability	1%	-	-	\$ 9,505	(9,505)
Financial liabilities measured at fair value through profit or loss:						
Contingent consideration arising from business combinations	Discount rate	0.5%	1	1	-	-
December 31, 2021						
Financial assets measured at fair value through other comprehensive income:						
Equity investments without an active market	Discount for lack of marketability	1%	-	-	4,316	(4,316)
Financial liabilities measured at fair value through profit or loss:						
Contingent consideration arising from business combinations	Discount rate	0.5%	28	83	-	-

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The favorable and unfavorable effects represent the changes in fair value, which is based on a variety of unobservable inputs calculated using a valuation technique. If the fair value of a financial instrument is subject to more than one inputs, the analysis above reflects only the effects of changes in a single input and does not include the interrelationship with another inputs.

(iii) Offsetting of financial assets and financial liabilities

The Group has financial instrument transactions which are set off in accordance with paragraph 42 of IAS 32; the related financial assets and liabilities are presented in the balance sheets on a net basis.

The table below summarizes the related information of offsetting of financial assets and liabilities:

December 31, 2022						
Financial assets subject to offsetting, enforceable master netting arrangements or similar agreements

(ad) Financial risk management

The Group is exposed to credit risk, liquidity risk, and market risk (including currency risk, interest rate risk, and other market price risk). The Group has disclosed the information on exposure to the aforementioned risks and the Group's policies and procedures to measure and manage those risks as well as the quantitative information below.

The Board of Directors are responsible for developing and monitoring the Group's risk management policies. The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor adherence to the controls. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's operations.

The Group's management monitors and reviews the financial activities in accordance with procedures required by relevant regulations and internal controls. Internal auditors undertake reviews of risk management controls and procedures, and the results of which are reported to the Board of Directors on a regular basis.

(i) Credit risk

1) The maximum exposure to credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty of a financial instrument fails to meet its contractual obligations, and arises principally from the Group's cash and cash equivalents, derivative instruments, receivables from customers, other receivables and time deposit. The maximum exposure to credit risk is equal to the carrying amount of the Group's financial assets.

2) Concentration of credit risk

The Group primarily sells and markets its multi-branded IT products through distributors in different geographic areas. The Group believes that there is no significant concentration of credit risk due to the Group's large number of customers and their wide geographical spread.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

3) Credit risk from receivables

Please refer to note 6(e) for credit risk exposure of notes and accounts receivable.

Other financial assets measured at amortized cost include other receivables and time deposits (classified as other financial assets). Abovementioned financial assets are considered low-credit-risk financial assets, and thus, the loss allowance is measured using 12-months ECL. Please refer to note 4(g) for descriptions about how the Group determines the credit risk. As of December 31, 2022 and 2021, except for other receivables amounting to \$40,141 and \$40,291, respectively, for which the loss allowance was fully provided, no loss allowance was provided for the remaining receivables after management's assessment.

(ii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in settling its financial liabilities by delivering cash or another financial assets. The Group manages liquidity risk by monitoring regularly the current and mid- to long-term cash demand, maintaining adequate cash and banking facilities, and ensuring compliance with the terms of the loan agreements. As of December 31, 2022 and 2021, the Group had unused credit facilities of \$44,386,478 and \$40,860,741, respectively.

The table below summarizes the maturity profile of the Group's financial liabilities based on contractual undiscounted payments, including principal and estimated interest.

	<u>Contractual cash flows</u>	<u>Within 1 year</u>	<u>1-2 years</u>	<u>2-5 years</u>	<u>Over 5 years</u>

	<u>\$ (310,428)</u>	<u>(310,428)</u>	<u>-</u>	<u>-</u>	<u>-</u>

The Group does not expect that the cash flows included in the maturity analysis would occur significantly earlier or at significantly different amounts.

(iii) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices, and will affect the Group's income or the value of its financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Group utilizes derivative financial instruments to manage market risk and the volatility of profit or loss. All such transactions are carried out within the guidelines set by the Board of Directors.

1) Foreign currency risk

The Group is exposed to foreign currency risk on sales and purchases that are denominated in a currency other than the respective functional currencies of the Group entities. The foreign currencies used in these transactions are mainly the Euro (EUR), US dollar (USD), Indian Rupee (INR), Polish Zloty (PLN), Australian dollar (AUD), Russian Ruble (RUB), Great British Pound (GBP), etc.

The Group utilizes foreign currency forward contracts to hedge its foreign currency exposure with respect to its forecast sales and purchases over the following 12 months.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

a) Exposure to foreign currency risk and sensitivity analysis

The Group's exposure to foreign currency risk arises from cash and cash equivalents, notes and accounts receivable/payable (including related parties), and other receivables/payables (including related parties) that are denominated in foreign currencies. At the reporting date, the carrying amounts of the Group's significant monetary assets and liabilities denominated in a currency other than the respective functional currencies of the Group entities and their sensitivity analysis were as follows (including the monetary items that have been eliminated in the accompanying consolidated financial statements):

(in thousands)

December 31, 2022

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

With varieties of functional currencies within the consolidated entities of the Group, the Group disclosed net realized and unrealized foreign exchange gain (loss) on monetary items in aggregate. Please refer to note 6(ab) for further information.

2) Interest rate risk

The Group's short-term borrowings and long-term debt carry floating interest rates, and the Group has not entered into interest rate swap contracts to convert floating interest rates to fixed interest rates. To manage the interest rate risk, the Group periodically assesses the interest rates of bank loans and maintains good relationships with financial institutions to obtain lower financing costs. The Group also strengthens the management of working capital to reduce the dependence on bank loans as well as the risk arising from fluctuation of interest rates.

The following sensitivity analysis is based on the risk exposure to floating-interest-rate liabilities on the reporting date. The sensitivity analysis assumes the liabilities recorded at the reporting date had been outstanding for the entire period. The change in interest rate reported to the key management in the Group is based on 100 basis points (1%), which is consistent with the assessment made by the key management in respect of the possible change in interest rate.

If the interest rate had been 100 basis points (1%) higher/lower with all other variables held constant, pre-tax income for the years ended December 31, 2022 and 2021 would have been \$18,146 and \$13,735, respectively, lower/higher, which mainly resulted from the borrowings with floating interest rates.

3) Other market price risk

The Group is exposed to the risk of price fluctuation in securities resulting from its investment in publicly traded stocks. The Group supervises the equity price risk actively and manages the risk based on fair value. The Group also has strategic investments in privately held stocks, in which the Group does not actively participate in their trading.

Assuming a hypothetical increase or decrease of 5% in equity prices of the equity investments at each reporting date, the other comprehensive income for the years ended December 31, 2022 and 2021, would have increased or decreased by \$380,198 and \$390,335, respectively.

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(ae) Capital management

In consideration of the industry dynamics and future developments, as well as external environment factors, the Group maintains an optimal capital structure to enhance long-term shareholder value by managing its capital in a manner to ensure that it has sufficient and necessary financial resources to fund its working capital needs, research and development activities, dividend payments, and other business requirements for continuing operations and to reward shareholders and take into consideration the interests of other stakeholders.

(af) Investing and financing activities not affecting cash flows

(i) Please refer to note 6(j) for a description of acquisition of right-of-use assets through leases in 2022 and 2021.

(ii) The reconciliation of liabilities arising from financing activities were as follows:

	January 1, 2022	Cash flows	Non-cash changes			December 31, 2022
			Movement of leases	Business merger	Fluctuation of foreign exchange rate	
Long-term debt	\$ 119,926	37,794	-	-	4,773	162,493

7. Related-party transactions

(a) Related party name and categories

The followings are related parties that have had transactions with the Group during the reporting periods:

<u>Name of related party</u>	<u>Relationship with the Group</u>
Aegis Semiconductor Technology Inc.	Associates, liquidated on August 26th, 2021
GrandPad Inc.	Associates
Piovision International Inc.	Associates
ECOM Software Inc.	Associates
Kbest Technology Inc.	Associates
Shine Passion Engineering Co., Ltd	Associates
Meldex Pty Ltd. (MPL)	Associates, before August 30, 2021 (note)
Meldex USA Inc.(MPLA)	Associates, before August 30, 2021 (note)
Apex Material Technology Corp.	Associates
Antung Trading Corporation	Associates
Angel Filtration Products Corp.	Associates
Datasitter Information Service Inc.	Associates
Smart Frequency Technology Inc.	Joint venture
Other Related Parties:	
Acer Foundation	Substantive related party
Satoro Taiwan Inc.	The entity's chairman is the Company's director
AiSails Power Inc.	The entity's chairman is the Company's director (On December 14, 2022, the chairman of AiSails Power Inc. resigned, AiSails Power Inc. was no longer a related party of the Group since then.)
Eric's Sports Marketing Inc.	The entity's chairman is the first-degree relatives of the Company's director
Mu-Jin Investment Co., Ltd	The entity's director is the Company's chairman
Mu-Shi Investment Co., Ltd	The entity's director is the Company's chairman
Yuan Kuo Hospital	The person in charge is the second-degree relative of the chairman of the company
Chen Junhong Pediatric Clinic	The person in charge is the second-degree relative of the chairman of the company

Note:AOI donated partial of its ownership interest in MPL, formerly an investment accounted for using the equity method, to Acer Foundation on August 30, 2021. Consequently, AOI's ownership interest in MPL decreased from 27.21% to 17.21% and lost significant influence over it. Therefore, MPL and MPLA were no longer related parties of the Group from the date of donation.

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(b) Significant related-party transactions

(i) Revenue

The amounts of significant sales to related parties were as follows:

	<u>2022</u>	<u>2021</u>
Associates	\$ 66,499	137,848
Joint venture	31	96
Other related parties	<u>4,918</u>	<u>229</u>
	<u>\$ 71,448</u>	<u>138,173</u>

The sales prices with related parties are not comparable to those with third-party customers due to different product specifications. The credit terms ranged from 30 to 120 days, which were not significantly different from those with third-party customers. Receivables from related parties were uncollateralized.

(ii) Purchases

The amounts of significant purchases from related parties were as follows:

	<u>2022</u>	<u>2021</u>
Associates	<u>\$ 30,682</u>	<u>2,693</u>

The purchase price with related parties are not comparable to the purchase price with third-party vendors as the specifications of products are different.

(iii) Operating expenses and other losses

The operating expenses and other gains and losses related to the system maintenance service provided by related parties and the donation to related parties were as follows:

<u>Account</u>	<u>Related-party categories</u>	<u>2022</u>	<u>2021</u>
Operating expense	Associates	\$ 1,745	1,745
Operating expense	Other related parties	13,835	-
Other gains and losses	Other related parties	<u>-</u>	<u>11,911</u>
		<u>\$ 15,580</u>	<u>13,656</u>

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(iv) Lease

The Group leased its investment property and office premises to related parties. The related rental income was reported in “other operating income and expenses—net” and was summarized as follows:

	<u>2022</u>	<u>2021</u>
Associates	\$ 212	2,623
Joint venture	211	2,584
Other related parties	<u>127</u>	<u>83</u>
	<u>\$ 550</u>	<u>5,290</u>

(v) Service income

The service income related to the management consulting service provided to related parties was included in “other gains and losses” and was summarized as follows:

	<u>2022</u>	<u>2021</u>
Associates	\$ 48	48
Joint venture	3,634	3,223
Other related parties	<u>123</u>	<u>165</u>
	<u>\$ 3,805</u>	<u>3,436</u>

(vi) Receivables from related parties

The receivables from related parties were as follows:

<u>Account</u>	<u>Related-party categories</u>	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Accounts receivable	Associates	\$ 39,308	1,221
Accounts receivable	Joint venture	-	92
Accounts receivable	Other related parties	2,513	16
Other receivables	Associates	-	10
Other receivables	Joint venture	667	294
Other receivables	Other related parties	<u>129</u>	<u>173</u>
		<u>\$ 42,617</u>	<u>1,806</u>

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(vii) Payables to related parties

The payables to related parties were as follows:

<u>Account</u>	<u>Related party categories</u>	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Accounts payable	Associates	\$ 32,138	89
Other payables	Other related parties	15,031	12,500
		<u>\$ 47,169</u>	<u>12,589</u>

(c) Compensation for key management personnel

	<u>2022</u>	<u>2021</u>
Short-term employee benefits	\$ 367,745	520,153
Post-employment benefits	9,465	8,459
	<u>\$ 377,210</u>	<u>528,612</u>

8. Pledged assets

The carrying values of pledged assets were as follows:

<u>Assets</u>	<u>Pledged to secure</u>	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Cash in bank, time deposits and refundable deposits (reported under other current assets and other financial assets — non-current)	Contract bidding, security for letters of credit, project fulfillment, import tariffs, lease guarantee, etc.	\$ 1,098,490	1,126,674
Land, house and buildings	Bank loans	120,791	-
Bluechip's assets	Short-term and long-term loans	1,548,616	824,536
		<u>\$ 2,767,897</u>	<u>1,951,210</u>

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

9. Significant commitments and contingencies

- (a) The Company has entered into software and royalty license agreements with Microsoft, IBM, and other companies. The Company has fulfilled its obligations according to the contracts.
- (b) An American company has filed a lawsuit against Acer for violating confidential agreement and trade secret. The Group had appointed outside counsel to handle the case. Acer won the summary motion to dismiss but the plaintiff filed appeal. The appellate procedure is still under review. However, the management foresees no immediate material adverse effect on the Group's business operations and finance.
- (c) In the regular course of its business, the Group received letter of notice from third parties asserting that the Company has infringed certain patents and demanded that it should obtain certain patent licenses. Although the Group does not expect that the outcome of any of these legal proceedings (individually or collectively) will have a material adverse effect on its business operations and finance, the litigation is inherently unpredictable. Therefore, the Group may be involved in a future lawsuit or enter into settlements of claims that could adversely affect its operating results or cash flows within a particular period.
- (d) The Group faces various taxation challenges globally due to the rapid changes in the international taxation law, wherein the Group held different positions with various local tax authorities for certain tax audits and has provided the accruals for the cases (including, but not limited to, income taxes, withholding taxes and business taxes) that met the criteria for recognizing a provision. Nevertheless, the tax disputes are inherently complicated and may take years to be settled, in which the ultimate result is unpredictable and could adversely affect the Group's business operation results or cash flows in a particular period.
- (e) As of December 31, 2022, there were no outstanding stand-by letters of credit issued for bidding or contracts. As of December 31, 2021, the Company had outstanding stand-by letters of credit provided by the banks totaling \$6,720 for purposes of bids and contracts.
- (f) As of December 31, 2022 and 2021, the Group had issued promissory notes amounting to \$43,240,746 and \$40,314,183, respectively, as collateral for obtaining credit facilities from financial institutions.

10. Significant loss from disaster: None

11. Significant subsequent events: None

12. Others

- (a) A summary of current-period employee benefits, depreciation, and amortization, by function, is as follows:

	2022			2021		
	Cost of revenue	Operating expenses	Total	Cost of revenue	Operating expenses	Total
Employee benefits:						
Salaries	1,292,013	10,165,059	11,457,072	1,276,896	10,911,880	12,188,776
Insurance	190,648	1,068,725	1,259,373	188,775	1,042,580	1,231,355
Pension	39,850	553,308	593,158	34,213	537,754	571,967
Others	111,631	829,609	941,240	109,360	799,820	909,180
Depreciation	311,870	704,780	1,016,650	188,272	834,288	1,022,560
Amortization	581,962	92,086	674,048	428,323	64,347	492,670

13. Additional disclosures

- (a) Information on significant transactions:
- (i) Financing provided to other parties: See Table 1 attached;
 - (ii) Guarantees and endorsements provided to other parties: See Table 2 attached;
 - (iii) Marketable securities held at reporting date (excluding investments in subsidiaries, associates, and jointly controlled entities): See Table 3 attached;
 - (iv) Marketable securities for which the accumulated purchase or sale amounts for the period exceed \$300 million or 20% of the paid-in capital: See Table 4 attached;
 - (v) Acquisition of real estate at costs which exceeds \$300 million or 20% of the paid-in capital: None;
 - (vi) Disposal of real estate at prices which exceeds \$300 million or 20% of the paid-in capital: None;
 - (vii) Total purchases from and sales to related parties which exceed \$100 million or 20% of the paid-in capital: See Table 5 attached;
 - (viii) Receivables from related parties which exceed \$100 million or 20% of the paid-in capital: See Table 6 attached;
 - (ix) Information about derivative instruments transactions: See notes 6(b);
 - (x) Business relationships and significant intercompany transactions: See Table 7 attached;
- (b) Information on investees: See Table 8 attached;

(Continued)

ACER INCORPORATED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(c) Information on investment in Mainland China:

- (i) The names of investees in Mainland China, the main businesses and products, paid-in capital, method of investment, information on inflow or outflow of capital, percentage of ownership, income (losses) of the investees, share of profits (losses) of investees, ending balance, amount received as earnings distributions from the investment, and limitation on investment: See Table 9 attached;
- (ii) Significant direct or indirect transactions with investee companies, the prices and terms of payment, unrealized gain or loss, and other related information which is helpful to understand the impact of investment in Mainland China on financial reports: For the Group's significant direct or indirect transactions (eliminated when compiling the consolidated financial statements) with investee companies in Mainland China for the year ended December 31, 2022, please refer to "Information on significant transactions" and "Business relationships and significant intercompany transactions" above.

(d) Major shareholders:

According to the information provided by Taiwan Depository & Clearing Corporation, none of the shareholders hold over 5% of the Company's stocks.

14. Segment information

(a) General information

The Group's reportable segments comprise the device business group ("IT Hardware Products") and other business groups. The IT Hardware Products engages mainly in the research, design, and marketing of personal computers, IT products, and tablet products. Other business groups, which do not meet the quantitative reporting threshold, mainly engage in the activities of e-commerce, cloud services, sales and distribution of smart devices, distributors and agency, new energy devices, and handheld devices, as well as real estate services.

Strategic investment expenditures (such as global branding expenditures, depreciation of the capital expenditures for the strengthening of the global information structure, and non-routine long-term strategic expenditures) are not allocated to reportable segments. Operating profit is used as the measurement for segment profit and the basis for performance evaluation. The reporting amount is consistent with the report used by the chief operating decision maker. There was no material inconsistency between the accounting policies adopted for the operating segments and the significant accounting policies of the Group.

Note 1: Nature of Financing:

Type 2: Short-term financing purpose

Note 2: 1. The aggregate financing amount shall not exceed 50% of net worth of the Company, within which the short-term financing amount shall not exceed 20% of net worth of the Company.

1-1. For an entity which the Company owns less than 50% of its outstanding common shares, the individual financing amounts shall not exceed lower of 5% of net worth of the Company and 40% of net worth of the entity.

1-2. For an entity which the Company owns more than 50% of its outstanding common shares, the individual financing amounts shall not exceed 10% of net worth of the Company.

1-3. When a subsidiary who provides financing to other parties is directly or indirectly wholly owned by the Company, the aforementioned limit of aggregate amount and individual financing amount is applied.

2. For AIZS, the aggregate financing amount shall not exceed 120% of net worth of AIZS.

3. The financing limits of GWI and AAH were as follows:

3-1. The individual financing amounts shall not exceed higher of 20% of net worth of the entity or 50% of net worth of the ultimate parent company.

3-2. For an entity which the ultimate parent company wholly owns directly or indirectly, the individual financing amounts shall not exceed 120% of net worth of the entity.

4. The financing limits of APDI, ABH, CCI, ADSC, API and EDC were as follows:

4-1. The aggregate financing amount shall not exceed 40% of net worth of the entities listed above.

4-2. The individual financing amounts to the ultimate parent company shall not exceed 40% of net worth of the entities listed above.

5. For an entity which the financing company owns more than 50% of its outstanding common shares or is fellow subsidiary of the same group, the individual financing amounts of ABH and ADSC shall not exceed 10% of net worth of ABH and ADSC.

6. The financing limit of ASDI was as follows:

6-1. The aggregate financing amount shall not exceed 40% of net worth of ASDI.

6-2. The individual financing amounts to the ultimate parent company and its related parties shall not exceed 40% of net worth of ASDI.

7. Both of the aggregate financing amount and the individual financing amounts of Bluechip shall not exceed 20% of net worth of Bluechip.

8. The financing limits of AST, AGT, MPS, WLII, PGL and PAL were as follows:

8-1. The aggregate financing amount shall not exceed 40% of net worth of the entities listed above.

8-2. The individual financing amounts shall not exceed 10% of net worth of the entities listed above.

8-3. Regarding the financing provided by AST to ASTA, since the financing contract with a financing limit of \$30,000 will expire in January 2023, AST's Board of Directors approved the financing of \$60,000 to ASTA due to its operating requirements.

However, because of the early meeting of the Board of Directors, the ending balance of the financing provided by AST to ASTA was repetitively calculated.

9. The financing limit of AEG was as follows:

8-1. The aggregate financing amount shall not exceed 100% of net worth of the entities listed above.

8-2. The individual financing amounts shall not exceed 50% of net worth of the entities listed above.

10. For the financing limit of WKHK, both of the aggregate financing amount and the individual financing amounts shall not exceed 100% of its net worth.

Note 3: PGL was liquidated during 2022.

Note 4: Net worth of the Company and subsidiaries listed above are the most recent audited.

Note 5: The above transactions are eliminated when preparing the consolidated financial statements.

Note 1: Method of Investment:

Type 1: Direct investment in Mainland China.

Type 2: Indirect investment in Mainland China through a holding company established in other countries.

Note 2: Acer Intellectual (Chongqing) Limited had merged with Acer (Chongqing) Ltd. in 2014, and Acer (Chongqing) Ltd. was the surviving entity from the merger. This amount included the original investment in

Acer Intellectual (Chongqing) Limited of \$122,832 (US\$ 4,000 thousand).

Note 3: Innovation and Commercialization Accelerator Inc. and Consumer Insights Research (Chongqing) Inc. were reinvested by Acer Cloud Technology(Chongqing) Ltd.

Note 4: Acer China Venture Partnership was invested by the Company and Acer China Venture Corp of \$60,533 and \$4,324, respectively.

Investor Company Name	Accumulated Investment in Mainland China as of December 31, 2022 (Note 5)(Note 6)(Note 7)(Note 8)	Investment Amounts Authorized by Investment Commission, MOEA (Note 5)(Note 6)(Note 7)(Note 8)	Upper Limit on Investment Authorized by Investment Commission, MOEA
The Company and Subsidiaries	\$5,791,757 (US\$188,607,415)	\$7,893,171 (US\$257,039,530.8)	(Note)

Note 5: In September, 2008, AOI had disposed all shares of JNS Technology Co., Ltd., and the proceeds from the disposal of US\$ 730,000 had been remitted to AOI in March 2010.

AOI has not yet to report to MOEA, therefore, the amount of US\$ 1,645,200 was still included the original investment in JNS Technology Co., Ltd.

Note 6: T-Conn Precision(Zhongshan) Co., Ltd., indirectly invested by AOI, had been dissolved and the related liquidation process has been completed. The liquidation proceeds of US\$ 31,549.06 (according to ownership percentage of 19%) has been remitted to Super Elite Ltd., a holding company established in other countries. On March 12, 2010, AOI has obtained MOEA's approval to withdraw its investment. However, the amount of accumulated investment in Mainland China still included the amount of US\$ 57,000 due to the liquidation of capital which has yet to be remitted to Taiwan.

Note 7: As a result of the acquisition of WKC, AGM indirectly acquired its investment of WKSH located in Mainland China, and meanwhile accumulated the investments in Mainland China amounting to US\$16,033,042.

Note 8: AGM made indirect investment in Mainland China through a holding company (WKC) established in other countries.

The above amounts were translated into New Taiwan dollars at the exchange rate of US\$1=NT\$30.708 as of December 31, 2022.

Note: Since the Company has obtained the Certificate of Headquarter Operation, there is no upper limitation on investment in Mainland China.

Independent Auditors' Report

To the Board of Directors
Acer Incorporated:

Opinion

We have audited the parent-company-only financial statements of Acer Incorporated (the "Company"), which comprise the parent-company-only balance sheets as of December 31, 2022 and 2021, and the parent-company-only statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the parent-company-only financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying parent-company-only financial statements present fairly, in all material respects, the parent-company-only financial position of the Company as of December 31, 2022 and 2021, and its parent-company-only financial performance and its parent-company-only cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirement. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent-company-only financial statements of the current period. These matters were addressed in the context of our audit of the parent-company-only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters for the Company's parent-company-only financial statements for the year ended December 31, 2022 are stated as follows:

1. Revenue recognition

Refer to Note 4(p) for the accounting policies on recognizing revenue, and Note 5(a) for uncertainty of accounting estimations and assumptions for sales returns and allowances, respectively, to the parent-company-only financial statements.

Description of key audit matter:

The Company engaged primarily in the sale of brand-name IT products. Revenue is recognized depending on the various trade terms agreed with customers. This exposes the Company to the risk that the sales transactions made close to the balance sheet date are not recorded in the appropriate period. Furthermore, the accrual of sales allowances and returns based on business practice is subject to management's judgment, which involves significant uncertainty. Consequently, the revenue recognition and accrual of sales allowances and returns have been identified as one of the key audit matters.

How the matter was addressed in our audit:

In relation to the key audit matters above, we have performed certain audit procedures including, among others, testing the design and operating effectiveness of the Company's internal controls over the timing of revenue recognition; performing a sample test of sales transactions taking place before and after the balance sheet date to ensure that revenue was recognized in the appropriate period; assessing the methodology used by management in estimating sales allowances and returns, including the reasonableness of key assumptions; and inspecting the historical payments of sales allowances and returns to evaluate the reasonableness of the sales allowances and returns estimated by management.

2. Valuation of inventories

Refer to Note 4(g) for the accounting policies on inventory valuation, Note 5(b) for uncertainty of accounting estimations and assumptions for inventory valuation and Note 6(g) for the details of the write-down of inventories, respectively, to the parent-company-only financial statements.

Description of key audit matter:

Inventories are measured at the lower of cost and net realizable value. Due to the rapid innovation of the information technology products and fierce market competition, the Company's product price may fluctuate rapidly. Furthermore, the stocks for products and key components may exceed customers' demands thus becoming obsolete. These factors expose the Company to significant level of uncertainty particularly in the area of estimating net realizable value, which is subject to management's judgments. Therefore, the valuation of inventories has been identified as one of the key audit matters.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain audit procedures including, among others, evaluating whether valuation of inventories was accounted for in accordance with the Company's accounting policies; obtaining the inventory aging report, analyzing the fluctuation of inventory aging and selecting samples to verify the accuracy of inventory aging classification; and testing the net realizable value of inventories to evaluate the reasonableness of inventory provisions.

3. Impairment of goodwill from investment in subsidiaries

Refer to Note 4(n) for the accounting policies on impairment of non-financial assets, Note 5(c) for uncertainty of accounting estimations and assumptions for goodwill impairment and Note 6(h) for the evaluation of goodwill impairment, respectively, to the parent-company-only financial statements.

Description of key audit matter:

Goodwill arising from acquisition of subsidiaries, which are included within the carrying amount of investments accounted for using the equity method, is subject to impairment test annually or at the time there are indications that goodwill may have been impaired. The assessment of the recoverable amount of the cash-generating unit of goodwill involves management's judgment and estimation with respect to the future cash flows and key assumptions which are complex and involve significant uncertainty. Accordingly, the assessment of impairment of goodwill has been identified as one of the key audit matters.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain audit procedures including, among others, assessing the basis used by management for identifying the cash-generating units and whether book value of assets belonging to respective cash-generating units have been completely covered; assessing the appropriateness of the valuation method and key assumptions (in particular projected sales growth rate and weighted-average cost of capital) used by the management in measuring the recoverable amount; assessing the historical reasonableness of management's estimates of financial forecasts, and performing a sensitivity analysis to assess the impact of variations in key assumptions. In addition to the above audit procedures, we have also involved a valuation specialist to evaluate the appropriateness of the weighted-average cost of capital used and its underlying assumptions; and inspecting the adequacy of the Company's disclosures of related information on impairment evaluation of goodwill.

Responsibilities of Management and Those Charged with Governance for the Parent-Company-Only Financial Statements

Management is responsible for the preparation and fair presentation of the parent-company-only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of parent-company-only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent-company-only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including members of the Audit Committee) are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Parent-Company-Only Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial parent-company-only statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent-company-only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, base on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent-company-only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent-company-only financial statements, including the disclosures, and whether the parent-company-only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the investee companies accounted for using the equity method to express an opinion on the parent-company-only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent-company-only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Huei-Chen Chang and Ching-Wen Kao.

KPMG

ACER INCORPORATED

Notes to Parent-Company-Only Financial Statements

For the years ended December 31, 2022 and 2021

**(Expressed in Thousands of New Taiwan Dollars, Except for Per Share Information
And Otherwise Specified)**

1. Organization and business

Acer Incorporated (the “Company”) was incorporated on August 1, 1976, as a company limited by shares under the laws of the Republic of China (“R.O.C.”) and registered under the Ministry of Economic Affairs, R.O.C.

The Company is primarily engaged in marketing and sale of brand-name IT products. The Company also builds innovative ecosystems in consumer and commercial markets to provide more products and integrated applications along with software, hardware and related services. In addition, the Company aims at building multiple business engines to foster innovation of products and application services for market expansion.

2. Authorization of the parent-company-only financial statements

These parent-company-only financial statements were authorized for issuance by the Board of Directors on March 16, 2023.

3. Application of new and revised accounting standards and interpretations:

- (a) The impact of the International Financial Reporting Standards (“IFRSs”) endorsed by the Financial Supervisory Commission, R.O.C. (“FSC”) which have already been adopted.

The Company has initially adopted the following new amendments, which do not have a significant impact on its financial statements, from January 1, 2022:

- Amendments to IAS 16 “Property, Plant and Equipment – Proceeds before Intended Use”
- Amendments to IAS 37 “Onerous Contracts – Cost of Fulfilling a Contract”
- Annual Improvements to IFRS Standards 2018–2020
- Amendments to IFRS 3 “Reference to the Conceptual Framework”

- (b) The impact of IFRS issued by the FSC but not yet effective

The Company assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2023, would not have a significant impact on its financial statements:

- Amendments to IAS 1 “Disclosure of Accounting Policies”
- Amendments to IAS 8 “Definition of Accounting Estimates”
- Amendments to IAS 12 “Deferred Tax related to Assets and Liabilities arising from a Single Transaction”

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

- (c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Company, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

<u>Standards or Interpretations</u>	<u>Content of amendment</u>	<u>Effective date per IASB</u>
Amendments to IAS 1 “Classification of Liabilities as Current or Non-current”	<p>Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional right to defer settlement for at least 12 months after the reporting date. The amendments has removed the requirement for a right to be unconditional and instead now requires that a right to defer settlement must exist at the reporting date and have substance.</p> <p>The amendments clarify how a company classifies a liability that can be settled in its own shares – e.g. convertible debt.</p>	January 1, 2024
Amendments to IAS 1 “Non-current Liabilities with Covenants”	<p>After reconsidering certain aspects of the 2020 amendments, new IAS 1 amendments clarify that only covenants with which a company must comply on or before the reporting date affect the classification of a liability as current or non-current.</p> <p>Covenants with which the company must comply after the reporting date (i.e. future covenants) do not affect a liability’s classification at that date. However, when non-current liabilities are subject to future covenants, companies will now need to disclose information to help users understand the risk that those liabilities could become repayable within 12 months after the reporting date.</p>	January 1, 2024

The Company is evaluating the impact of its initial adoption of the abovementioned standards or interpretations on its parent-company-only financial position and financial performance. The results thereof will be disclosed when the Company completes its evaluation.

The Company does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its parent-company-only financial statements:

- Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture”
- IFRS 17 “Insurance Contracts” and amendments to IFRS 17 “Insurance Contracts”

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

- IFRS 16 “Requirements for Sale and Leaseback Transactions”

4. Summary of significant accounting policies

The significant accounting policies presented in the parent-company-only financial statements are summarized as follows. The following accounting policies have been applied consistently to all periods presented in these financial statements.

(a) Statement of compliance

The accompanying parent-company-only financial statements have been prepared in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers” (the “Regulations”).

(b) Basis of preparation

(i) Basis of measurement

The accompanying parent-company-only financial statements have been prepared on a historical cost basis except for the following items:

- 1) Financial instruments measured at fair value through profit or loss (including derivative financial instruments);
- 2) Financial assets measured at fair value through other comprehensive income; and
- 3) Net defined benefit liability measured at present value of defined benefit obligation less the fair value of plan assets.

(ii) Functional and presentation currency

The functional currency of the Company is determined based on the primary economic environment in which the Company operates. The Company’s parent-company-only financial statements are presented in New Taiwan dollars, which is the Company’s functional currency. Except when otherwise indicated, all financial information presented in New Taiwan dollars has been rounded to the nearest thousand.

(c) Foreign currency

(i) Foreign currency transactions

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. At the end of each reporting period (“the reporting date”), monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured at historical cost are translated using the exchange rate at the date of the transaction.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

Exchange differences are generally recognized in profit or loss, except for an investment in equity securities designated as at fair value through other comprehensive income, which are recognized in other comprehensive income.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising from acquisition, are translated into the presentation currency of the Company's parent-company-only financial statements at the exchange rates at the reporting date. The income and expenses of foreign operations, excluding foreign operations in hyperinflationary economies, are translated into the presentation currency of the Company's parent-company-only financial statements at the average exchange rates for the period. All resulting exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, joint control, or significant influence is lost, the accumulated exchange differences related to that foreign operation is reclassified to profit or loss. In the case of a partial disposal that does not result in the Company losing control over a subsidiary, the proportionate share of the accumulated exchange differences is reclassified to non-controlling interests. For a partial disposal of the Company's ownership interest in an associate or joint venture, the proportionate share of the accumulated exchange differences in equity is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, the monetary item is, in substance, a part of net investment in that foreign operation, and the related foreign exchange gains and losses thereon are recognized as other comprehensive income.

(d) Classification of current and non-current assets and liabilities

An asset is classified as current when one of the following criteria is met; all other assets are classified as non-current assets:

- (i) It is expected to be realized, or intended to be sold or consumed in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) The asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current when one of the following criteria is met; all other liabilities are classified as non-current liabilities:

- (i) It is expected to be settled in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

(e) Cash and cash equivalents

Cash consists of cash on hand, checking deposits, and demand deposits. Cash equivalents consist of short-term and highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits that meet the aforesaid criteria and are not held for investing purposes are also classified as cash equivalents.

(f) Financial instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

(i) Financial assets

On initial recognition, a financial asset is classified as measured at: amortized cost, fair value through other comprehensive income (FVOCI), or fair value through profit or loss (FVTPL). All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold financial assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, these assets are measured at amortized cost, using the effective interest method, less impairment loss. Interest income, foreign exchange gains and losses, and recognition (reversal) of impairment loss are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

2) Financial assets measured at fair value through other comprehensive income ("FVOCI")

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Debt investments at FVOCI are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment loss are recognized in profit or loss. Other net gains and losses are recognized in other comprehensive income. On derecognition, other comprehensive income accumulated in equity are reclassified to profit or loss.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income. On derecognition, other comprehensive income accumulated in equity is reclassified to retained earnings and is never reclassified to profit or loss.

Dividend income derived from equity investments is recognized on the date that the Company's right to receive the dividends is established (usually the ex-dividend date).

3) Financial assets measured at fair value through profit or loss ("FVTPL")

All financial assets not classified as measured at amortized cost or at FVOCI described as above are measured at FVTPL, including derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any dividend and interest income, are recognized in profit or loss.

4) Impairment of financial assets

The Company recognizes loss allowances for expected credit losses ("ECL") on financial assets measured at amortized cost (including cash and cash equivalents, notes and accounts receivable, other receivables and other financial assets) and contract assets.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

The Company measures loss allowances for accounts receivable, contract assets and other financial assets at an amount equal to lifetime ECL, except for the following financial assets which are measured using 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- bank balances for which credit risk (i.e., the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. The information includes both quantitative and qualitative information and analysis based on the Company's historical experience and credit assessment, as well as forward-looking information.

ECLs are probability-weighted estimate of credit losses over the expected life of financial assets. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

5) **Derecognition of financial assets**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

The Company enters into transactions whereby it transfers assets recognized in its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets; in these cases, the transferred assets are not derecognized.

(ii) Financial liabilities and equity instruments

1) Classification of debt or equity

Debt and equity instruments issued by the Company are classified as financial liabilities or equity in accordance with the substance of the contractual agreements and the definitions of a financial liability and an equity instrument.

2) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recognized at the amount of consideration received, less the direct issuing cost.

3) Treasury stock

When shares recognized as equity are repurchased, the amount of the consideration paid, including directly attributable costs, is recognized as a deduction from equity. Repurchased shares are classified as treasury stock. When treasury stock is sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is recognized in capital surplus or retained earnings (if the capital surplus is not sufficient to be written down).

4) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is held for trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

5) Derecognition of financial liabilities

The Company derecognizes a financial liability when its contractual obligation has been fulfilled or cancelled, or has expired. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value. The difference between the carrying amount of a financial liability derecognized and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

6) Offsetting of financial assets and liabilities

Financial assets and liabilities are presented on a net basis only when the Company has the legally enforceable right to offset and intends to settle such financial assets and liabilities on a net basis or to realize the assets and settle the liabilities simultaneously.

(iii) Derivative financial instruments

The Company uses derivative financial instruments to hedge its foreign currency exposures. Embedded derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and certain criteria are met. Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are recognized in profit or loss.

(g) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is calculated using the weighted-average method, and includes expenditure incurred in bringing them to their existing location and condition. Net realizable value represents the estimated selling price in the ordinary course of business, less all estimated costs of completion and necessary selling expenses.

(h) Investments accounted for using the equity method

Investments accounted for using the equity method include investments in associates and interests in joint venture.

An associate is an entity in which the Company has significant influence, but not control or joint control, over their financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition less any accumulated impairment losses. When necessary, the entire carrying amount of the investment (including goodwill) will be tested for impairment as a single asset by comparing its recoverable amount with its carrying amount. Any impairment loss recognized forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

The Company recognizes its share of the profit or loss and other comprehensive income of those associates from the date on which significant influence commences until the date on which significant influence ceases. The Company recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in percentage of ownership.

Gains and losses resulting from transactions between the Company and an associate are recognized only to the extent of unrelated investors' interests in the associate.

Adjustments are made to associates' financial statements to conform to the accounting policies applied by the Company.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

When the Company's share of losses of an associate equals or exceeds its interests in an associate, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate.

The Company discontinues the use of the equity method and measures the retained interest at fair value from the date when its investment ceases to be an associate. The difference between the fair value of retained interest and proceeds from disposing of a part interest in the associate, and the carrying amount of the investment at the date the equity method was discontinued is recognized in profit or loss. The Company accounts for all the amounts previously recognized in other comprehensive income in relation to that associate on the same basis as would have been required if the associates had directly disposed of the related assets or liabilities. If a gain or loss previously recognized in other comprehensive income would be reclassified to profit or loss (or retained earnings) on the disposal of the related assets or liabilities, the Company reclassifies the gain or loss from equity to profit or loss (or retained earnings) when the equity method is discontinued. If the Company's ownership interest in an associate is reduced while it continues to apply the equity method, the Company reclassifies the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to the reduction in ownership interest to profit or loss (or retained earnings).

When the Company subscribes to additional shares in an associate at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment will differ from the amount of the Company's proportionate interest in the net assets of the associate. The Company records such a difference as an adjustment to investments, with the corresponding amount charged or credited to capital surplus. If the adjustments are charged to capital surplus and the capital surplus resulting from investments accounted for using the equity method is not sufficient, the remaining difference is debited to retained earnings. If the Company's ownership interest is reduced due to the additional subscription to the shares of the associate by other investors, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate will be reclassified to profit or loss on the same basis as would be required if the associate had directly disposed of the related assets or liabilities.

A joint venture is a joint arrangement whereby the Company has joint control of the arrangement (i.e. joint ventures) in which the Company has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities. The Company recognizes its interest in a joint venture as an investment and accounts for that investment using the equity method in accordance with IAS 28 "Investments in Associates and Joint Ventures", unless the Company qualifies for exemption from that Standard.

When assessing the classification of a joint arrangement, the Company considers the structure and legal form of the arrangement, the terms in the contractual arrangement, and other facts and circumstances. When the facts and circumstances change, the Company reevaluates whether the classification of the joint arrangement has changed.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

(i) Investments in subsidiaries

When preparing the parent-company-only financial statements, investment in subsidiaries which are controlled by the Company is accounted for using the equity method. Carrying amount of investments in subsidiaries includes goodwill arising from initial recognition less any accumulated impairment losses, which is recognized as a reduction of carry amount. Under the equity method, profit or loss and other comprehensive income recognized in parent-company-only financial statement is in line with total comprehensive income attributable to owners of the Parent in the consolidated financial statements. In addition, changes in equity recognized in parent-company-only financial statement is in line with the changes in equity attributable to owners of parent in the consolidated financial statements. Changes in a parent's ownership interest in a subsidiary that do not result in the loss of control are accounted for within equity.

The Company uses acquisition method for acquisitions of new subsidiaries. The goodwill arising from an acquisition is measured as the excess of the acquisition-date fair value of consideration transferred, including the amount of non-controlling interest in the acquiree, over the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed (generally at fair value). If the amount calculated above is a deficit balance, the Company recognizes that amount as a gain on a bargain purchase in profit or loss immediately after reassessing whether it has correctly identified all of the assets acquired and all of the liabilities assumed. For each business combination, non-controlling interest in the acquiree is measured either at fair value or at the non-controlling interest's proportionate share of the fair value of acquiree's identifiable net assets.

In an acquisition of new subsidiary achieved in stages, the Company shall remeasure its previously held equity interest in the acquiree at its acquisition-date fair value and recognize the resulting gain or loss in profit or loss. The amount previously recognized in other comprehensive income in relation to the changes in the value of the Company's equity interest should be reclassified to profit or loss on the same basis as would be required if the Company had disposed directly of the previously held equity interest.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, provisional amounts for the items for which the accounting is incomplete are reported in the financial statements. During the measurement period, the provisional amounts recognized at the acquisition date are retrospectively adjusted, or additional assets or liabilities are recognized, to reflect new information obtained about facts and circumstances that existed as of the acquisition date. The measurement period shall not exceed one year from the acquisition date.

Acquisition-related costs are expensed as incurred except for the costs related to issuance of debt or equity instruments.

(j) Property, plant and equipment

(i) Recognition and measurement

Property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Reclassification to investment property

A property is reclassified to investment property at its carrying amount when the purpose of the property changes from owner-occupied to investment.

(iii) Subsequent costs

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

(iv) Depreciation

Depreciation is calculated on the cost of assets less their residual values and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated. The estimated useful lives of property, plant and equipment are as follows: buildings— main structure - 30 to 50 years; air-conditioning system - 10 years; other equipment pertaining to buildings - 20 years; computer and communication equipment - 3 to 5 years; other equipment - 3 to 10 years.

Depreciation methods, useful lives, and residual values are reviewed at each financial year-end, with the effect of any changes in estimate accounted for on a prospective basis.

(k) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business or for administrative purposes. Investment property is measured at cost on initial recognition, and subsequently at cost, less accumulated depreciation and accumulated impairment losses. The methods for depreciating and determining the useful life and residual value of investment property are the same as those adopted for property, plant and equipment.

Rental income from investment property is recognized as other operating income and expenses on a straight-line basis over the term of the lease. Lease incentives granted are recognized as an integral part of the total rental income, over the term of the lease.

An investment property is reclassified to property, plant and equipment at its carrying amount when the purpose of the investment property has been changed from investment to owner-occupied.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

(l) Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) As a lessee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically evaluated and reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is subsequently measured at amortized cost using the effective interest method. It is remeasured when:

- there is a change in future lease payments arising from the change in an index or rate; or
- there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee; or
- there is a change of the Company's assessment on whether it will exercise an option to purchase the underlying asset, or;
- there is a change in the lease term resulting from a change of the Company's assessment on whether it will exercise an extension or termination option; or
- there is any lease modifications in lease subject, scope of the lease or other terms.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

At inception or on reassessment of whether a contract contains a lease, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings, the Company has elected not to separate non-lease components and account for each lease component and any associated non-lease components as a single lease component.

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Company accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize the difference in profit or loss for any gain or loss relating to the partial or full termination of the lease.

The Company presents right-of-use assets that do not meet the definition of investment properties and lease liabilities as a separate line item respectively in the parent-company-only balance sheets.

The Company has elected not to recognize right-of-use assets and lease liabilities for leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(ii) As a lessor

When the Company acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers to the lessee substantially all the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

For operating lease, the Company recognizes rental income on a straight-line basis over the lease term.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

(m) Intangible assets

(i) Goodwill

Goodwill arising from acquisitions of subsidiaries is accounted for as intangible assets. Refer to note 4(i) for the description of the measurement of goodwill at initial recognition. Goodwill arising from acquisitions of subsidiaries and associates are included in the carrying amount of investments in associates. Goodwill is not amortized but is measured at cost less accumulated impairment losses.

(ii) Trademarks

Trademarks are measured at cost. Subsequent to the initial recognition, trademarks with definite useful lives are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis. Trademarks with indefinite useful lives are carried at cost less any accumulated impairment losses and are tested for impairment annually. The useful life of an intangible asset not subject to amortization is reviewed annually at each financial year-end to determine whether events and circumstances continue to support an indefinite useful life assessment for the asset. Any change in the useful life assessment from indefinite to definite is accounted for as a change in accounting estimate.

(iii) Other intangible assets

Other separately acquired intangible assets are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized in profit or loss on a straight-line basis over the following estimated useful lives: patents - 4 to 15 years; acquired software - 1 to 3 years.

The residual value, amortization period, and amortization method are reviewed at least at each financial year-end, with the effect of any changes in estimate accounted for on a prospective basis.

(n) Impairment of non-financial assets

The Company assesses at the end of each reporting date whether there is any indication that the carrying amounts of non-financial assets (other than inventories, contract assets, and deferred tax assets) may be impaired. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually or when there are indications of impairment.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets. Goodwill arising from a business combination is allocated to cash-generating units ("CGUs") or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an individual asset or CGU is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other non-financial assets, an impairment loss is reversed only to the extent that the asset's carrying amount that would have been determined (net of depreciation or amortization) had no impairment loss been recognized for the assets in prior years.

(o) Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

(i) Warranties

A provision for warranties is recognized when the underlying products or services are sold. This provision reflects the historical warranty claim rate and the weighting of all possible outcomes against their associated probabilities.

(ii) Others

Provisions for litigation claims and environmental restoration are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

(p) Revenue recognition

(i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer. The Company recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Company's main types of revenue are explained below.

1) Sale of goods

The Company recognizes revenue when control of the products has been transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Company has objective evidence that all criteria for acceptance have been satisfied.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

The Company recognizes revenue based on the price specified in the contract, net of the estimated volume discounts and rebates. Accumulated experience is used to estimate the discounts and rebates using the expected value method, and revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. A refund liability is recognized for expected sales discounts and rebate payable to customers in relation to sales made until the end of the reporting period. No element of financing is deemed present as the sales are made with a credit term ranged from 30 to 90 days, which is consistent with the market practice.

The Company's obligation to provide a refund for faulty goods under the standard warranty terms is recognized as a provision for warranty. Please refer to note 6(o) for more explanation.

A receivable is recognized when the goods are delivered as this is the point in time that the Company has a right to an amount of consideration that is unconditional.

2) Revenue from service rendered

The Company provides system implementation or integration services to enterprise customers. Revenue from providing services is recognized in the accounting periods in which the services are rendered. For performance obligations that are satisfied over time, revenue is recognized based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided. The proportion of services provided is determined based on the portion of the work performed, the time passed by, or the milestone reached.

Estimates of revenues, costs, or extent of progress toward completion, are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by the management.

In case of fixed-price contracts, the customer pays the fixed amount based on a payment schedule. If the accumulated revenue recognized by the Company exceed the payments, a contract asset is recognized. If the payments exceed the accumulated revenue recognized, a contract liability is recognized.

3) Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and the payment made by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

(ii) Contract costs

1) Incremental costs of obtaining a contract

The Company recognizes the incremental costs of obtaining a contract with a customer as an asset if the Company expects to recover those costs. The incremental costs of obtaining a contract are those costs that the Company incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained. Costs to obtain a contract that would have been incurred, regardless of whether the contract was obtained, shall be recognized as an expense when incurred, unless those costs are explicitly chargeable to the customer regardless of whether the contract is obtained.

The Company applies the practical expedient to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the Company otherwise would have recognized is one year or less.

2) Assets recognized from costs to fulfill contracts with customers

If the costs incurred in fulfilling a contract with a customer are not within the scope of another Standard (e.g., IAS 2 *Inventories*, IAS 16 *Property, Plant and Equipment* or IAS 38 *Intangible Assets*), the Company recognizes an asset from the costs incurred to fulfil a contract only if those costs meet all of the following criteria:

- the costs relate directly to a contract or to an anticipated contract that the Company can specifically identify;
- the costs generate or enhance resources of the Company that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and
- the costs are expected to be recovered.

General and administrative costs, costs of wasted materials, labor or other resources to fulfil the contract that were not reflected in the price of the contract, costs that relate to satisfied performance obligations (or partially satisfied performance obligations), and costs for which the Company cannot distinguish whether the costs relate to unsatisfied performance obligations or to satisfied performance obligations (or partially satisfied performance obligations) are recognized as expenses when incurred.

(q) Government grant

A government grant is recognized in profit or loss only when there is reasonable assurance that the Company will comply with the conditions associated with the grant and that the grant will be received.

A government grant is recognized in profit or loss in the period in which it becomes receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company without future related costs.

Government grant is recorded in other operating income and expenses, net.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

(r) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution pension plans are expensed during the year in which employees render services.

(ii) Defined benefit plans

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets. The discount rate for calculating the present value of the defined benefit obligation refers to the interest rate of high-quality government bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating the terms of the related pension obligation. The defined benefit obligation is calculated annually by qualified actuaries using the projected unit credit method.

When the benefits of a plan are improved, the expenses related to the increased obligations resulting from the services rendered by employees in the past years are recognized in profit or loss immediately.

The remeasurements of the net defined benefit liability (asset) comprise (i) actuarial gains and losses; (ii) return on plan assets, excluding amounts included in net interest on the net defined benefit liability (asset); and (iii) any change in the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability (asset). The remeasurements of the net defined benefit liability (asset) are recognized in other comprehensive income and reflected in other equity.

The Company recognizes gains or losses on the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs. The gain or loss on curtailment or settlement comprises any resulting change in the fair value of plan assets and any change in the present value of the defined benefit obligation.

(iii) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed during the period in which employees render services. A liability is recognized for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to make such payments as a result of past service provided by the employees, and the obligation can be estimated reliably.

(s) Share-based payment

The grant-date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, and the amount ultimately recognized is based on the number of awards that meet the related service and non-market performance conditions at the vesting date.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

The grant date of options for employees to subscribe new shares for a cash injection is the date when the Board of Directors approves the exercise price and the shares to which employees can subscribe.

(t) Income taxes

Income taxes comprise current taxes and deferred taxes. Current and deferred taxes are recognized in profit or loss unless they relate to business combinations or items recognized directly in equity or other comprehensive income.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred income taxes are recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred taxes are not recognized for:

- (i) Temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- (ii) Temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- (iii) Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for unused tax losses, tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date, and reflect uncertainty related to income taxes, if any.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

Deferred tax assets and liabilities are offset if the following criteria are met:

- (i) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
 - 1) the same taxable entity; or
 - 2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.
- (u) Earnings per share (“EPS”)

The basic and diluted EPS attributable to stockholders of the Company are disclosed in the financial statements. Basic EPS is calculated by dividing net income attributable to stockholders of the Company by the weighted-average number of common shares outstanding during the year. In calculating diluted EPS, the net income attributable to stockholders of the Company and weighted-average number of common shares outstanding during the year are adjusted for the effects of dilutive potential common shares. The Company’s dilutive potential common shares include profit sharing for employees to be settled in the form of common stock.

- (v) Operating segments

The Company discloses the operating segment information in the consolidated financial statements. Therefore, the Company does not disclose the operating segment information in the parent-company-only financial statements.

5. Critical accounting judgments and key sources of estimation and assumption uncertainty

The preparation of the parent-company-only financial statements in conformity with the Regulations Governing the Preparation of Financial Reports requires management to make judgments, estimates and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in the future periods affected.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year is included as follows:

- (a) Revenue recognition (accrual of sales return and allowance)

The Company records a refund liability for estimated future returns and other allowances in the same period the related revenue is recognized. Refund liability for estimated sales returns and other allowances is generally made and adjusted based on historical experience, channel inventory, market and economic conditions, and any other factors that would significantly affect the allowance. The adequacy of estimations is reviewed periodically. The fierce market competition and rapid evolution of technology could result in significant adjustments to the accruals made.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

(b) Valuation of inventory

Inventories are measured at the lower of cost or net realizable value. The Company uses judgment and estimates to determine the net realizable value of inventory at each reporting date.

The Company estimates the net realizable value of inventory, taking obsolescence and unmarketable items into account at the reporting date, and then writes down the cost of inventories to net realizable value. The net realizable value of the inventory is mainly determined based on assumptions of future demand within a time horizon, which could result in significant adjustments. Refer to note 6(g) for further description of inventory write-downs.

(c) Impairment of goodwill from investments in subsidiaries

The assessment of impairment of goodwill requires the Company to make subjective judgments to identify cash-generating units, allocate the goodwill to relevant cash-generating units, and estimate the recoverable amount of relevant cash-generating units. Any changes in these estimates based on changed economic conditions or business strategies could result in significant adjustments in future years. Refer to note 6(h) for further description of the impairment of goodwill.

6. Significant account disclosures

(a) Cash and cash equivalents

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Cash on hand	\$ 614	514
Bank deposits	5,185,171	18,814,366
Time deposits	<u>11,239,128</u>	<u>1,749,798</u>
	<u>\$ 16,424,913</u>	<u>20,564,678</u>

(b) Financial instruments measured at fair value through profit or loss – current

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Financial assets mandatorily measured at fair value through profit or loss:		
Derivative instruments not used for hedging		
Foreign currency forward contracts	\$ 123,004	441,494
Non-derivative financial assets		
Stocks listed on foreign markets	<u>2,661</u>	<u>1,754</u>
	<u>\$ 125,665</u>	<u>443,248</u>
Financial liabilities held for trading – current:		
Derivatives – Foreign currency forward contracts	<u>\$ (714,504)</u>	<u>(145,969)</u>

Please refer to note 6(x) for the amounts recognized in profit or loss arising from remeasurement at fair value.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

The Company entered into derivative contracts to manage foreign currency exchange risk arising from operating activities. At each reporting date, the outstanding foreign currency forward contracts that did not conform to the criteria for hedge accounting consisted of the following (the contract amount was presented in USD):

- (i) Foreign currency forward contracts

December 31, 2022		
Contract amount (in thousands)	Currency	Maturity period
USD 662,000	USD / NTD	2023/01
USD 298,162	EUR / USD	2023/01~2023/06
USD 5,757	NZD / USD	2023/01~2023/03
USD 55,082	AUD / USD	2023/01~2023/04
USD 43,386	USD / JPY	2023/01~2023/10
USD 135,967	USD / INR	2023/01~2023/07
December 31, 2021		
Contract amount (in thousands)	Currency	Maturity period
USD 595,000	USD / NTD	2022/01
USD 669,048	EUR / USD	2022/01~2022/05
USD 10,494	NZD / USD	2022/01~2022/05
USD 115,082	AUD / USD	2022/01~2022/06
USD 31,917	USD / JPY	2022/01~2022/08
USD 214,969	USD / INR	2022/01~2022/06

- (c) Financial assets measured at fair value through other comprehensive income – non-current:

	December 31, 2022	December 31, 2021
Equity investments measured at fair value through other comprehensive income:		
Domestic listed stock	\$ 6,143,288	6,533,121
Domestic unlisted stock	322,456	157,421
	\$ 6,465,744	6,690,542

The Company designated the investments shown above financial assets measured as at fair value through other comprehensive income because these equity instruments are held for long-term strategic purposes and not for trading. Certain financial assets measured at FVOCI were disposed of in 2021, the related gain accumulated in other comprehensive income of \$40,230 has been reclassified from other equity to retained earnings, accordingly.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

(d) Financial assets measured at amortized cost

	December 31, 2022	December 31, 2021
Fixed Rate Corporate Bonds	\$ 183,622	-
Fixed Rate Callable Notes	614,160	-
	\$ 797,782	-

The Company evaluated these financial assets being hold-to-maturity in order to collect the contractual cash flows, which are solely payments for principal and interest on principal amount outstanding. Therefore, such financial assets were classified as financial assets measured at amortized cost.

(e) Notes and accounts receivable, net (measured at amortized cost)

	December 31, 2022	December 31, 2021
Notes receivable	\$ 5,250	14,619
Accounts receivable	3,566,480	6,322,943
Less: loss allowance	(1,755)	(1,798)
	3,569,975	6,335,764
Notes and accounts receivable from related parties (note 7(b))	12,743,460	37,518,525
	\$ 16,313,435	43,854,289

The Company applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. Forward looking information is taken into consideration as well. Analysis of expected credit losses on notes and accounts receivable was as follows:

	December 31, 2022		
	Gross carrying amount	Weighted- average loss rate	Loss allowance
Current	\$ 2,789,857	0.05%	(1,460)
Past due 1-30 days	752,600	0.00%	-
Past due 31-60 days	21,095	0.00%	-
Past due 61-90 days	3,046	0.03%	(1)
Past due 91-180 days	4,784	0.19%	(9)
Past due 181 days or over	348	81.90%	(285)
	\$ 3,571,730		(1,755)

The fair value of the investment property is determined by referring to the market price of similar real estate transaction or the value in use of the investment property. The value in use is the present value of the future cash flows from continuous lease activities. On December 31, 2022 and 2021, the estimated discount rate used for calculating the present value of the future cash flows was 6.83% and 5.79%, respectively.

Non-current	<u><u>\$ 57,923</u></u>	<u><u>33,810</u></u>

Please refer to note 6(z) for maturity analysis.

(ii) The amounts recognized in profit or loss were as follows:

	2022	2021
Interest on lease liabilities	<u><u>\$ 1,469</u></u>	<u><u>891</u></u>
Expenses relating to short-term leases	<u><u>\$ 9</u></u>	<u><u>3,129</u></u>
Expenses relating to leases of low-value assets	<u><u>\$ -</u></u>	<u><u>33</u></u>

(iii) The amounts recognized in the statement of cash flows for the Company were as follows:

	2022	2021
Total cash outflow for leases	<u><u>\$ 84,955</u></u>	<u><u>81,077</u></u>

(iv) Major terms of leases

The Company leases buildings, vehicles, office equipment, and miscellaneous equipment with lease terms ranged from 1 to 5 years. As certain leases of office and miscellaneous equipment meet the definition of short-term lease or lease of low-value assets, the Company has elected to apply exemption and not to recognize right-of-use assets and lease liabilities.

(i) Warranties

The provision for warranties is made based on the number of units sold currently under warranty, historical rates of warranty claim on those units, and cost per claim to satisfy the warranty obligation. The Company reviews the estimation basis on an ongoing basis and revises it when appropriate.

(ii) Litigation

Litigation provisions are recorded for pending litigation when it is determined that an unfavorable outcome is probable and the amount of loss can be reasonably estimated.

(iii) Environmental protection

An environmental protection provision is made when products are sold and is estimated based on historical experience.

(p) Operating lease

The Company leases its investment property to others. The Company has classified these leases as operating leases as it does not transfer substantially all the risks and rewards incidental to ownership of the assets to lessees. Please refer to note 6(k) for the information of investment property.

Notes to Parent-Company-Only Financial Statements

1) Composition of plan assets

The pension fund (the “Fund”) contributed by the Company is managed and administered by the Bureau of Labor Funds of the Ministry of Labor (the Bureau of Labor Funds). According to the “Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund”, with regard to the utilization of the Fund, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks. The Company also established pension funds in accordance with the “ Regulations Governing the Management, Investment, and Distribution of the Employees’ Retirement Fund Established by a Profit-seeking Enterprise”, which are funded by time deposits and bank deposits deposited in the designated financial institutions. The administration of pension funds is separate from the Company, and the principal and interest from such funds shall not be used in any form except for the payment of pension and severance to employees.

As of December 31, 2022 and 2021, the balances of aforementioned pension funds were \$252,072 and \$226,570, respectively. For information on the domestic labor pension fund assets (including the asset portfolio and yield of the fund), please refer to the website of the Bureau of Labor Funds.

2) Movements in present value of the defined benefit obligations

	<u>2022</u>	<u>2021</u>
Defined benefit obligations at January 1	\$ 945,444	890,212
Current service costs	9,005	8,750
Interest expense	5,869	5,521
Remeasurement on the net defined benefit liabilities:		
Actuarial loss (gain) arising from experience adjustments	23,142	49,502
Actuarial loss (gain) arising from changes in demographic assumption	-	19,838
Actuarial loss (gain) arising from changes in financial assumption	(99,072)	90,527
Benefits paid by the company and the plan	(11,487)	(97,193)
Liabilities assumed (transferred) due to the Group’s employee shift	(10,303)	(21,713)
Defined benefit obligations at December 31	<u>\$ 862,598</u>	<u>945,444</u>

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

3) Movements in fair value of plan assets

	<u>2022</u>	<u>2021</u>
Fair value of plan assets at January 1	\$ 226,570	314,957
Interest income	914	1,381
Remeasurement on the net defined benefit liabilities		
Return on plan assets (excluding amounts included in net interest expense)	13,348	2,499
Benefits paid by the plan	(11,487)	(95,960)
Contributions by the employer	27,752	27,103
Payments to related parties for transferred employees	-	(1,196)
Loss on curtailment	(5,025)	(22,214)
Fair value of plan assets at December 31	<u>\$ 252,072</u>	<u>226,570</u>

4) Changes in the effect of the asset ceiling

In 2022 and 2021, there was no effect of the asset ceiling.

5) Expenses recognized in profit or loss

	<u>2022</u>	<u>2021</u>
Current service costs	\$ 9,005	8,750
Net interest expense	4,955	4,140
Loss on curtailment	5,025	22,214
	<u>\$ 18,985</u>	<u>35,104</u>
Classified under operating expense	<u>\$ 18,985</u>	<u>35,104</u>

6) Actuarial assumptions

The principal assumptions of the actuarial valuation were as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Discount rate	1.750 %	0.625 %
Future salary increases rate	4.000 %	4.000 %

The Company expects to make contribution of \$26,736 to the defined benefit plans in the year following December 31, 2022. The weighted average duration of the defined benefit plans is 12.09 years.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

7) Sensitivity analysis

The following table summarizes the impact of a change in the assumptions on the present value of the defined benefit obligation on December 31, 2022 and 2021.

	December 31, 2022		December 31, 2021	
	0.25%	0.25%	0.25%	0.25%
	Increase	Decrease	Increase	Decrease
Discount rate	\$ (20,117)	20,774	(24,802)	25,665
Future salary increasing rate	\$ 19,840	(19,317)	24,284	(23,636)

The above sensitivity analysis considers the change in one assumption at a time, leaving other assumptions unchanged. This approach shows the isolated effect of changing one individual assumption but does not take into account that some assumptions are interrelated. The method used to carry out the sensitivity analysis is consistent with the calculation of the net defined benefit liabilities recognized in the balance sheets. The method and assumptions used to carry out the sensitivity analysis is the same as in the prior year.

(ii) Defined contribution plans

The Company contributes monthly an amount equal to 6% of each employee's monthly wages to the employee's individual pension fund account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under this defined contribution plan, the Company has no legal or constructive obligation to pay additional amounts after contributing a fixed amount to the Bureau of Labor Insurance.

For the years ended December 31, 2022 and 2021, the Company recognized pension expenses of \$85,098 and \$84,708, respectively, which had been contributed to the Bureau of Labor Insurance, in relation to the defined contribution plans.

(r) Income taxes

(i) The components of income tax expense were as follows:

	2022	2021
Current income tax expense		
Current period	\$ 1,060,710	2,869,233
Adjustments for prior years	(213)	12,571
	1,060,497	2,881,804
Deferred tax expense		
Origination and reversal of temporary differences	60,066	(306,644)
Change in unrecognized deductible temporary differences	235,599	230,274
	295,665	(76,370)
Income tax expense	\$ 1,356,162	2,805,434

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

The components of income tax benefit (expense) recognized in other comprehensive income were as follows:

	<u>2022</u>	<u>2021</u>
Items that will not be reclassified subsequently to profit or loss:		
Remeasurement of defined benefit plans	<u>\$ 17,856</u>	<u>(31,474)</u>

Reconciliation between the expected income tax expense calculated based on the Company's statutory tax rate and the actual income tax expense reported in the statements of comprehensive income was as follows:

	<u>2022</u>	<u>2021</u>
Income before taxes	<u>\$ 6,359,850</u>	<u>13,702,861</u>
Income tax using the Company's statutory tax rate	\$ 1,271,970	2,740,572
Adjustments for prior-year income tax expense	(213)	12,571
Change in unrecognized temporary differences	235,599	230,274
Undistributed earnings additional tax	1,187	-
Others	<u>(152,381)</u>	<u>(177,983)</u>
	<u>\$ 1,356,162</u>	<u>2,805,434</u>

(ii) Deferred income tax assets and liabilities

1) Unrecognized deferred income tax assets

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Loss associated with investments in subsidiaries	\$ 2,069,328	2,170,378
Deductible temporary differences	<u>816,471</u>	<u>1,210,727</u>
	<u>\$ 2,885,799</u>	<u>3,381,105</u>

The above deferred income tax assets were not recognized as management believed that it is not probable that future taxable profits will be available against which the Company can utilize the benefits therefrom.

2) Unrecognized deferred income tax liabilities

The Company is able to control the timing of the reversal of the temporary differences associated with investments in subsidiaries as of December 31, 2022 and 2021. As management believed that it is probable that the temporary differences will not reverse in the foreseeable future, such temporary differences were not recognized as deferred income tax liabilities. The related amounts were as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Profits associated with investments in subsidiaries	<u>\$ 884,717</u>	<u>1,615,622</u>

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

(s) Capital and other equity

(i) Common stock

As of December 31, 2022 and 2021, the Company had issued 5,664 thousand units and 5,707 thousand units, respectively, of global depository receipts (GDRs). The GDRs were listed on the London Stock Exchange, and each GDR represents five common shares.

As of December 31, 2022 and 2021, the Company's authorized shares of common stock consisted of 4,000,000 thousand shares, of which 3,047,854 thousand shares were issued. The par value of the Company's common stock is \$10 per share. All issued shares were paid up upon issuance.

Certain shares of common stock were not outstanding as they were repurchased by the Company or held by the Company's subsidiaries. The movements in outstanding shares of common stock were as follows (in thousands of shares):

	<u>2022</u>	<u>2021</u>
Balance at January 1 (Balance at December 31)	<u>3,001,108</u>	<u>3,001,108</u>
 (ii) Capital surplus		
	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Paid-in capital in excess of par value	\$ 10,094,950	10,086,648
Surplus from mergers	15,797,245	15,797,245
Surplus related to treasury stock transactions and cash dividend	729,273	621,975
Difference between consideration and carrying amount of subsidiaries acquired or disposed	259,646	247,301
Employee share options	90,000	90,000
Surplus from equity-method investments	<u>824,769</u>	<u>671,100</u>
	<u>\$ 27,795,883</u>	<u>27,514,269</u>

Pursuant to the Company Act, any realized capital surplus is initially used to cover accumulated deficit, and the balance, if any, could be transferred to common stock as stock dividends or distributed by cash based on the original shareholding ratio. Realized capital surplus includes the premium derived from the issuance of shares of stock in excess of par value and donations received by the Company. In accordance with the "Regulations Governing the Offering and Issuance of Securities by Securities Issuers", distribution of stock dividends from capital surplus in any one year shall not exceed 10% of paid-in capital.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

(iii) Legal reserve, special reserve, surplus distribution and dividend policy

The Company's Articles of Incorporation stipulate that at least 10% of annual net income, after deducting accumulated deficit, if any, must be retained as legal reserve until such retention equals the amount of paid-in capital. In addition, a special reserve shall be set aside in accordance with applicable laws and regulations. The remaining balance, together with the unappropriated earnings from the previous years, after retaining a certain portion of it for business considerations, can be distributed as dividends to stockholders. Except for the distribution of capital surplus and legal reserve in accordance with applicable laws and regulations, the Company cannot distribute any earnings when there are no retained earnings. The distributable dividends in whole or in part will be paid in cash by the Company after a resolution has been adopted by a majority vote at a meeting of the Board of Directors attended by two-thirds of the total number of directors; and in addition thereto a report of such distribution shall be submitted to the shareholders' meeting.

Since the Company operates in an industry experiencing rapid change and development, earnings are distributed in consideration of the current year's earnings, the overall economic environment, related laws and decrees, and the Company's long-term development and stability in its financial position. The Company has adopted a stable dividend policy, in which a cash dividend comprises at least 10% of the total dividend distribution.

Additionally, pursuant to the Company Act, if the Company has no accumulated deficit, it may, pursuant to a resolution approved by the stockholders, distribute its legal reserve by issuing new shares or distributing cash for the portion of legal reserve which exceeds 25% of the paid-in capital.

In accordance with the rulings issued by the FSC, a special reserve shall be retained at an amount equal to the proportionate share of the carrying value of the treasury stock held by subsidiaries in excess of the market value at the reporting date. The special reserve may be reversed when the market value recovers in subsequent periods.

In accordance with the rulings issued by the FSC, a special reserve equal to the total amount of items that are accounted for as deductions from stockholders' equity shall be set aside from the after-tax net profit in the period, plus items other than the after-tax net profit in the period, that are included in the undistributed current-period earnings and undistributed prior-period earnings. This special reserve shall revert to retained earnings and be made available for distribution when the items that are accounted for as deductions from stockholders' equity are reversed in subsequent periods.

On March 16, 2022, the Company's Board of Directors approved the distribution of cash dividends amounting to \$6,949,107 (\$2.28 per share), of which \$107,298 was distributed to the subsidiaries holding the Company's common shares. Additionally, on June 10, 2022, the Company's shareholders approved an appropriation of legal reserve and special reserve of \$1,058,914 and \$2,564,442, respectively.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

On March 16, 2023, the Company's Board of Directors approved the distribution of cash dividends amounting to \$4,571,781 (\$1.5 per share), of which \$70,119 was distributed to the subsidiaries holding the Company's common shares.

On March 17, 2021, the Company's Board of Directors had approved the distribution of cash dividends amounting to \$4,571,781 (\$1.5 per share), of which \$70,119 was distributed to the subsidiaries holding the Company's common shares. Additionally, on July 9, 2021, the Company's shareholders approved an appropriation of legal reserve and special reserve of \$602,575 and \$857,485.

Related information is available on the Market Observation Post System website of the Taiwan Stock Exchange.

(iv) Treasury stock

As of December 31, 2022 and 2021, details of the GDRs (for the implementation of an overseas employee stock option plan) held by subsidiary ASCBVI and the Company's common stock held by subsidiaries ASCBVI (to maintain the Company's shareholders' equity), CCI (to maintain the Company's shareholders' equity), and AGT (resulting from the acquisition of AGT) were as follows (expressed in thousands of shares):

		December 31, 2022		
		Number of shares	Carrying amount	Market value
Common stock		21,809	\$ 945,239	513,602
GDRs		24,937	1,969,617	536,042
		46,746	\$ 2,914,856	1,049,644
		December 31, 2021		
		Number of shares	Carrying amount	Market value
Common stock		21,809	\$ 945,239	664,084
GDRs		24,937	1,969,617	704,324
		46,746	\$ 2,914,856	1,368,408

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

According to the Securities and Exchange Act, treasury stock cannot be collateralized. In addition, treasury shares do not bear shareholder rights prior to being sold to third parties. Moreover, the number of treasury shares shall not exceed 10% of the number of common shares issued. The total amount of treasury stock shall not exceed the sum of retained earnings, paid-in capital in excess of par value, and other realized capital surplus.

The major changes in the balance of contract assets and liabilities were due to the timing difference between the satisfaction of performance obligation and the receipt of customer's payment.

The amount of revenue recognized in 2022 and 2021 that was included in the contract liability balance at January 1, 2022 and 2021, was \$847 and \$72,378, respectively.

(v) Remuneration to employees and directors

The Company's Articles of Incorporation require that annual earning shall first be offset against any deficit, then, a minimum of 4% shall be allocated as employee remuneration and a maximum of 0.8% be allocated as directors' remuneration. Employees who are entitled to receive the abovementioned employee remuneration, in share or cash, include the employees of subsidiaries of the Company who meet certain specific requirements.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

For the years ended December 31, 2022 and 2021, the Company accrued its remuneration to employees amounting to \$475,000 and \$720,000, respectively, and the remuneration for directors of \$18,800 and \$29,819, respectively. The said amounts, which were recognized as operating expenses, were calculated based on pre-tax net profit for each year before deducting the amount of the remuneration to employees and directors, multiplied by the proposed distribution ratio of remuneration to employees and directors.

Except that the remuneration to directors for 2022 resolved by the Company's Board of Directors on March 16, 2023 was \$7,000 and that for 2021 resolved by the Company's Board of Directors on March 16, 2022 was \$12,000, the aforementioned accrued remunerations to employees were the same as the amounts resolved by the Board of Directors, which were all paid in cash. The difference between accrual and actual payment, amounting to \$11,800 and \$17,819 for 2022 and 2021, respectively, is treated as change in accounting estimate and recognized in profit or loss in the following year.

Related information is available on the Market Observation Post System website of Taiwan Stock Exchange.

(ii) Fair value information

1) Financial instruments not measured at fair value

The Company considers that the carrying amounts of financial assets and financial liabilities measured at amortized cost approximate their fair values.

2) Financial instruments measured at fair value

The following financial instruments are measured at fair value on a recurring basis.

The table below analyzes the financial instruments measured at fair value subsequent to initial recognition, grouped into Levels 1 to 3 based on the degree to which the fair value is observable. The different levels have been defined as follows:

- a) Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- b) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- c) Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

3) Movement in financial assets included in Level 3 fair value hierarchy

	Financial assets measured at fair value through other comprehensive income	
	2022	2021
Balance at January 1	\$ 157,421	140,266
Additions	165,035	20,000
Disposals	-	(2,845)
Balance at December 31	<u>\$ 322,456</u>	<u>157,421</u>

4) Valuation techniques and inputs used for financial instruments measured at fair value

- a) The fair values of financial assets with standard terms and conditions and traded on active markets are determined with reference to quoted market prices (e.g. listed stocks).
- b) The fair value of derivative financial instruments is determined using a valuation technique, with estimates and assumptions consistent with those used by market participants that are readily available to the Company. The fair value of foreign currency forward contracts is computed individually by each contract using the valuation technique.
- c) The fair value of unlisted stocks in Level 3 fair value hierarchy is estimated by using the market approach and is determined by reference to recent financing activities, valuations of similar companies, market conditions, and other economic indicators. The significant unobservable input is the liquidity discount. No quantitative information is disclosed due to the possible changes in liquidity discount would not cause significant potential financial impact.

(iii) Offsetting of financial assets and liabilities

The Company has financial instrument transactions which are set off in accordance with paragraph 42 of IAS 32; the related financial assets and liabilities are presented in the balance sheets on a net basis.

(z) Financial risk management

The Company is exposed to credit risk, liquidity risk, and market risk (including currency risk, interest rate risk, and other market price risk). The Company has disclosed the information on exposure to the aforementioned risks and the Company's policies and procedures to measure and manage those risks as well as the quantitative information below.

The Board of Directors are responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor adherence to the controls. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's operations.

The Company's management monitors and reviews the financial activities in accordance with procedures required by relevant regulations and internal controls. Internal auditors undertake reviews of risk management controls and procedures, and the results of which are reported to the Board of Directors on a regular basis.

(i) Credit risk

1) The maximum exposure to credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty of a financial instrument fails to meet its contractual obligations, and arises principally from the Company's cash and cash equivalents, derivative instruments, receivables from customers, and other receivables. The maximum exposure to credit risk is equal to the carrying amount of the Company's financial assets.

2) Concentration of credit risk

The Company primarily sells and markets its multi-branded IT products through its subsidiaries and distributors in different geographic areas. The Company believes that there is no significant concentration of credit risk due to the Company's large number of customers and their wide geographical spread.

3) Credit risk from receivables

Please refer to note 6(e) for credit risk exposure of notes and accounts receivable. Other financial assets measured at amortized cost include bonds carrying fixed interest rates, other receivables (refer to note 6(f)) and time deposits (classified as other financial assets). Abovementioned financial assets are considered low-credit-risk financial assets, and thus, the loss allowance is measured using 12 months ECL. Please refer to note 4(f) for descriptions about how the Company determines the credit risk.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in settling its financial liabilities by delivering cash or another financial assets. The Company manages liquidity risk by monitoring regularly the current and mid- to long-term cash demand, maintaining adequate cash and banking facilities, and ensuring compliance with the terms of the loan agreements. As of December 31, 2022 and 2021, the Company had unused credit facilities of \$35,045,988 and \$33,798,870, respectively.

The table below is the maturity profile of the Company's financial liabilities based on contractual undiscounted payments, including principal and estimated interest.

	<u>Contractual cash flows</u>	<u>Within 1 year</u>	<u>1-2 years</u>	<u>2-5 years</u>
December 31, 2022				
Non-derivative financial liabilities:				
Bonds payable	\$ 10,260,500	69,000	69,000	10,122,500
Notes and accounts payable (including related parties)	21,857,688	21,857,688	-	-
Other payables (including related parties)	27,585,516	24,918,741	2,666,775	-
Lease liability	122,738	64,177	40,653	17,908
	<u>\$ 59,826,442</u>	<u>46,909,606</u>	<u>2,776,428</u>	<u>10,140,408</u>
Derivative financial instruments:				
Foreign currency forward contracts – settled in gross				
Outflow	\$ 42,059,383	42,059,383	-	-
Inflow	(41,583,557)	(41,583,557)	-	-
	<u>\$ 475,826</u>	<u>475,826</u>	<u>-</u>	<u>-</u>
December 31, 2021				
Non-derivative financial liabilities:				
Bonds payable	\$ 10,329,500	69,000	69,000	10,191,500
Notes and accounts payable (including related parties)	48,606,709	48,606,709	-	-
Other payables (including related parties)	27,092,942	24,778,327	2,314,615	-
Lease liability	78,063	43,968	19,616	14,479
	<u>\$ 86,107,214</u>	<u>73,498,004</u>	<u>2,403,231</u>	<u>10,205,979</u>
Derivative financial instruments:				
Foreign currency forward contracts – settled in gross				
Outflow	\$ 53,405,805	53,405,805	-	-
Inflow	(53,670,897)	(53,670,897)	-	-
	<u>\$ (265,092)</u>	<u>(265,092)</u>	<u>-</u>	<u>-</u>

The Company does not expect that the cash flows included in the maturity analysis would occur significantly earlier or at significantly different amounts.

(iii) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices, and will affect the Company's income or the value of its financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

(Continued)

ACER INCORPORATED
Notes to Parent-Company-Only Financial Statements

The Company utilizes derivative financial instruments to manage market risks and the volatility of profit or loss. All such transactions are carried out within the guidelines set by the Board of Directors.

1) Foreign currency risk

The Company is exposed to foreign currency risk on sales and purchases that are denominated in a currency other than the functional currency of the Company. The foreign currencies used in these transactions are mainly the Europe Currency (EUR) and the US dollar (USD), Australian dollar (AUD), Indian Rupee (INR), etc. The Company utilizes foreign currency forward contracts to hedge its foreign currency exposure with respect to its forecast sales and purchases over the following 12 months.

Exposure to foreign currency risk and sensitivity analysis:

The Company's exposure to foreign currency risk arises from cash and cash equivalents, notes and accounts receivable/payable (including related parties), and other receivables/payables (including related parties) that are denominated in foreign currencies. At the reporting date, the carrying amounts of the Company's significant monetary assets and liabilities denominated in a currency other than the functional currency of the Company and their sensitivity analysis were as follows:

(in thousands)

December 31, 2022					
	Foreign currency	Exchange rate	NTD	Change in magnitude	Pre-tax effect on profit or loss
<u>Financial assets</u>					
<u>Monetary items</u>					
USD	\$ 767,940	30.7080	23,581,902	1 %	235,819
INR	9,337,477	0.3712	3,466,071	1 %	34,661
<u>Financial liabilities</u>					
<u>Monetary items</u>

(in thousands)

December 31, 2021					
	Foreign currency	Exchange rate	NTD	Change in magnitude	Pre-tax effect on profit or loss
<u>Financial assets</u>					
<u>Monetary items</u>					
EUR	\$ 176,651	31.4835	5,561,592	1 %	55,616
USD	1,714,773	27.6900	47,482,064	1 %	474,821
AUD	112,017	20.1112	2,252,796	1 %	22,528
INR	13,403,716	0.3725	4,992,884	1 %	49,929
<u>Financial liabilities</u>					
<u>Monetary items</u>					
USD	2,532,956	27.6900	70,137,552	1 %	701,376

With varieties of foreign currencies, the Company disclosed foreign exchange gain (loss) on monetary items in aggregate. Please refer to note 6(x) for further information.

2) Other market price risk

The Company is exposed to the risk of price fluctuation in securities resulting from its investment in publicly traded stocks. The Company supervises the equity price risk actively and manages the risk based on fair value. The Company also has strategic investments in privately held stocks, in which the Company does not actively participate in their trading.

Assuming a hypothetical increase or decrease of 5% in equity prices of the equity investments at each reporting date, the other comprehensive income for the years ended December 31, 2022 and 2021, would have increased or decreased by \$323,287 and \$334,527, respectively.

(aa) Capital management

In consideration of the industry dynamics and future developments, as well as external environment factors, the Company maintains an optimal capital structure to enhance long-term shareholder value by managing its capital in a manner to ensure that it has sufficient and necessary financial resources to fund its working capital needs, research and development activities, dividend payments, and other business requirements for continuing operations and to reward shareholders and take into consideration the interests of other stakeholders.

Name of related party	Relationship with the Company
Mu-Shi Investments Co., Ltd.	The entity's director is the Company's chairman

(Note1) On December 31, 2022, AGM acquired control over WKC and its subsidiaries, as a result, WKC and its subsidiaries became related parties of the Company.

(Note2) GadgetTek Inc. (GTI), one of subsidiaries of the Company, has been merged into Acer Gadget Inc. in the second quarter of 2021.

(b) Significant related-party transactions

(i) Revenue

The amounts of significant sales to related parties were as follows:

	2022	2021
Subsidiaries		
AEG	\$ 62,204,606	93,323,424
AAC	39,345,499	73,481,903
Others	48,684,621	58,522,673
Associates	58,894	128,715
Joint venture	7	-
Other related parties	764	89
	\$ 150,294,391	225,456,804

The sales prices and trade term with related parties depend on the economic environment and market competition, and are not comparable to those with third-party customers.

(ii) Purchases

The amounts of significant purchases from related parties were as follows:

	2022	2021
Subsidiaries	\$ 4,133,492	3,274,588

The purchase price with related parties are not comparable to the purchase price with third-party vendors as the specifications of products are different.

9. Significant commitments and contingencies

- (a) The Company has entered into software and royalty license agreements with Microsoft, IBM, and other companies. The Company has fulfilled its obligations according to the contracts.
- (b) In the regular course of its business from, the Company received letter of notice from third parties asserting that the Company has infringed certain patents and demanded that it should obtain certain patent licenses. Although the Company does not expect that the outcome of any of these legal proceedings (individually or collectively) will have a material adverse effect on its business operations and finance, the litigation is inherently unpredictable. Therefore, the Company may be involved in a future lawsuit or enter into settlements of claims that could adversely affect its operating results or cash flows within a particular period.
- (c) As of December 31, 2022, there were no outstanding stand-by letters of credit issued for bidding or contracts. As of December 31, 2021, the Company had outstanding stand-by letters of credit provided by the banks totaling \$6,720 for purposes of bids and contracts.
- (d) As of December 31, 2022 and 2021, the Company had issued promissory notes amounting to \$36,590,060 and \$35,247,050, respectively, as collateral for obtaining credit facilities from financial institutions.

10. Significant loss from disaster: None

11. Significant subsequent events: None

Note 1: Nature of Financing:

Type 2: Short-term financing purpose

Note 2: 1. The aggregate financing amount shall not exceed 50% of net worth of the Company, within which the short-term financing amount shall not exceed 20% of net worth of the Company.

1-1. For an entity which the Company owns less than 50% of its outstanding common shares, the individual financing amounts shall not exceed lower of 5% of net worth of the Company and 40% of net worth of the entity.

1-2. For an entity which the Company owns more than 50% of its outstanding common shares, the individual financing amounts shall not exceed 10% of net worth of the Company.

1-3. When a subsidiary who provides financing to other parties is directly or indirectly wholly owned by the Company, the aforementioned limit of aggregate amount and individual financing amount is applied.

2. For AIZS, the aggregate financing amount shall not exceed 120% of net worth of AIZS.

3. The financing limits of GWI and AAH were as follows:

3-1. The individual financing amounts shall not exceed higher of 20% of net worth of the entity or 50% of net worth of the ultimate parent company.

3-2. For an entity which the ultimate parent company wholly owns directly or indirectly, the individual financing amounts shall not exceed 120% of net worth of the entity.

4. The financing limits of APDI, ABH, CCI, ADSC, API and EDC were as follows:

4-1. The aggregate financing amount shall not exceed 40% of net worth of the entities listed above.

4-2. The individual financing amounts to the ultimate parent company shall not exceed 40% of net worth of the entities listed above.

5. For an entity which the financing company owns more than 50% of its outstanding common shares or is fellow subsidiary of the same group, the individual financing amounts of ABH and ADSC shall not exceed 10% of net worth of ABH and ADSC.

6. The financing limit of ASDI was as follows:

6-1. The aggregate financing amount shall not exceed 40% of net worth of ASDI.

6-2. The individual financing amounts to the ultimate parent company and its related parties shall not exceed 40% of net worth of ASDI.

7. Both of the aggregate financing amount and the individual financing amounts of Bluechip shall not exceed 20% of net worth of Bluechip.

8. The financing limits of AST, AGT, MPS, WLII, PGL and PAL were as follows:

8-1. The aggregate financing amount shall not exceed 40% of net worth of the entities listed above.

8-2. The individual financing amounts shall not exceed 10% of net worth of the entities listed above.

8-3. Regarding the financing provided by AST to ASTA, since the financing contract with a financing limit of \$30,000 will expire in January 2023, AST's Board of Directors approved the financing of \$60,000 to ASTA due to its operating requirements.

However, because of the early meeting of the Board of Directors, the ending balance of the financing provided by AST to ASTA was repetitively calculated.

9. The financing limit of AEG was as follows:

8-1. The aggregate financing amount shall not exceed 100% of net worth of the entities listed above.

8-2. The individual financing amounts shall not exceed 50% of net worth of the entities listed above.

10. For the financing limit of WKHK, both of the aggregate financing amount and the individual financing amounts shall not exceed 100% of its net worth.

Note 3: PGL was liquidated during 2022.

Note 4: Net worth of the Company and subsidiaries listed above are the most recent audited.

Note 5: The above transactions are eliminated when preparing the consolidated financial statements.

Note 1: Method of Investment:

Type 1: Direct investment in Mainland China.

Type 2: Indirect investment in Mainland China through a holding company established in other countries.

Note 2: Acer Intellectual (Chongqing) Limited had merged with Acer (Chongqing) Ltd. in 2014, and Acer (Chongqing) Ltd. was the surviving entity from the merger. This amount included the original investment in

Acer Intellectual (Chongqing) Limited of \$122,832 (US\$ 4,000 thousand).

Note 3: Innovation and Commercialization Accelerator Inc. and Consumer Insights Research (Chongqing) Inc. were reinvested by Acer Cloud Technology(Chongqing) Ltd.

Note 4: Acer China Venture Partnership was invested by the Company and Acer China Venture Corp of \$60,533 and \$4,324, respectively.

Investor Company Name	Accumulated Investment in Mainland China as of December 31, 2022 (Note 5)(Note 6)(Note 7)(Note 8)	Investment Amounts Authorized by Investment Commission, MOEA (Note 5)(Note 6)(Note 7)(Note 8)	Upper Limit on Investment Authorized by Investment Commission, MOEA
The Company and Subsidiaries	\$5,791,757 (US\$188,607,415)	\$7,893,171 (US\$257,039,530.8)	(Note)

Note 5: In September, 2008, AOI had disposed all shares of JNS Technology Co., Ltd., and the proceeds from the disposal of US\$ 730,000 had been remitted to AOI in March 2010.

AOI has not yet to report to MOEA, therefore, the amount of US\$ 1,645,200 was still included the original investment in JNS Technology Co., Ltd.

Note 6: T-Conn Precision(Zhongshan) Co., Ltd., indirectly invested by AOI, had been dissolved and the related liquidation process has been completed. The liquidation proceeds of US\$ 31,549.06 (according to ownership percentage of 19%) has been remitted to Super Elite Ltd., a holding company established in other countries. On March 12, 2010, AOI has obtained MOEA's approval to withdraw its investment. However, the amount of accumulated investment in Mainland China still included the amount of US\$ 57,000 due to the liquidation of capital which has yet to be remitted to Taiwan.

Note 7: As a result of the acquisition of WKC, AGM indirectly acquired its investment of WKSH located in Mainland China, and meanwhile accumulated the investments in Mainland China amounting to US\$16,033,042.

Note 8: AGM made indirect investment in Mainland China through a holding company (WKC) established in other countries.

The above amounts were translated into New Taiwan dollars at the exchange rate of US\$1=NT\$30.708 as of December 31, 2022.

Note: Since the Company has obtained the Certificate of Headquarter Operation, there is no upper limitation on investment in Mainland China.
